Elite designers such as Tom Fazio, Jack Nicklaus, Pete Dye, Rees Jones, Robert Trent Jones Jr, Arthur Hills, Arnold Palmer and others share their personal anecdotes related to the creation of some of the world's most famous courses, from run ins with snakes to bulldozers sinking in quicksand to holes created by accident such as the famed island green 17th at the TPC at Sawgrass.

**Grounds for Golf** Geoff Shackelford, 2003-04-24. Golfers dream of playing the legendary courses of the game: St Andrews, Augusta National, Pinehurst, Pebble Beach. And anyone who has played the royal and ancient sport is an armchair architect at heart. From alterations for their home course to visions of their very own backyard dream course, most golfers would love to test their hands at course design. What makes certain courses timeless? Unlike the venues of other popular recreational sports like tennis and racquetball whose playing fields are bound by strict measurements that do not vary, each golf course is unique. Offering an endless topographical variety from short to long, flat or hilly, wet or dry, every course represents a compelling blend of risks versus rewards with decisions and challenges to test every golfer's game and mental toughness. Combining Geoff Shackelford's informative narrative with detailed illustrations by architect Gil Hanse, *Grounds for Golf* explains the fundamentals of golf course design in an understandable and entertaining style. Modern photographs, anecdotal sidebars and witty quotations augment a course design primer that will enhance readers' enjoyment of golf's lore while introducing the fundamentals of course design. By explaining the golf course from the ground up, *Grounds for Golf* will not only help readers in their understanding of the game but will help their games themselves.

The Golden Age of Golf Design Geoff Shackelford, 2005-07-21 In Golfweek's recently unveiled ranking of the Top 100 American courses opened before 1960 a staggering total of 84 were constructed between 1910 and 1937. There was never a more creative, daring or fruitful period in the history of golf course architecture and in *The Golden Age of Golf Design* the classic courses are revisited and celebrated. Using never before seen old photographs and little known anecdotes, Geoff Shackelford shows us how some of America's most famous courses looked in their early years. The finest architects the world has ever known were practicing during this era and each is well represented in this landmark book: C. B. Macdonald, Alister MacKenzie, Donald Ross, A. W. Tillinghast, George Thomas, William Flynn and so many others are honored in these pages. Every important early American course built or redesigned during the Golden Age is included: Oakmont, the National Golf Links, Pine Valley, Merion, Baltusrol, Winged Foot, Riviera, Shinnecock Hills, Pinehurst, Oakland Hills, Cypress Point, Augusta National, Pebble Beach, Prairie Dunes, the Country Club and more. In *The Golden Age of Golf Design* the original work of these master architects is remembered and their work analyzed. And even though the emphasis is on the newly uncovered photographs of these famous courses as their architects left them, biographical profiles and timeless quotes are included from the famous architects and their prominent counterparts to remind us of the true genius of these artists. On top of the remarkable old photography, original golf landscape paintings by Mike Miller introduce each chapter and serve as a colorful reminder of how stunning many of these classic layouts must have looked. *The Golden Age of Golf Design* brings to life many forgotten holes, courses and great architects and is sure to become a classic in golf literature circles. *Nicklaus by Design* Jack Nicklaus, Chris Millard, 2002-11-01 Readers can experience the landscape vision of golf legend Jack Nicklaus in this collection of images from the various golf courses he has helped to design, including Shoal Creek in Birmingham and Castle Pines near Denver. 50,000 first printing. **Golf Course Design, an Introduction** Geoffrey S. Cornish, *Discovering Donald Ross* Bradley S. Klein, 2001-08-29 Discovering the life and work of a true artist, Donald Ross. I grew up playing a Donald Ross golf course, Scioto Country Club in Columbus, Ohio, so my standards of what a good golf course should be were based on a Ross design. I think being exposed early to a Donald Ross course provided me balance as both a player and future golf course designer because of the variety of shots found throughout each of his designs. Ross was without a doubt a great influence on my design career and he remains a personal favorite. I am happy to see Brad Klein devote a book to the work of Donald Ross. Brad is passionate about golf course design and that translates in his writing. Jack Nicklaus *Golf Architecture, Vol V* Paul Daley, 2003 **The Golf Course** Geoffrey S. Cornish, Ronald E. Whitten, 1981 *Golf Architecture* Paul Daley, 2009-06 The very best architects and golf writers contribute here fifty illustrated essays about golf course design. **Golf Course Designs By Tom Fazio** Tom Fazio, Cal Brown, 2000-11-01 In this illustrated book Tom Fazio shows golfers the inner workings of a master golf designer's mind. It is not a technical book though much valuable technical information can be found in the appendices. Most of the things he talks about are based on common sense and practical experience gained over a

period of thirty five years and they are presented in clear and easy to understand fashion Fazio does not believe in shortcuts or excuses only results and those results can be seen in the magnificent photographs provided by the team of John and Jeannine Henebry and other fine golf photographers This is a book that will help any golfer better understand how to read a course and how to play it Fazio accomplishes this by explaining the process by which he creates each hole and the philosophy behind his designs
