Edge Of Destruction:

A Reactive Approach to Comprehensive Global Garbage Detection Sylvain R. Louboutin, 1999-02 Comprehensive global garbage detection GGD in object oriented distributed systems i e GGD intrinsically able to detect distributed cycles of garbage has mostly been addressed via graph tracing algorithms Graph tracing algorithms must account for every live object in the system before any resource can actually be reclaimed which compromises both their scalability and robustness in a distributed environment Alternative non comprehensive approaches trade off comprehensiveness for scalability and robustness under the assumptions that distributed cycles of garbage are rare and that all comprehensive algorithms are necessarily unscalable This thesis contends instead that distributed cycles of garbage are as likely to occur as local cycles and that a comprehensive alternative to graph tracing GGD is possible From the GGD perspective the combined effects of the application processes and local garbage collectors fulfill the role of a global mutator A subset of events of this global mutator s computation called log keeping events reflect either the creation or the destruction of inter site paths in the global object graph The causal history of a log keeping event corresponds to the set of events responsible for the creation of all the paths ever created that are incident to an object The path history of this event is defined as a subset of its causal history and contains only those events responsible for the creation of the extant paths to this object This dissertation presents a novel approach to comprehensive GGD that entails computing dependency vectors which characterize the path history of log keeping events that reflect the destruction of a path These dependency vectors can be computed by propagating increasingly accurate approximations of these vectors along the paths of the global object graph In effect this algorithm reacts to events that may result in the creation of garbage and identifies garbage without requiring a complete scan of the whole object graph In conjunction with a lazy log keeping mechanism it can therefore be shown to be both scalable and robust despite being comprehensive

The Edge of Life Christopher Kaczor, 2005-05-17 The Edge of Life Human Dignity and Contemporary Bioethics resituates bioethics in fundamental outlook by challenging both the dominant Kantian and utilitarian approaches to evaluating how new technologies apply to human life Drawing on an analysis of the dignity of the human person both as an agent and as the recipient of action The Edge of Life presents a theoretical approach to the problems of contemporary bioethics and applies this approach to various disputed questions Should conjoined twins be split if the division will end the life of the weaker twin Was Bush s stem cell research decision morally acceptable Are the quality of life and sanctity of life ethics irreconcilably incompatible Accessible to both scholars and students The Edge of Life focuses particularly on the controversial issues surrounding the beginning and ending of human life tackling some of the toughest practical questions of bioethics including new reproductive technologies artificial wombs stem cell research abortion and physician assisted suicide as well as many of its vexing theoretical disputes

I Glanced Out the Window and Saw the Edge of the World Catherine Halsall, 2020-07-08 This book is about WAR not the causes and results not the planning and the campaigns not the artillery and the bombs It is about the heinous crimes committed by the combatants the horrifying experiences of civilians the devastation of cities and villages the killing and the dying the glory leading to revulsion and guilt and the assimilation of suffering that either ends in death or in the triumph of the soul It looks at the struggle of the church to remain faithful and the servants of the church who seek to bring sense and solace to the victims It discusses antisemitism racism and war itself from biblical perspectives It reveals the unjustifiable reasons for engaging in war and how this brings catastrophic results for all peoples the mental instability of the survivors and the loss and grief of those on the home front In war how can men and women carry out the actions that they do As Viktor Frankl writes After all man is that being who has invented the gas chambers of Auschwitz however he is also that being who has entered those gas chambers upright with the Lord's Prayer or the Shema Yisrael on his lips

The Transition to Late Antiquity on the lower Danube Andrew Poulter, 2019-09-30 Excavations on the site of this remarkable fort in northern Bulgaria 1996-2005 formed part of a long term program of excavation and intensive field survey aimed at tracing the economic as well as physical changes which mark the transition from the Roman Empire to the Middle Ages a program

that commenced with the excavation and full publication of the early Byzantine fortress city of Nicopolis ad Istrum. The analysis of well dated finds and their full publication provides a unique database for the late Roman period in the Balkans. They include metal work, pottery, local and imported fine ware, glass, copper alloy finds, inscriptions and dipinti on amphorae as well as quantified environmental reports on animal birds and fish with specialist reports on the archaeobotanical material, glass analysis and querns. The report also details the results of site specific intensive survey, a new method developed for use in the rich farmland of the central Balkans. In addition, there is a detailed report on a most remarkable and well preserved aqueduct which employed the largest siphon ever discovered in the Roman Empire. This publication will provide a substantial database of material and environmental finds, an invaluable resource for the region and for the Roman Empire material invaluable for studies which seeks to place the late Roman urban and military identity within its regional and extra regional economic setting.

Women on the Edge Cindi McMenamin, 2010-07-01 Popular author Cindi McMenamin offers wonderful new encouragement to women who stand at the crossroads of life, longing for change, for direction, for ways to make a difference. Every woman at one time or another has felt as if she's on the edge. She has felt unappreciated, unsupported and weary. She has thought, "Why am I putting up with this? Don't I deserve better? How can I escape?" Such frustration can drive her away from God or toward Him. Cindi shares how women can thrive even in the hard times and shift their focus from self to God, trust their heavenly Father more with the things they cannot control, turn their temporary frustrations into lasting fulfillment. This book will help women turn their negative longings into positive ones. They'll learn how to live on the edge, not in frustration but joy, as they pursue God in exciting new ways.

Edom at the Edge of Empire Bradley L. Crowell, 2021-09-17 A comprehensive history of a state on Judah's border, Edom at the Edge of Empire combines biblical, epigraphic, archaeological and comparative evidence to reconstruct the history of Judah's neighbor to the southeast. Crowell traces the material and linguistic evidence from early Egyptian sources that recall conflicts with nomadic tribes to later Assyrian texts that reference compliant Edomite tribal kings to offer alternative scenarios regarding Edom's transformation from a collection of nomadic tribes and workers in the Wadi Faynan as it relates to the later polity centered around the city of Busayra in the mountains of southern Jordan. This is the first book to incorporate the important evidence from the Wadi Faynan copper mines into a thorough account of Edom's history, providing a key resource for students and scholars of the ancient Near East and the Hebrew Bible.
