Secret Science of Superheroes Mark Lorch, Andy Miah, 2017-09-01 Ever wondered what a superhero eats for breakfast Do they need a special diet to feed their superpowers The odd metabolisms of superheroes must mean they have strange dietary needs from the high calorie diets to fuel flaming bodies and super speeds to not so obvious requirements for vitamins and minerals The Secret Science of Superheroes looks at the underpinning chemistry physics and biology needed for their superpowers Individual chapters look at synthesising elements on demand genetic evolution and what superhero suits could be made of By exploring these topics the book introduces a wide range of scientific concepts from protein chemistry to particle physics for a general scientifically interested audience With contributions from leading science communicators the book hopes to answer some of these important questions rather than debunk or pick holes in the science of superheroes

The Cult of the Goddess Pattini Gananath Obeyesekere, 1987-01-01 Pattini goddess virgin wife and mother folk deity of Sinhala Buddhists and Jains and assimilated goddess of the Hindu pantheon has been worshiped in Sri Lanka and South India for fifteen hundred years or more as she still is today This long awaited book is the culmination of Gananath Obeyesekere s comprehensive study of the Pattini cult and its historical sociological and psychoanalytical role in the culture of South Asia A well known anthropologist and a native of Sri Lanka Obeyesekere displays his impeccable scholarship and a stunning range of theoretical perspectives in this work the most detailed analysis of a single religious complex in South Asian ethnography and possibly in all of anthropology Since 1955 Obeyesekere has observed and participated in modern performances of the rituals of worship healing and propitiation in the Pattini cult particularly the postharvest ritual known as the gammaduva He presents detailed texts of the gammaduva placing them in their historical and mythic traditions Using the texts he formulates a cultural analysis of the Buddhist pantheon and a critique of empiricist notions of South Asian historiography Obeyesekere shows that some seemingly historical figures of South India and Sri Lanka are mythic characters and that their historical significance can best be understood by an anthropological analysis of myth rather than through a reification of myth in history The concurrent Hindu worship of Pattini with its myths and rituals is described in detail Obeyesekere documents the Sanskritization of Pattini the changing physical structures of the goddess s shrines from the 1930s to the present the assumption by Brahman priests of ritual functions formerly carried out by folk priest and the sociocultural causes of these changes He traces too the origins and diffusion of the cult throughout its entire history as well as its survival today Of psychological interest is the problematic status of Pattini as virgin wife and mother and her relationship with her god husband Palanga and his courtesan Madevi Obeyesekere discusses the psychodynamics of this relationship in detail and explains its role in Hindu Buddhist socialization and family structure Further he uses this analysis to account for local variations in the performance and structure of the ritual The ritual of the killing and resurrection of Pattini s husband and her role as mater dolorosa will interest scholars of comparative religion
