Freedom And Orthodoxy Islam And Difference In The Post Andalusian Age:

Freedom and Orthodoxy Anouar Majid, 2022 This book argues that the clash of civilizations that is supposed to be a feature of the post Cold War environment is not necessarily caused by the dogma of world religions or cultural incompatibilities but by the inflexible and hegemonic universalisms that have characterized world history since 1492 a cultural outlook that Majid terms post Andalusianism The all encompassing worldviews of Euro American ideologies have resulted in the retreat of Islam and other non European traditions into dangerous orthodoxies and a growing climate of suspicion fear and terror Freedom and Orthodoxy offers an alternative to perennial discord suggesting that the world needs a philosophy of the provincial one that reattaches individuals and societies to their heritages and memories but connects them to the rest of the world in solid non alienating meaningful ways For this to happen Majid contends globalization must be reimagined as a network of human solidarities and rigorous conversations across the world s multiple cultures not as a mechanical process of economic expansionism

Iberian Moorings Ross Brann, 2021-05-28 To Christians the Iberian Peninsula was Hispania to Muslims al Andalus and to Jews Sefarad As much as these were all names given to the same real place the names also constituted ideas and like all ideas they have histories of their own To some al Andalus and Sefarad were the subjects of conventional expressions of attachment to and pride in homeland of the universal sort displayed in other Islamic lands and Jewish communities but other Muslim and Jewish political literary and religious actors variously developed the notion that al

Andalus or Sefarad its inhabitants and their culture were exceptional and destined to play a central role in the history of their peoples In Iberian Moorings Ross Brann traces how al Andalus and Sefarad were invested with special political cultural and historical significance across the Middle Ages This is the first work to analyze the tropes of Andalusi and Sefardi exceptionalism in comparative perspective Brann focuses on the social power of these tropes in Andalusi Islamic and Sefardi Jewish cultures from the tenth through the twelfth century and reflects on their enduring influence and its expressions in scholarship literature and film down to the present day

The Afterlife of al-Andalus Christina Civantos,2017-11-21 The first study to undertake a wide ranging comparison of invocations of al Andalus across the Arab and Hispanic worlds Around the globe concerns about interfaith relations have led to efforts to find earlier models in Muslim Iberia al Andalus This book examines how Muslim Iberia operates as an icon or symbol of identity in twentieth and twenty first century narrative drama television and film from the Arab world Spain and Argentina Christina Civantos demonstrates how cultural agents in the present ascribe importance to the past and how dominant accounts of this importance are contested Civantos s analysis reveals that alongside established narratives that use al Andalus to create exclusionary imperial identities there are alternate discourses about the legacy of al Andalus that rewrite the traditional narratives In the process these discourses critique their imperial and gendered dimensions and pursue intercultural translation

The Dialectics of Orientalism in Early Modern Europe Marcus Keller,Javier Irigoyen-García,2017-11-09 Uniting twelve original studies by scholars of early modern history literature and the arts this collection is the first that foregrounds the dialectical quality of early modern Orientalism by taking a broad interdisciplinary perspective Dialectics of Orientalism demonstrates how texts and images of the sixteenth and seventeenth century from across Europe and the New World are better understood as part of a dynamic and transformative orientalist discourse rather than a manifestation of the supposed dichotomy between the East and the West The volume s central claim is that early modern orientalist discourses are fundamentally open self critical and creative Analyzing a varied corpus from German and Dutch travelogues to Spanish humanist treatises French essays Flemish paintings and English diaries this collection thus breathes fresh air into the critique of Orientalism and provides productive new perspectives for the study of east west and indeed globalized exchanges in the early modern world
