American Protestant missionaries were sent to live throughout the non European world They expected to change the people they encountered but those foreign people ended up transforming the missionaries Their experience abroad made many of these missionaries and their children critical of racism imperialism and religious orthodoxy When they returned home they brought new liberal values back to their own society Protestants Abroad reveals the untold story of how these missionary connected individuals left an enduring mark on American public life as writers diplomats academics church officials publishers foundation executives and social activists

China's Christian Colleges Daniel Bays,Widmer,2009-02-27 China's Christian Colleges explores the cross cultural dynamics that existed on the campuses of the Protestant Christian colleges in China during the first half of the twentieth century Focusing on two way cultural influences rather than on missionary efforts or Christianization these campuses most of which were American supported and had a distinctly American flavor were laboratories or incubators of mutual cultural interaction that has been very rare in modern Chinese history In this Sino foreign cultural territory the collaborative educational endeavor between Westerners and Chinese created a highly unusual degree of cultural hybridity in some Americans and Chinese The thirteen essays of the book provide concrete examples of why even today more than a half century after the colleges were taken over by the state long lasting cultural results of life in the colleges remain

How Christianity Came to China Kathleen L. Lodwick,2016-12-01 The story of the foreign missionaries who served in China between 1809 and 1949 is one of fervent religious commitment and of the loss of faith of determined perseverance and of angry frustration of accepting people as they are and of cultural superiority of human kindness and of narrow prejudice of those who loved China and of those who refused to acknowledge the society in which they lived of those who spent their entire adult lives in China and of those who fled home as soon as possible and of those who admired China and of those who were driven insane by living in China In short it is a story of ordinary people with all their good qualities and all their shortcomings In all of its complexity Kathleen L Lodwick tells the story of Christianity in China It's essential reading for anyone wanting to understand the contemporary phenomena that is Christianity in China which some people predict soon will be the country with the largest Christian population in the world

Fact in Fiction Kristin Stapleton, 2016-08-17 Historical novels can be

windows into other cultures and eras but it's not always clear what's fact and what's fiction. Thousands have read Ba Jin's influential novel *Family*, but few realize how much he shaped his depiction of 1920s China to suit his story and his politics. In *Fact in Fiction*, Kristin Stapleton puts Ba Jin's bestseller into full historical context both to illustrate how it successfully portrays human experiences during the 1920s and to reveal its historical distortions. Stapleton's attention to historical evidence and clear prose that directly addresses themes and characters from *Family* create a book that scholars, students, and general readers will enjoy. She focuses on Chengdu, China, Ba Jin's birthplace and the setting for *Family*, which was also a cultural and political center of western China. The city's richly preserved archives allow Stapleton to create an intimate portrait of a city that seemed far from the center of national politics of the day but clearly felt the forces of and contributed to the turbulent stream of Chinese history.

Austere Luminosity of Chinese Classical Furniture Sarah Handler, 2023-12-22 Chinese classical furniture is esteemed throughout the world for its beauty, functionalism, and influence on contemporary design aesthetics. Sarah Handler's stunningly illustrated volume traces Chinese hardwood furniture from its earliest origins in the Shang dynasty (c. 1500 to c. 1050 B.C.) to the present. She offers a fascinating and poetic view of Chinese furniture as functional sculpture, a fine art alongside the other Chinese arts of calligraphy, architecture, painting, and literature. Handler, a widely respected scholar of Chinese furniture, uses her knowledge of Chinese social, political, and economic history to provide a backdrop for understanding the many nuances of this art form. Drawing on literary and visual evidence from excavated materials, written texts, paintings, prints, and engravings, she discusses how people lived, their notions of hierarchy, and their perceptions of space. Her descriptions of historical developments, such as the shift from mats to chairs, evoke the psychological and sociological ramifications. The invention of a distinctive way to support and contain people and things within the household is one of China's singular contributions, says Handler. With more than three hundred exquisite illustrations, many in color, Handler's comprehensive study reveals the magical totality of Chinese classical furniture from its rich surfaces and shrewd proportions down to the austere soul of art that resides in the hardwood interiors. *Austere Luminosity* recognizes Chinese classical furniture as one of China's premier arts, unique in the furniture traditions of the world.

China's Foreign Places Robert Nield, 2015-03-01 During the nineteenth and early twentieth centuries, the imperial powers—principally Britain, the United States, Russia, France, Germany, and Japan—signed treaties with China to secure trading residence and other rights in cities on the coast, along important rivers, and in remote places further inland. The largest of them, the great treaty ports of Shanghai and Tientsin, became modern cities of international importance, centres of cultural exchange and safe havens for Chinese who sought to subvert the Qing government. They are also lasting symbols of the uninvited and often violent incursions by foreign powers during China's century of weakness. The extraterritorial privileges that underpinned the treaty ports were abolished in 1943, a time when much of the treaty port world was under Japanese occupation. *China's Foreign Places* provides a historical account of the hundred or more major foreign settlements.

that appeared in China during the period 1840 to 1943 Most of the entries are about treaty ports large and small but the book also includes colonies leased territories resorts and illicit centres of trade Information has been drawn from a wide range of sources and entries are arranged alphabetically with extensive illustrations and maps China's Foreign Places is both a unique work of reference essential for scholars of this period and travellers to modern China It is also a fascinating account of the people institutions and businesses that inhabited China's treaty port world *Pioneer in Tibet* Douglas

Wissing,2015-03-17 Dr Albert Shelton was a medical missionary and explorer who spent nearly twenty years in the Tibetan borderlands at the start of the last century During the Great Game era the Sheltons sprawling station in Kham was the most remote and dangerous mission on earth Raising his family in a land of banditry and civil war caught between a weak Chinese government and the British Raj Shelton proved to be a resourceful frontiersman One of the West's first interpreters of Tibetan culture during the course of his work in Tibet he was praised by the Western press as a family man revered doctor respected diplomat and fearless adventurer To the American public Dr Albert Shelton was Daniel Boone Wyatt Earp and the apostle Paul on a new frontier Driven by his goal of setting up a medical mission within Lhasa the seat of the Dalai Lama and a city off limits to Westerners for hundreds of years Shelton acted as a valued go between for the Tibetans and Chinese Recognizing his work the Dalai Lama issued Shelton an invitation to Lhasa Tragically while finalizing his entry Shelton was shot to death on a remote mountain trail in the Himalayas Set against the exciting history of early twentieth century Tibet and China *Pioneer in Tibet* offers a window into the life of a dying breed of adventurer *Educating the Women of Hainan*

Kathleen L. Lodwick,2021-12-14 For Margaret Moninger a brilliant fun loving and dedicated young woman from Iowa a career as a missionary in China promised adventure and the chance for responsibility and authority denied most American women of her time In 1915 she went as a Presbyterian missionary to Hainan Island China's southernmost territory where she remained until repatriated in 1942 During her years in Hainan Moninger played many roles she headed a girls mission school wrote scholarly articles on the Miao aborigines collected botanical specimens for scientists at home and served as mission treasurer She was responsible for communications with American diplomatic personnel and was one of only six women appointed to the Presbyterian China Council which set mission policies for all of China Kathleen Lodwick's biography the first devoted to a single woman missionary is based primarily on the long newsy letters Moninger wrote her family every Sunday of her missionary years and on those of a fellow missionary It will be of interest to scholars in Asian studies religious studies and anthropology **Conflict, Community, and the State in Late Imperial Sichuan**

Quinn Javers,2019-03-04 Exploring local practices of dispute resolution and laying bare the routine role of violence in the late Qing dynasty **Conflict Community and the State in Late Imperial Sichuan** demonstrates the significance of everyday violence in ordering disciplining and building communities The book examines over 350 legal cases that comprise the cases of unnatural death archival file from 1890 to 1900 in Ba County Sichuan province The archive presents an untidy array of death including homicides suicides and

found bodies An analysis of the muddled and often petty disputes found in these records reveals the existence of a local system of authority that disciplined and maintained daily life Often relying on violence this local justice system occasionally intersected with the state s justice system but was not dependent on it This study demonstrates the importance of informal local authority to our understanding of justice in the late Qing era Providing a non elite perspective on Qing power law justice and the role of the state this book will be of great interest to students and scholars of Chinese and Asian history as well as legal history and comparative studies of violence
