

GOOD
DAY

WAKING UP SLOWLY, HAVING A CUP OF
COFFEE AND HAVING A LITTLE SIT ON MY
BED.

HAVING MY CHOICE OF BREAKFAST,
BRUSHING MY TEETH THEN CHOOSING MY
OWN OUTFIT FOR THE DAY.

BAD
DAY

BEING RUSHED AWAKE, NOT HAVING TIME
TO WAKE UP PROPERLY BEFORE MY ROUTINE
STARTS.

NOT HAVING CHOICE OF BREAKFAST,
SOMEONE ELSE CHOOSING WHAT I WEAR
AND SOMETIMES THE CLOTHES DON'T MATCH
AND I LOOK SILLY.

Human Factors in Healthcare Debbie Rosenorn-Lanng,2014-02 This work builds on Human Factors in Healthcare Level One by delving deeper into the challenges of leadership conflict resolution and decision making that healthcare professionals currently face It is

written in an easy to understand style and includes a wealth of real life examples of errors and patient safety issues **More Than Fluency: the Social, Emotional, and Cognitive Dimensions of Stuttering** Barbara J. Amster, Evelyn R. Klein, 2018-04-27

More Than Fluency The Social Emotional and Cognitive Dimensions of Stuttering provides a thoughtful and contemporary framework for speech language pathologists and others working with people who stutter. The text focuses on the social, emotional, and cognitive realms of stuttering and offers new insights and applications based on research in the field. It guides the reader through theoretical discussions about the social experiences, emotional complications, and cognitive interpretations that often influence the person who stutters. The text also offers practical strategies for intervention from contributing authors who are prominent theorists, researchers, and practitioners in the field of fluency and stuttering. In line with the current multifactorial view of stuttering, **More Than Fluency** emphasizes the social, emotional, and cognitive aspects of stuttering, drawing important connections between them. The authors present a variety of therapeutic interventions and techniques along with practical guidelines that have been designed to alleviate distress in those who stutter. Although these interventions differ in approach, each offers their own roadmap to support and empower people who stutter. The idea for this book grew out of the insights gained from listening to both clients and graduate students. Clients wanted to talk about their life experiences as a person who stutters. Graduate students often described their worry and uncertainty when dealing with the emotional and social issues of their clients who stutter. Similarly, many practicing speech language pathologists also have concerns about treating people who stutter, especially regarding the social, emotional, and cognitive aspects of the disorder, areas not typically taught in traditional coursework. **More Than Fluency** was developed for practicing speech language pathologists and other professionals who evaluate and treat people who stutter. It is also intended to be an academic textbook used in graduate courses on fluency and stuttering. This text provides a collection of well thought out programs and approaches that help treat the whole person, not just his or her stuttering. The authors believe that this is best practice because successfully treating a person who stutters encompasses treating more than fluency. [Samson's Story](#) Gale
