Golf From The Ball Forward

Marcel A. Müller

Golf From The Ball Forward:

Golf Gerry E. Crumpley, 2002 Have you ever asked yourself these questions Why is it so hard for me to play golf Why does my brain seem to go blank at the top of my backswing Why can't I feel as though I KNOW where the ball is going I've taken the lessons and read the books what's missing I understand what they're saying so why can't I seem to improve Why can't I seem to do what the instructors are teaching me Why Can you play softball or baseball pretty good How about tennis or hockey Then why can't you be just as good playing golf It doesn't make sense does it This book explores a whole new approach to the PURPOSE of the golf swing It does not teach swing mechanics but rather focuses on helping to change your perception of actually what happens during the golf swing There is no cure-all for the golf swing there never will be It's all in our heads If we let our brain take over we will be amazed at what we can do Keeping our minds focused on what it is that we're trying to do and not on how to do it allows our brain to make the necessary changes to accomplish that task automatically I'm not a pro and never will be This book is not perfect not complete and not the answer But golf is beginning to be a lot more fun

The Impact Zone Bobby Clampett, Andy Brumer, 2024-09-04 Every golfer can improve their swing dynamics using these instructions from one of the most knowledgeable golfing minds in the game Tom Lehman British Open Champion The Impact Zone is a unique instructional guide in that everything in it either focuses on or applies to improving a golfer's understanding and execution of impact as the golf club approaches contacts then swings through the ball Here acclaimed professional golfer Bobby Clampett concludes that the overwhelming bias and convention of today's contemporary teaching environment is to value swing styles over swing dynamics and in so doing the overwhelming majority of golf teachers miss the boat in terms of teaching the game effectively Ultimately this emphasis on swing style comes at the expense of helping golfers to develop sound swing dynamics which are the real keys to consistent ball striking and better golf With the help of CBS's Swing Vision high speed camera using images from many of the game's greatest contemporary players including Tiger Woods Phil Mickelson John Daly Vijay Singh Sergio Garcia and more The Impact Zone takes an unprecedented look at the most important six inches in golf those that immediately precede contain and follow impact To further demonstrate these principles Clampett presents photos and drills that convey the five essential dynamics golfers need to produce and reproduce solid impact Throughout these instructional pages Bobby Clampett teamed with veteran golf writer Andy Brumer relays his own personal story of straying from swing dynamics and how he found his way back He recalls memorable stories from the Tour blending innovative instruction with his colorful engaging anecdotes
