

Democracy and Freedom Essay Example

Democracy gives people the freedom to do things his way within the bounds of the state. Democracy is often the most desired goal of every nation. It can uniquely become an instrument of freedom if it allows the people meaningful voting choices during elections and if democracy warrants that the people have the nonpartisan and untwisted information required to make a choice that is in their interest. Sometimes, however, some nations would opt to use their democratic rights to limit freedom such as in cases involving gun ownership, pedophilia or fox hunting.

These days, democracies are growing more inimical to being agents of freedom. Our selection of political party during election time is particularly limited while the mass media is practically owned by corporations making them easy to get influenced. This scenario tends to lead to government influence by means of payback for political favours to these corporations. We can say that individual preferences is being highly wielded to constitute voting choices that are not really in their best interest but that of the politicians and the corporations.

This paper will present scenarios or faces of freedom and democracy that are simultaneously happening across the globe. Democracy and Freedom Can democracy really succeed in respecting individual preferences? What is freedom, and why should we value it? This dilemma is best illustrated by Wollstein (2006) when he listed down the many aspects of freedom and democracy in one article. According to Wollstein (2006), democracy is as oftentimes a disguise for dictatorship as it is a safeguard for liberty.

Some countries see themselves democracies and have regular elections but methodically cast down their own people. It was cited that the countries of North Korea and China call themselves Democratic People's Republic of Korea and People's Republic of China, respectively, but in reality, it's untrue. Voting in these countries are mandatory and the only party permitted to run candidates is the Communist Party. Anyone who disapproves deeply on this set-up ends up dead or in a slave labour camp (Wollstein 2006).

There are also other countries in Africa, Asia and in Latin America that have multi-party democracies but with little or no freedom at all. Cheating during elections is enormous, opposition aspirants are frequently vanquished or killed by government thugs. In these countries, the citizens have very little freedom, but suffer tremendously. Even in the United States, many people have complained about their votes not getting counted during elections. Only the Republicans and the Democrats are allotted the most televised political debates.

Oftentimes, third-party election results are not even announced by the media. The Libertarians and the Greens parties confront roughly indomitable snags, including severe ballot-access and campaign-finance laws. Democracy is a system of determining who shall govern. However, it does not
