

A photograph of a dirt road winding through a forest. The trees are covered in autumn foliage, with shades of yellow, orange, and brown. The road leads into the distance, creating a sense of depth. The overall tone is somber and contemplative.

Freedom Death:

Freedom or Death Markus Sabo Gabriel,2024-10-01 This book covers the planned destruction of the Patriot Movement in the United States and the main reasons that caused it The author will demonstrate how easy it was for the Plutocrats to divert this vital patriotic reactionary movement against communism into nationalism and even national socialism By supplying demagogues and counter intelligence to take it over It contains furthermore a perspective on the Crown Virus that started in 2020 and how mankind should face the threat of the new age the Era of Technocracy The reader will learn that the few very important concepts in this book are enough to shake the foundation of the corrupted establishment of this world Its solidity is founded on images and illusions *From Death Row to Freedom* Phillip A. Dlamini,2024-07-09 What happens when death becomes the ultimate marker of one's commitment to one's freedom What happens when the opposite of freedom is not unfreedom but death not slavery but mortality How are we to think of the right to life when a political demand for dignity and honor might be more important than life itself Dying for Freedom explores these questions by drawing on archival evidence from South Africa to show how death and conflicting notions of sacrifice dominated the struggle for political equality in that country This political investment in death as a marker of commitment to the anti apartheid struggle encouraged a masculinist style of politics in which the fight for freedom was seen and understood by many activists as a struggle literally for manhood This investment generated a notion of political sacrifice so absolute that anything less than death was rendered suspect More importantly it resulted in a hierarchy of death whereby some deaths were more important than others and where some deaths could be mourned and others not This highly original account of the necropolitics of the liberation struggle will be of interest to students and scholars throughout the humanities and social sciences and to anyone interested in South Africa

A Hope for Philosophy I Ye Xiushan,2022-10-20 As the final work by Ye Xiushan one of the most famous philosophers and philosophy scholars in China this two volume title scrutinizes the historical development of both Chinese and Western philosophies aiming to explore the convergence between the two philosophical traditions Combining the historical examination and argumentation based on philosophical problematics the two volume set expounds the key figures and schools and critical thoughts in both Western and Chinese philosophical histories In this first volume the author investigates the intellectual heritage of ancient Greece and Thales of Miletus as the cradle of European philosophy freedom in Greek philosophy reason and negation in classical German philosophy and the relationship between epistemology and ontology in the philosophical history thereby illuminating the core spirit of Western philosophy and theoretical quandary facing the contemporary European philosophy This title will appeal to scholars students and general readers interested in philosophical history comparative philosophy Chinese philosophy and Western philosophy ranging over Greek philosophy German classic philosophy and contemporary continental philosophy

Death as Transformation Dr Henry L Novello,2013-06-28 A key tenet of Christian faith is that the crucifixion of Jesus Christ is a unique death by which the powers of death in the world have been conquered so that Christian life in the Spirit is marked by the promise and hope of new life already anticipated in the community of baptized believers Notwithstanding this basic tenet regarding the Christian life as a participation in the redemptive death of Jesus Christ theology in the past as well as much contemporary theology tends to assign no salvific significance to the event of our own death focusing instead on death in negative terms as the wages of sin This work is a significant retort to theological neglect both Catholic and Protestant of the positive and transformative aspect of our death when conceived as a dying into the redemptive death of Jesus Christ The development of Henry L Novello's proposed theology of death takes place in conversation with the pre eminent contemporary contributors to this field of theological inquiry By offering comprehensive critiques of Karl Rahner Hans Urs von Balthasar

Karl Barth Eberhard J ngel and J rgen Moltmann Novello painstakingly pieces together a positive construal of death as salvific and transformative What is especially distinctive about Novello s work is that he develops the idea of death as a sharing in the admirable exchange of natures in the person of Jesus Christ from which emerges his theory of resurrection at death for all The reach of the work is extended by exploring some pastoral and liturgical implications of a theology of death conceived as the privileged moment for the actualization of God s grace in Jesus Christ and thus being created anew in the power of the Spirit

Breaking the Thread of Life Robert Laurence Barry,1994-01-01 Suicide and how civilized people should respond to it is an increasingly controversial topic in modern society In Holland suicide is the third leading cause of death of people between the ages of fifteen and forty In the United States it is the second leading cause of death among older teenagers Laws prohibiting assisted suicide are being directly and boldly confronted by activists in the United States most notably Jack Kevorkian Meanwhile the American Civil Liberties Union has publicly declared suicide a fundamental human right that should be protected under the Constitution The Hemlock Society has introduced referenda in California Washington and Oregon to legalize suicide and assisted suicide The most vocal opposition to these initiatives has come from the Roman Catholic church Breaking the Thread of Life marshalls philosophical moral medical historical and theological arguments in support of the Roman Catholic position against suicide In a comprehensive study of the history of suicide Barry shows that Christian civilization was one of only a few early societies that was able to bring suicide under control He counters claims that Catholicism and the Bible endorse rational suicide Barry also analyzes arguments in support of the rationality of suicide and illuminates their biases inadequacies and dangers Barry presents the rationale for the Roman Catholic church s strong extensive and articulate opposition to efforts to gain legal and social endorsement of suicide and assisted suicide His book represents the most complete study of the classical Roman Catholic view of rational suicide to date and it will be of significant interest to philosophers theologians physicians and lawyers

The Contradictions of Freedom Sally J. Scholz,Shannon M. Mussett,2005-10-13 The essential companion to Simone de Beauvoir s celebrated novel *Death, Time and the Other* Saitya Brata Das,2020-01-27 This book addresses the limits of metaphysics and the question of the possibility of ethics in this context It is divided into six chapters the first of which broadens readers understanding of difference as difference with specific reference to the works of Hegel The second chapter discusses the works of Emmanuel Levinas and the question of the ethical In turn the concepts of sovereignty and the eternal return are discussed in chapters three and four while chapter five poses the question of literature in a new way The book concludes with chapter six The book represents an important contribution to the field of contemporary philosophical debates on the possibility of ethics beyond all possible metaphysical and political closures As such it will be of interest to scholars and researchers in both the humanities and social sciences Beyond the academic world the book will also appeal to readers journalists intellectuals social activists etc for whom the question of the ethical is the decisive question of our time

Soldiers in the Army of Freedom Ian Michael

Spurgeon,2014-10-22 It was 1862 the second year of the Civil War though Kansans and Missourians had been fighting over slavery for almost a decade For the 250 Union soldiers facing down rebel irregulars on Enoch Toothman s farm near Butler Missouri this was no battle over abstract principles These were men of the First Kansas Colored Infantry and they were fighting for their own freedom and that of their families They belonged to the first black regiment raised in a northern state and the first black unit to see combat during the Civil War Soldiers in the Army of Freedom is the first published account of this largely forgotten regiment and in particular its contribution to Union victory in the trans Mississippi theater of the Civil War As such it restores the First Kansas Colored Infantry to its rightful place in American history Composed primarily of former slaves the First Kansas Colored saw major combat in Missouri Indian Territory and Arkansas Ian Michael Spurgeon draws upon a wealth of little known sources including soldiers pension applications to chart the intersection of race and military service and to reveal the regiment s role in countering white prejudices by defying stereotypes Despite naysayers bigoted predictions and a merciless slaughter at the Battle of Poison Spring these black soldiers proved themselves as capable as their white counterparts and so helped shape the evolving attitudes of leading politicians such as Kansas senator James Henry Lane and President Abraham Lincoln A long overdue reconstruction of the regiment s remarkable combat record Spurgeon s book brings to life the men of the First Kansas Colored Infantry in their doubly desperate battle against the Confederate forces and skepticism within Union ranks *Feeding the Roots of Self-Expression and Freedom* Jimmy
