Freedom Liberation:

Freedom, Justice, and Decolonization Lewis Gordon, 2020-12-30 The eminent scholar Lewis R Gordon offers a probing meditation on freedom justice and decolonization What is there to be understood and done when it is evident that the search for justice which dominates social and political philosophy of the North is an insufficient approach for the achievements of dignity freedom liberation and revolution Gordon takes the reader on a journey as he interrogates a trail from colonized philosophy to re imagining liberation and revolution to critical challenges raised by Afropessimism theodicy and looming catastrophe He offers not forecast and foreclosure but instead an urgent call for dignifying and urgent acts of political commitment Such movements take the form of examining what philosophy means in Africana philosophy liberation in decolonial thought and the decolonization of justice and normative life Gordon issues a critique of the obstacles to cultivating emancipatory politics challenging reductionist forms of thought that proffer harm and suffering as conditions of political appearance and the valorization of nonhuman being He asserts instead emancipatory considerations for occluded forms of life and the irreplaceability of existence in the face of catastrophe and ruin and he concludes through a discussion with the Circassian philosopher and decolonial theorist Madina Tlostanova with the project of shifting the geography of reason

Without Violence Dustin Ells Howes, 2016-02-29 There is a long tradition in Western political thought suggesting that violence is necessary to defend freedom But nonviolence and civil disobedience have played an equally long and critical role in establishing democratic institutions Freedom Without Violence explores the long history of political practice and thought that connects freedom to violence in the West from Athenian democracy and the Roman republic to the Age of Revolutions and the rise of totalitarianism It is the first comprehensive examination of the idea that violence is necessary to obtain defend and exercise freedom The book also brings to the fore the opposing theme of nonviolent freedom which can be found both within the Western tradition and among critics of that tradition Since the plebs first vacated Rome to refuse military service and win concessions from the patricians in 494 B.C. nonviolence and civil disobedience have played a critical role in republics and democracies Abolitionists feminists and anti-colonial activists all adopted and innovated the methods of nonviolence With the advent of the Velvet Revolutions the end of apartheid in South Africa and most recently the Arab Spring nonviolence has garnered renewed interest in both scholarly publications and the popular imagination In this book Dustin Ells Howes traces the intellectual history of freedom as it relates to the concepts and practices of violence and nonviolence Through a critique and reappraisal of the Western political tradition Freedom Without Violence constructs a conception of nonviolent freedom The book argues that cultivating and practicing this brand of freedom is the sine qua non of a vibrant democracy that resists authoritarianism imperialism and oligarchy **The Pathologies of Individual Freedom** Axel Honneth, 2016-05-31 This is a

penetrating reinterpretation and defense of Hegel's social theory as an alternative to reigning liberal notions of social justice The eminent German philosopher Axel Honneth rereads Hegel's Philosophy of Right to show how it diagnoses the pathologies of the overcommitment to individual freedom that Honneth says underlies the ideas of Rawls and Habermas alike Honneth argues that Hegel's theory contains an account of the psychological damage caused by placing too much emphasis on personal and moral freedom Although these freedoms are crucial to the achievement of justice they are insufficient and in

themselves leave people vulnerable to loneliness emptiness and depression Hegel argues that people must also find their freedom or self realization through shared projects Such projects involve the three institutions of ethical life family civil society and the state and provide the arena of a crucial third kind of freedom which Honneth calls communicative freedom A society is just only if it gives all of its members sufficient and equal opportunity to realize communicative freedom as well as personal and moral freedom

Christian Economic Heterodoxy Piotr Kopiec, Marcin Składanowski, Przemysław Kantyka, 2024-08-12 This volume could be written differently It could present the Protestant theological view on the economy from Luther Zwingli and Calvin until contemporary prominent theologians Or it could be a description of the teaching of one of the Protestant Churches or denomination Or it could be an investigation of the traces of

Protestant theology in the contemporary prevailing economic order All such presentations could be hugely interesting and accurate and they would be reasonable in light of the most critical questions of today s world However the authors would propose a different approach that is not disjunctive contrasting or opposing to the above mentioned and that instead wants to reveal new trends and processes occurring in the Protestant world and bringing a new more critical view on capitalism and its offspring such as consumptionism

Feminist Interpretation Of The Bible Silvia Schroer, Sophia

Bietenhard,2004-01-01 Since its origins in the women s liberation movement feminist exegesis has been subject not only to the demand to identify the oppressive functions of biblical texts but also to contribute to the liberation of women What biblical texts can serve this process of liberation for which women under what conditions and in what manner What roles do categories such as woman gender liberation freedom Holy Scripture church and theology play This book originated from a symposium with feminist biblical experts from over twenty countries from five continents It provides a striking and imaginative depiction of the questions central to feminist exegesis and the hermeneutics of liberation It also provides a lively example of the kind of global discussion of the Bible and liberation that can take place among women from around the world Typical of this discussion is the confrontation with questions such as contextuality or the diversity of feminist biblical interpretation whether of theological or non theological nature and clear positions are taken with regard to issues such as the termination of anti Judaism in feminist biblical interpretation or the dangers of neo colonial domination in feminist theological studies

Hennelly, 1989 Freedom is a fundamental Christian theological category as much a challenge to construct a new way of seeing oneself and others as it is an announcement of what Christ has already done for us in his death and resurrection Liberation theology is most simply the effort to spell out what such freedom means for Christians in the twentieth and twenty first centuries This book has as its principle premise the conviction that if we are to construct a North American liberation theology we must begin listening to and understanding Latin American theology not so much as a model to be slavishly followed but as a challenge to our own cultural political and even religious assumptions The focus thus is not so much on the theoretical meaning of Christian freedom but on its practice and more exactly its praxis that is to say the dialectic between theory and practice After focusing on the creation and development of liberating theological methods and sources and above all the revitalization and renewal of structures that will contribute to the development of a liberated and liberating church Fr Hennelly ends with an analysis of the most recent and the most important vatican document on liberation theology The Instruction of Christian Freedom and Liberation which he sees as an acknowledgement by the universal church that the theme of liberation is central to the meaning of Christian theology Journal of Moral Theology, Volume 8, Special Issue 2 William C. Daniel Yankelovich presents a strategy to nurture the greater public wisdom necessary for modern society to confront its most wicked problems. Having been an advisor to major corporations and influential media, business, and government organizations, Yankelovich is a leading public opinion expert who has had a long career studying, questioning, and reporting on national issues, trends, and opinions. Stagnant incomes, blocked social mobility, political polarization, dysfunctional educational, criminal, and health care systems, and global instability plague the welfare of not only the United States but also the entire world. By instituting a few powerful innovations, we can revolutionize today's inattentive public into a thoughtful, action-oriented populace. Yankelovich shares the philosophical foundation of his successful career and revisits some of his breakthrough experiences, drawing insightful conclusions applicable to our current condition. Full of stories of how destinies can change when people abandon ingrained, unproductive thinking habits, *Wicked Problems, Workable Solutions* lays out a pragmatic design to reboot democracy and lead our society forward into a more promising future. **More Lacanian**

Coordinates Bogdan Wolf, 2018-03-29. Psychoanalysis is an experience of truths and lies in language. It is also a discourse, and it is a praxis. Lacanian Coordinates takes the reader from the beginning of Lacan's teaching from the logic of the signifier and the Lacanian subject to the drive and object *a*, qua object *a*, the paradoxes of guilt, and finally to the desire of the Other, love, and femininity. Volume One explores the points of Lacanian orientation that lead us to the particularity of the subject and considers whether we find them not solely in the discourse of the universal to which religion, science, and philosophy testify, but also in the analytic experience itself. Volume Two, *More Lacanian Coordinates*, opens with the question of love that for Lacan forms a discourse of fragments and letters addressed to the one which circumscribe the nonexistence of the sexual relation. Further, Lacan situates love in relation to knowledge, making ignorance alongside love and hatred the third passion.
