Freedom Rising

Samuel Fleischacker

Freedom Rising:

Freedom, Progress, and Human Flourishing Winton Russell Bates, 2021-05-12 What does it mean to be a flourishing human in a Western liberal democracy in the twenty first century In *Freedom Progress and Human Flourishing* Winton Bates aims to provide a better framework for thinking about the relationship between freedom progress and human flourishing Bates asserts that freedom enables individuals to flourish in different ways without colliding allows for a growth of opportunities and supports personal development by enabling individuals to exercise self direction The importance of self direction is a central theme in the book and Bates explores throughout why wise and well informed self direction is integral to flourishing because it helps individuals attain health and longevity positive human relationships psychological well being and an ability to live in harmony with nature

Freedom's Delay Allen Carden, 2014-10-30 The Declaration of Independence proclaimed freedom for Americans from the domination of Great Britain yet for millions of African Americans caught up in a brutal system of racially based slavery freedom would be denied for ninety additional years until the ratification of the Thirteenth Amendment to the U S Constitution *Freedom's Delay America's Struggle for Emancipation 1776-1865* probes the slow painful yet ultimately successful crusade to end slavery throughout the nation North and South This work fills an important gap in the literature of slavery's demise Unlike other authors who focus largely on specific time periods or regional areas Allen Carden presents a thematically structured national synthesis of emancipation *Freedom's Delay* offers a comprehensive and unique overview of the process of manumission commencing in 1776 when slavery was a national institution not just the southern experience known historically by most Americans In this volume the entire country is examined and major emancipatory efforts political literary legal moral and social made by black and white free and enslaved individuals are documented over the years from independence through the ratification of the Thirteenth Amendment *Freedom's Delay* dispels many of the myths about slavery and abolition including that racial servitude was of little consequence in the North and where it did exist it ended quickly and easily that abolition was a white man's cause and blacks were passive recipients of liberty that the South seceded primarily to protect states rights not slavery and that the North fought the Civil War primarily to end the subjugation of African Americans By putting these misunderstandings aside this book reveals what actually transpired in the fight for human rights during this critical era Carden's inclusion of a cogent preface and epilogue assures that *Freedom's Delay* will find a significant place in the literature of American slavery and freedom With a compelling preface and epilogue notes illustrations and tables and a detailed bibliography this volume will be of great value not only in courses on American history and African American history but also to the general reading public Allen Carden is professor of history at Fresno Pacific University in Fresno California He is the author of *Puritan Christianity in America Religion and Life in Seventeenth Century Massachusetts*

The ^AMighty Experiment Seymour Drescher, 2004-10-14 By the mid eighteenth century the transatlantic slave trade was considered to be a necessary and

stabilizing factor in the capitalist economies of Europe and the expanding Americas Britain was the most influential power in this system which seemed to have the potential for unbounded growth In 1833 the British empire became the first to liberate its slaves and then to become a driving force toward global emancipation There has been endless debate over the reasons behind this decision This has been portrayed on the one hand as a rational disinvestment in a foundering overseas system and on the other as the most expensive per capita expenditure for colonial reform in modern history In this work Seymour Drescher argues that the plan to end British slavery rather than being a timely escape from a failing system was on the contrary the crucial element in the greatest humanitarian achievement of all time The Mighty Experiment explores how politicians colonial bureaucrats pamphleteers and scholars taking anti slavery positions validated their claims through rational scientific arguments going beyond moral and polemical rhetoric and how the infiltration of the social sciences into this political debate was designed to minimize agitation on both sides and provide common ground Those at the inception of the social sciences such as Adam Smith and Thomas Malthus helped to develop these tools to create an argument that touched on issues of demography racism and political economy By the time British emancipation became legislation it was being treated as a massive social experiment whose designs many thought had the potential to change the world This study outlines the relationship of economic growth to moral issues in regard to slavery and will appeal to scholars of British history nineteenth century imperial history the history of slavery and those interested in the history of human rights The Mighty Experiment was the winner of First Prize Frederick Douglass Book Prize Gilder Lehrman Center for the Study of Slavery Resistance and Abolition

Building Democracy in the Yugoslav Successor States Sabrina P. Ramet, Christine M. Hassenstab, Ola Listhaug, 2017-05-15 Building democracy in societies that have known only authoritarian rule for half a century is complicated Taking the post Yugoslav region as its case study this volume shows how success with democratisation depends on various factors including establishing the rule of law the consolidation of free media and society's acceptance of ethnic religious and sexual minorities Surveying the seven successor states the authors argue that Slovenia is in a class by itself as the most successful with Croatia and Serbia not far behind The other states Bosnia Herzegovina Macedonia Montenegro and Kosovo are all struggling with problems of corruption poverty and unemployment The authors treat the issue of values as a policy problem in its own right debating the extent to which values have been transformed by changes in education and the media how churches and women's organisations have entered into the policy debate and whether governments have embraced a programme designed to effect changes in values

Mystic Warriors Rosanne Bittner, 2015-05-12 From a USA Today bestseller a historical family saga of a Native American Lakota tribe struggling to protect their land and people from western settlers The white buffalo is a sacred and holy creature to the Lakota Buffalo Dreamer a holy woman and her husband Rising Eagle have not only been blessed to see the white buffalo they have eaten of its heart and have been told by the sacred beast that as long as the Lakota have the white buffalo hide all will be well But all

is not well White hunters have stolen the sacred white robe and great misfortune has befallen the Lakota Settlers continue to invade Lakota territory backed by vicious cavalry forces that massacre women and children The Lakota are starving and their anger is growing Led by Rising Eagle a great force of Lakota and other tribes wage war upon the white man Together they battle to regain the land stolen from them to protect the precious buffalo the white man wantonly destroys and to search for the sacred white robe Praise for Rosanne Bittner s Mystic Dreamers series Filled with suspense and high emotion Booklist

Rosanne Bittner s stories are powerful she creates memorable characters who enlighten readers as they rekindle the magical spark that belonged to the first people to love this land Romantic Times One of the best writers of Native American romance stories Janelle Taylor New York Times bestselling author of Lakota Dawn I m a great admirer of Rosanne Bittner Loren D Estleman author of Thunder City The Civic Culture Transformed Russell J. Dalton,Christian Welzel,2014-12-31 This book re evaluates Almond Verba and Pye s original ideas about the shape of a civic culture that supports democracy Marshaling a massive amount of cross national longitudinal public opinion data from the World Values Survey Association the authors demonstrate multiple manifestations of a deep shift in the mass attitudes and behaviors that undergird democracy The chapters in this book show that in dozens of countries around the world citizens have turned away from allegiance toward a decidedly assertive posture to politics they have become more distrustful of electoral politics institutions and representatives and are more ready to confront elites with demands from below Most importantly societies that have advanced the most in the transition from an allegiant to an assertive model of citizenship are better performing democracies in terms of both accountable and effective governance **Cultural Backlash and the Rise of Populism** Pippa Norris,Ronald Inglehart,2019-02-14 A new theoretical analysis of the rise of Donald Trump Marine le Pen Nigel Farage Geert Wilders Silvio Berlusconi and Viktor Orb n **What Was Freedom's Price?** ,1978 Ethics and the Between William Desmond,2001-01-01 Articulates the necessity for a comprehensive reconstructive thinking about the meaning of being good

Burdens of Freedom Lawrence M. Mead,2019-04-23 Burdens of Freedom presents a new and radical interpretation of America and its challenges The United States is an individualist society where most people seek to realize personal goals and values out in the world This unusual inner driven culture was the chief reason why first Europe then Britain and finally America came to lead the world But today our deepest problems derive from groups and nations that reflect the more passive deferential temperament of the non West The long term poor and many immigrants have difficulties assimilating in America mainly because they are less inner driven than the norm Abroad the United States faces challenges from Asia which is collective minded and also from many poorly governed countries in the developing world The chief threat to American leadership is no longer foreign rivals like China but the decay of individualism within our own society The great divide is between the individualist West for which life is a project and the rest of the world in which most people seek to survive rather than achieve This difference although clear in research on world cultures has been ignored in virtually all previous

scholarship on American power and public policy both at home and abroad *Burdens of Freedom* is the first book to recognize that difference It casts new light on America s greatest struggles It re evaluates the entire Western tradition which took individualism for granted How to respond to cultural difference is the greatest test of our times **Divine Teaching and the Way of the World** Samuel Fleischacker,2011-04-21 Samuel Fleischacker defends what the Enlightenment called revealed religion religions that regard a certain text or oral teaching as sacred as wholly authoritative over one s life At the same time he maintains that revealed religions stand in danger of corruption or fanaticism unless they are combined with secular scientific practices and a secular morality The first two parts of *Divine Teaching and the Way of the World* argue that the cognitive and moral practices of a society should prescind from religious commitments they constitute a secular way of the world to adapt a phrase from the Jewish tradition allowing human beings to work together regardless of their religious differences But the way of the world breaks down when it comes to the question of what we live for and it is this that revealed religions can illumine Fleischacker first suggests that secular conceptions of why life is worth living are often poorly grounded before going on to explore what revelation is how it can answer the question of worth better than secular worldviews do and how the revealed and way of the world elements of a religious tradition can be brought together The Last Battle of the Civil War Anthony J. Gaughan,2011-05-02 Seventeen years after Robert E Lee s surrender at Appomattox his heirs concluded a legal battle that awarded the family of the former Confederate general one last victory In *The Last Battle of the Civil War* Anthony J Gaughan recounts the complex and fascinating saga of the Lee family s conflict with the United States government that ensured that the rule of law would apply equally to ordinary citizens and high government officials Fighting over the Founders Andrew M Schocket,2015-01-23 Explores how politicians screenwriters activists biographers jurists museum professionals and reenactors portray the American Revolution The American Revolution is all around us It is pictured as big as billboards and as small as postage stamps evoked in political campaigns and car advertising campaigns relived in museums and revised in computer games As the nation s founding moment the American Revolution serves as a source of powerful founding myths and remains the most accessible and most contested event in US history more than any other it stands as a proxy for how Americans perceive the nation s aspirations Americans increased fascination with the Revolution over the past two decades represents more than interest in the past It s also a site to work out the present and the future What are we using the Revolution to debate In *Fighting over the Founders* Andrew M Schocket explores how politicians screenwriters activists biographers jurists museum professionals and reenactors portray the American Revolution Identifying competing essentialist and organicist interpretations of the American Revolution Schocket shows how today s memories of the American Revolution reveal Americans conflicted ideas about class about race and about gender as well as the nature of history itself *Fighting over the Founders* plumbs our views of the past and the present and illuminates our ideas of what United States means to its citizens in the new millennium *Douglass and Lincoln* Paul Kendrick,Stephen

Kendrick,2008-01-01 Describes how two towering figures of the nineteenth century Abraham Lincoln and Frederick Douglass set the groundwork in three historic meetings to abolish slavery in the United States despite their differing perspectives on the war and the institution of slavery The Economics of Peace J. Frederick Arment,2014-11-19 From the Arab Spring to the Occupy and Tea Party movements the What now solution to economic disparity and power politics has been largely unarticulated This work details how the Golden Rule ethic and a technology driven global consciousness are causing epic shifts in our economic and governing systems The evolution from nation state capitalism to a collaborative economy with judicial governance is proving that prosperity is compatible with peace With ten case studies of successful Golden Rule organizations and an innovative study of the reciprocal ethic this book provides accessible thought provoking analysis of rapid worldwide change and forecasts a future of freedom purpose and hope **Mathew Brady** Robert Wilson,2014-09-23 A portrait of the visual historian illuminates his role in establishing photography as a valued documenting tool analyzing his portraits of period dignitaries and his self sacrificing effort to capture images of the Civil War **Sounds of Freedom** Fred Brancato,2024-08-05 Sounds of Freedom Reflections about the Liberating Vibrations of Everyday Life describes the ways that music sound vibration and energy give us life and also provide the power to heal The reflections cover a wide range of human experience from expanding consciousness to dementia Its verses may help in times of personal crisis and support living in harmony with the music of the spheres Always and especially now Fred Brancato s words resonate with wisdom and love Fragile and strong Brave and encouraging Patricia Reis author of Unsettled a novel of historical fiction This exquisite poem a long necklace of pearls of jewels each a portal into an indeterminate space of exquisite form and mystery Delicate potent vibrant and quietly thrilling this is a work of brilliancy to be sipped and savored Leah Chyten author of Light Radiance Splendor and Soul of the Mountain **Giants** John Stauffer,2008-11-03 Frederick Douglass and Abraham Lincoln were the preeminent self made men of their time In this masterful dual biography award winning Harvard University scholar John Stauffer describes the transformations in the lives of these two giants during a major shift in cultural history when men rejected the status quo and embraced new ideals of personal liberty As Douglass and Lincoln reinvented themselves and ultimately became friends they transformed America Lincoln was born dirt poor had less than one year of formal schooling and became the nation s greatest president Douglass spent the first twenty years of his life as a slave had no formal schooling in fact his masters forbade him to read or write and became one of the nation s greatest writers and activists as well as a spellbinding orator and messenger of audacious hope the pioneer who blazed the path traveled by future African American leaders At a time when most whites would not let a black man cross their threshold Lincoln invited Douglass into the White House Lincoln recognized that he needed Douglass to help him destroy the Confederacy and preserve the Union Douglass realized that Lincoln s shrewd sense of public opinion would serve his own goal of freeing the nation s blacks Their relationship shifted in response to the country s debate over slavery abolition and emancipation Both were ambitious men

They had great faith in the moral and technological progress of their nation And they were not always consistent in their views John Stauffer describes their personal and political struggles with a keen understanding of the dilemmas Douglass and Lincoln confronted and the social context in which they occurred What emerges is a brilliant portrait of how two of America's greatest leaders lived

Going to the Sources Anthony Brundage, 2017-04-27 It's been almost 30 years since the first edition of *Going to the Sources: A Guide to Historical Research and Writing* was first published Newly revised and updated the sixth edition of this bestselling guide helps students at all levels meet the challenge of writing their first or their first real research paper Presenting various schools of thought this useful tool explores the dynamic nature and professional history of research papers and shows readers how to identify find and evaluate both primary and secondary sources for their own writing assignments This new edition addresses the shifting nature of historical study over the last twenty years *Going to the Sources: A Guide to Historical Research and Writing* includes A new section analyzing attempts by authors of historical works to identify and cultivate the appropriate public for their writings from scholars appealing to a small circle of fellow specialists to popular authors seeking mass readership A handy style guide for creating footnotes endnotes bibliographical entries as well as a list of commonly used abbreviations Advanced Placement high school and undergraduate college students taking history courses at every level will benefit from the engaging thoughtful and down to earth advice within this hands on guide

Spirit Alliance Joy Brisbane, 2017-09-26 Joy Brisbane knew at the age of seven that she could communicate with spirit beings In 2002 she became a widow but due to her own experience with grief she dedicated her life to helping others move out of their dark nights and into bright new days Since then she has facilitated workshops in psychic development grief healing and past life regression In *Spirit Alliance* Brisbane shares insights and information to help the reader discover his or her soul's healing power and therefore step into self healing Her enlightened message seeks to touch the lives of others and help them find joy and peace She asks readers to open their minds and hearts to the possibility of the healing self When we step into our divine heritage of living a joyful life when we find the courage and strength to be who we truly are we enter into the experience of discovering inner freedom We find our divine essence Now be inspired and uplifted in a celebration of spirit and self Believe in the beauty and wonder of living a spiritually rich life
