national and local levels of governments especially in disaster prone countries Computational Urban Planning and Management for Smart Cities Stan Geertman, Qingming Zhan, Andrew Allan, Christopher Pettit, 2019-05-09 This book contains a selection of the best articles presented at the CUPUM Computational Urban Planning and Urban Management conference held in the second week of July 2019 at the University of Wuhan China The chapters included were selected based on a double blind review process involving external reviewers **Introduction to Emergency Management** Jane Bullock, George Haddow, Damon Coppola, 2017-01-09 Introduction to Emergency Management sets the standard for excellence in the field and has educated a generation of emergency managers Haddow Bullock and Coppola return for the sixth edition with an emphasis on climate change as a major hazard Fully updated throughout for new regulations and workflows with new case studies covering the latest in best practices this classic textbook prepares students for the challenges of a career in emergency management Expanded information on disaster recovery coordination structures Emphasis on climate change as a key hazard faced by disaster managers Coverage of social media as critical tool in emergency management Fully updated throughout for the latest regulations and workflows New examples and case studies throughout Updated ancillaries to keep course instruction fresh **The World Trade Center Bombing: Report and Analysis; New York City, New York** , Encyclopedia of GIS Shashi Shekhar, Hui Xiong, 2007-12-12 The Encyclopedia of GIS provides a comprehensive and authoritative guide contributed by experts and peer reviewed for accuracy and alphabetically arranged for convenient access The entries explain key software and processes used by geographers and computational scientists Major overviews are provided for nearly 200 topics Geoinformatics Spatial Cognition and Location Based Services and more Shorter entries define specific terms and concepts The reference will be published as a print volume with abundant black and white art and simultaneously as an XML online reference with hyperlinked citations cross references four color art links to web based maps and other interactive features **Asian Cities in an Era of Decentralisation** Michelle Ann Miller, Tim Bunnell, 2016-03-16 This book critically engages with the idea of decentralization as empowering cities and their residents to act innovatively and creatively The contributions thus highlight how the term empowerment in the context of decentralization regimes masks a competing array of intentions and agendas Who and what are empowered given a voice and allowed to participate via the processes and structures of decentralization and to what ends are too frequently assumed in normative conversations about bringing government closer to the people and community driven development Creating an illusion of a shared language and common set of priorities therefore obscures more complex realities particularly when there is a disconnect between the official goals of decentralization and civil society aspirations that reinforces politics of exclusion at the grassroots Equally official processes of decentralization can and often are accompanied by less visible processes of recentralization through the reassertion of central state control over putatively autonomous jurisdictions Through studies in six Asian countries India the Philippines Indonesia Bangladesh Thailand and

Japan the essays in this book examine cases whereby a range of urban actors and institutions have been empowered via decentralization and how this realignment of local power relations impacts upon the dynamics of urban governance albeit not always in socially progressive ways This book was published as a special issue of Space and Polity **Urbanization, Policing, and Security** Gary Cordner, Dilip K. Das, AnnMarie Cordner, 2009-12-16 In terms of raw numbers the amount of world urban dwellers have increased four fold skyrocketing from 740 million in 1950 to almost 3.3 billion in 2007 This ongoing urbanization will continue to create major security challenges in most countries Based on contributions from academics and practitioners from countries as diverse as Nigeria Pakistan **The city guide for Medan (Indonesia)** YouGuide Ltd,
