Textbook of Assisted Reproductive Techniques Fourth Edition David K. Gardner, Ariel Weissman, Colin M Howles, Zeev Shoham, 2012-06-27 Textbook of Assisted Reproductive Techniques has become a classic comprehensive reference for the whole team at the IVF clinic The fourth edition comes more conveniently as a set of two separate volumes one for laboratory aspects and the other for clinical applications The text has been extensively revised with the addition of several important new contributions on laboratory aspects including developing techniques such as PICSI IMSI and time lapse imaging The second volume focuses on clinical applications and includes new chapters on lifestyle factors tailored ovarian stimulation

frozen thawed embryo transfer viral disease and religious perspectives As before methods protocols and techniques of choice are presented by eminent international experts The two volume set includes Volume One Laboratory Perspectives Volume Two Clinical Perspectives **Cryopreservation in Assisted Reproduction** Zsolt Peter Nagy,Alex C. Varghese,Ashok Agarwal,2024-07-15 Cryopreservation of oocytes sperm and ovarian and testicular tissues as well as embryos is one of the most critical procedures to preserve the reproductive capacity of individuals It is an indispensable part of assisted reproductive technologies as nearly all IVF clinics around the world have embraced the freeze all embryo strategy with no fresh embryo transfers Advanced platforms such as automation and artificial intelligence are making their way into all aspects of assisted reproductive technologies including reproductive tissue banking process and storage At the same time lax regulations and lack of training combined with rapid demands of IVF services have resulted in a climate of frequent disaster and catastrophic incidents from the cryo labs that store thousands of patients embryos for years With the onset of malpractice lawsuits against the clinics and awards of large compensation to the patients regulations are getting stricter in this arena to safeguard the integrity of storage systems and industry leaders are developing advanced devices and alarm systems to remotely monitor storage systems exploring the power of internet AI and automation Therefore there is an urgent need for a comprehensive text in this field based on the introduction of such a wide array of advanced devices newer technologies regulatory frameworks risks and disaster management options With contributions from top internationally recognized scientists and clinicians with expertise in cryopreservation and reproductive technology this book provides a comprehensive overview of the basics of cryobiological processes and a technically detailed presentation on all aspects of cryopreservation of reproductive cells and tissues It presents the current well established procedures as well as novel techniques with the latest innovations described in detail Bringing together the latest information with key thought leaders in the field Cryopreservation in Assisted Reproduction is intended to be the go to resource for all reproductive medicine clinicians embryologists lab technologists IVF lab directors managers and researchers **Benefits and Risks of Agonist Triggering Strategies** Emanuele Garzia, Jan Tesarik , Francesco Maria Fusi,2025-01-10 The use of GnRH agonists to trigger final oocyte maturation has gained momentum recently over the use of hCG in women at high risk for OHSS Because of the shorter duration of the agonist induced LH surge earlier demise of the corpus luteum CL is associated with a significant reduction in OHSS at the peril of decreased embryo implantation and increased pregnancy loss For this reason the effectiveness of GnRHa triggering was placed under scrutiny in fresh cycles while the quest for the most optimal strategies of luteal phase support LPS remains unresolved The adoption of a GnRH agonist trigger protocol with segmentation of the IVF cycle is one way of ensuring reproductive success without compromising patient safety Approval of this management approach however is subject to patients values and financial resources It is also dependent on the success of the cryopreservation program **Textbook of Assisted Reproductive Techniques** David K. Gardner,Ariel
