Elites In The Peoples Republic Of China:

Elites in the People's Republic of China Robert A. Scalapino, 1972-01-01 *Elites of the People's Republic of China. Edited by Robert A. Scalapino. Contributors* Gordon A. Bennett, Robert A. Scalapino (Ed), 1972 Elites in the People's Republic of China. Ed. by R.A. Scalapino. Contributors: G.A. Bennett, D.J. Waller, Th.W. Robinson [a.o.], 1972 **Elites and Governance in China** Xiaowei Zang, Chien-wen Kou, 2013-09-13 This book reveals the complex relationship between elite perceptions and behaviour and governance in China. It moves away from existing scholarship by focusing on functionaries, grass roots elites, leading intellectuals and opinion makers in China and by looking beyond the top leadership, makes a significant contribution to our understanding of shared governance and broadened political participation in China. The chapters in this collection explore the elites' role as opinion makers, technical experts, producers of knowledge and executives or managers and pose a number of questions the answers to which are crucial to understanding future political and economic development in China. What are elite perceptions of governance inequality and justice? What do the elites mean by good governance? What is the influence of non-Chinese Communist Party elites in policy making and implementation in China? How have they exerted their influence in the PRC and influenced its direction of future development? And what have grass roots elites contributed to governance in local communities? Providing a keen insight into the role elites have played in governing China since 1978, this book is a pioneering effort to bring together elite studies and governance studies. As such, it will be highly relevant for policy makers within international organizations, governments and NGOs outside China, as well as appealing to scholars and students interested in Chinese politics and governance. *China's Elite Politics* Bo Zhiyue, 2007 ChinaOCOs Elite Politics provides a new theoretical perspective on elite politics in China and uses this theoretical perspective to explain power transfer from Jiang Zemin to Hu Jintao and political dynamics between different factional groups since the Sixteenth Party Congress of November 2002. It explains the transition in structural terms, presents characteristics of ChinaOCOs political elites and analyzes the balance of power among formal institutions as well as among factional groups. It also examines political interactions between Jiang Zemin and his cronies on the one side and Hu Jintao and his allies on the other over a number of issues: the epidemic of severe acute respiratory syndrome (SARS), ideological institutionalization, the politics over economic overheating, Jiang ZeminOCOs complete retirement and Hu JintaoOCOs power consolidation in both ideological and personnel terms. The Cambridge History of China Roderick MacFarquhar, John King Fairbank, 1987 *People's Republic of China, Volumes I and II* Frank N. Pieke, 2023-12-31 This title was first published in 2002. This two-volume set collects in a conveniently accessible form the most influential articles by leading authorities in the study of China. It provides an international reference work combined with an authoritative introduction by the editor.

Elite Education Claire Maxwell, Peter Aggleton, 2015-10-05 Elite Education International Perspectives is the first book to systematically examine elite education in different parts of the world. Authors provide a historical analysis of the emergence of national elite education systems and consider how recent policy and economic developments are changing the configuration of elite trajectories and the social groups benefiting from these. Through country level case studies this book offers readers an in depth account of elite education systems in the Anglophone world in Europe and in the emerging financial centres of Africa, Asia and Latin America. A series of commentaries highlight commonalities and differences between elite education systems and offer insights into broader theoretical issues with which educationalists, researchers and policy makers are engaging. With authors including Stephen J Ball, Donald Broady, Ruben Gaztambide, Fernandez, Heinz Hermann, Kruger, Maria Alice Nogueira, Julia Resnik and Agnes van Zanten, the book offers a benchmark perspective on issues frequently glossed over in comparative education including the processes by which powerful groups retain privilege and elite status in rapidly changing societies. Elite Education International Perspectives will appeal to policy makers and academics in the fields of education and sociology. Simultaneously it will be of special relevance to post graduates enrolled on courses in the sociology of education, education policy and education and international development.

Elite Dualism and Leadership Selection in China Xiaowei Zang, 2004-03-01 Who are the top political leaders in China? What are the major criteria in elite recruitment? How is job promotion in high politics determined? By studying over one and a half thousand top political Chinese leaders, this book seeks to answer these questions and as a result defines how Chinese leadership is stratified. Unlike existing research on Chinese leaders, Elite Dualism and Leadership Selection in China draws on extensive statistical information and data analysis. It evidences how political development in the reform era has led to the division of labour between the Chinese Communist Party (CCP) and the government in governance, leading to two distinctive career paths in the two political systems respectively. Key issues examined include the different criteria the CCP and the government demand, the requirements for promotion, the effect of university education on the rate of mobility, the different affiliations of the two groups, the role of cooptation in leadership selection. Many of the elites discussed are still leading figures in China, making this book the most up to date and extensive biographical data set in elite studies. This allows for a meaningful analysis of elite behaviour in China for the first time in Chinese Studies. This book will be useful to both students of Chinese studies and comparative politics and will also interest researchers, political commentators, statesmen and China watchers.

Local Elites in Post-Mao China Yingjie Guo, 2018-03-15 This book provides fresh insights into the study of Chinese elites at the county level and below By shifting the analytical focus onto the agency of elites at the local level and away from the institutional structures within which they operate it fills a number of significant gaps in the field In particular this book addresses the lacunae through an empirically rich and diverse set of case studies It proceeds from the premise that the study of local elites can be most fruitful through examining their relations with each other and with the groups that wield power in the community Particularly pertinent to the analyses are three major relations namely the relationship between the elites and their environment between particular types of elites and between the locality and the upper and lower scales Ultimately it concludes that these relations are not only essential to understanding local elites in post Mao China but also in accounting for socio political change and in distinguishing China from other types of societies As a study of local elites in China this book will be useful to students and scholars of Chinese politics political sociology and Chinese Studies in general

China in Revolution Joseph W. Esherick, 2022-08-04 This book includes eleven seminal essays by one of America s leading authorities on modern Chinese history with an illuminating preface by Prof Elizabeth Perry of Harvard University it covers a range of topics from the impact of imperialism to the 1989 protests that led to the Tiananmen massacre Chapters include an explanation of how China expanded its borders far beyond the Han Chinese heartland and maintained those borders in the transition from empire to nation how Sun Yat sen unexpectedly emerged as the Father of the Country and how a series of unexpected and contingent events brought the empire down in 1911 Despite conventional representations of a static and unified China this book proves Chinese society to be diverse and constantly changing especially after the Communist revolution which was a transformative event in modern Chinese history Esherick denounces traditional imagery of cultural uniformity which derives from excessive attention to the unitary state through chapters that explore the impact of the 1937 45 War of Resistance against Japan the dramatic wartime transformation of Chinese society in both Communist and Nationalist Guomindang areas and the nature of the new Communist regime in Northwest China In his book Esherick examines both the Marxist Leninist theory behind Mao s notion of the restoration of capitalism against which he waged the Cultural Revolution of the 1960s and the political theater of the 1989 protest movement Throughout the book the contingency of history the need for careful empirical research and the important yet limited role of history is highlighted as

Elite Politics in Contemporary China Joseph Fewsmith, 2015-04-15

A discussion of elite politics in contemporary China While a great deal of the text is descriptive much of the emphasis is on drawing out and abstracting the political dynamic at work The past half century has seen many hopes raised and some dashed a succession of fears and false alarms and both triumphs and calamities that were almost entirely unexpected This work offers a short but sweeping history of world politics since 1945 America's postwar pre eminence and the hopes that attended the creation of the United Nations the Cold War and the emergence of a volatile Third World economic transformations and the twin threat of nuclear and ecological disaster the crumbling of the Soviet system and the short lived promise of a peaceful prosperous and democratic new world The author describes these momentous changes concisely in an effort to show how we got here from there and

what we might have learned along the way *Party-army-government Interlocking Directorate in the People's Republic of China* Monte Ray Bullard, 1977 *Neoliberalism, Globalization, and "Elite" Education in China* Shuning Liu, 2020-03-19 This book examines the practices and effects of emerging international curriculum programs established by Chinese elite public high schools and supported by China's New Curriculum Reform and the Chinese Foreign Cooperation in Running Schools (CFCRS) policy. Drawing on critical theory, the book applies sociological and anthropological approaches to the study of the educational practices of such curriculum programs and the rising Chinese elite class as well as educational policy globally. Through analyzing a wide variety of data sources, this book focuses on examining how changing local and global contexts have influenced and shaped the educational opportunities, experiences, and aspirations of privileged urban Chinese students who are able to attend these programs and who hope to study at U.S. universities. In doing so, the book is intended to define the problematics of the internationalization of Chinese education and an emergent form of elite education in China, which are complex and embedded in the process of modernization in China. *Neoliberalism, Globalization, and Elite Education in China: Becoming International* will appeal to undergraduates, postgraduates, and academics in the fields of curriculum studies, educational policy studies, sociology of education, and anthropology of education, as well as policymakers with an interest in globalization and education, education policy, and education and international development.
