Freedom Through Contemplation:

Freedom Through Contemplation Helen Evans, Peter Evans, 2000-12-07 Please use Author Bio see below on the back cover with the same border as the front cover *Contemplation and Freedom* Benedict R. Shoup, Mary Frohlich, 2025-04-22 How does prayer shape action How does sustained engagement in deep prayer shape our very freedom to act This volume explores the relationship between Christian contemplative prayer and the exercise of freedom Over the past half century the desire for a better integration of spirituality and theology has emerged as a significant theme in theological writing While the question of freedom has not been absent from this discourse this volume highlights it by bringing it to the very center of the conversation Eleven theologians explore the dialectical relationship between contemplation and freedom by engaging with a wide array of sources ranging from Maximus the Confessor to Edith Stein from Howard Thurman to Bernard Lonergan from the Tiberian martyrs to M Shawn Copeland This symphony of voices unveils the methodological fruitfulness of placing contemplative prayer at the center of life theory and practice Contemplation and Incarnation Christophe F. Potworowski, 2001 Marie Dominique Chenu was a key figure in the revitalization of theology and renewal of the Church that culminated in the Second Vatican Council He successfully combined a return to the medieval sources of theological reflection with a new sensitivity to *Finding Freedom Through Illumination* Cardwell Nuckols, 2014-05-06 This deeply spiritual book will guide readers on a journey toward Realization of the Christ consciousness that exists within each of us In *Finding Freedom Through Illumination* Dr Nuckols divides the journey into three sections each defining a part of the process that leads to Realization the accumulation of more Light Dr Nuckols explains that as we gather more Light our worldview changes and we see the world differently and while our thoughts feelings and behaviors change we become more intuitive and begin to understand that all of life is an opportunity for spiritual growth Step by step Dr Nuckols illuminates the concept that Realization sometimes called enlightenment satori kensho samadi or moksha is about becoming one with our Creator Every spiritual tradition including Alcoholics Anonymous Hinduism and Buddhism gives direction for spiritual growth all change our worldview and all have been shown to enhance levels of spiritual consciousness Spending time in silence solitude prayer contemplation and meditation allows for intuitive change that alters our worldview causing the defects of character of the narcissistic ego to melt away Ultimately this is freedom this is illumination and this is spiritual growth **Freedom** Henri Bergson, 2024-05-02 For 15 years Henri Bergson the most important French philosopher of the early 20th century taught at the Collège de France Speaking without notes most of his classes are now lost to history but records of a handful of courses fortuitously survived thanks to stenographic transcripts Conveying Bergson's very voice these extraordinary documents are finally presented here in English The 1904 1905 lectures are dedicated to the topic of freedom or as Bergson put it the evolution of the problem of freedom Building on the philosophy of freedom from his first book *Time and Free Will* he proposes that freedom is not only a fundamental human experience but characteristic of all life as such By retracing how

ancient and modern philosophers have dealt with the delicate question of freedom Bergson demonstrates the necessity and also the radically new character of his own theory of freedom Bergson's lectures are a feast for many audiences For philosophers they give a fuller picture of his thought and contain deep reflections on many core topics in philosophy today from the nature of time to the difference between brain and mind the relation between memory and perception and the vindication of freedom over determinism For intellectual historians the lectures are a treasure trove as a slice of the living thought of a great thinker as an extended analysis of the natural and human sciences of his day and as a rich commentary on the history of ancient and modern philosophy Finally for cultural historians and literary scholars the lectures were the cultural capital of Belle époque France consumed by elites and a vast educated public They are also part of an exceedingly rare genre in modern philosophy spoken not written lectures and expressed as a veritable stream of philosophical consciousness that is remarkably structured and analytically lucid

Illusions of Freedom Jeffrey M. Shaw, 2014-06-02

Illusions of Freedom examines the opinions and ideas of two twentieth century writers Thomas Merton a Catholic monk living in the United States and Jacques Ellul a French Protestant Contemporaries they never met or corresponded with each other but their critique of the influence that technology was beginning to have on the human condition is strikingly similar Both Merton and Ellul drew upon the ideas of others in formulating their worldview to include Karl Barth Søren Kierkegaard Aldous Huxley and Karl Marx Jeffrey Shaw examines the influence that these other philosophers had on Merton and Ellul as they formulated their own ideas on technology's impact on freedom Tracing the similarities and in some cases the differences between their critiques of technology and the idea that progress is always to be seen as something inherently good one finds that they bring a unique perspective to the debate and offer readers an alternative avenue for reflecting on the meaning of technology and its impact on our lives in the twenty first century

Freedom and Its Conditions Richard Flathman, 2003-04-30 First published in 2003 Routledge is an imprint of Taylor Francis an informa company

From the Golem to Freedom Gábor L. Ambrus, 2024-02-08 With a particular focus on social media Gábor L. Ambrus explores how human beings relate to contemporary information technology Ambrus argues that religious traditions such as Judaism and Christianity as well as secular philosophical thought inspired by religion can be invoked to describe both the freedom and unfreedom of the user of information technology To illustrate how individuals relate to technology in a restricted and totalitarian online environment Ambrus adopts the figure and legend of the golem from Jewish mysticism At the same time his argument features other religious concepts and themes to describe an alternative to our present predicament of unfreedom while not seeking to portray any redemption outside the technological environment At the core of his argument Ambrus presents the experience of nothingness as a source of freedom opening up the possibility for a free relationship for us all with information technology

Facts of Consciousness Johann Gottlieb Fichte, 2022-08-10 In **Facts of Consciousness** Johann Gottlieb Fichte presents a pivotal exploration of self awareness and the nature of consciousness that significantly

influenced the development of German idealism Written in the early 19th century the book employs a rigorous philosophical style characterized by dialectical reasoning and introspective inquiry Fichte probes deeply into the processes of thought subjectivity and the role of the self in constructing knowledge often challenging prevailing empiricist notions and emphasizing the significance of the individual's active engagement with their own consciousness Fichte a prominent philosopher of the Enlightenment was greatly influenced by the ideas of Immanuel Kant particularly the critical examination of the faculties of human understanding His commitment to the principles of freedom and autonomy stems from his own experiences and the socio political upheavals of his time motivating him to seek a philosophical grounding for personal agency within a collective context This backdrop informed Fichte's conviction that human consciousness is not a passive receiver of sensations but an active participant in the formation of knowledge and reality Facts of Consciousness is a must read for anyone intrigued by philosophical discourses surrounding self and consciousness It offers profound insights into the nature of individual perception and serves as a crucial text for understanding the evolution of modern philosophical thought Whether you are a philosopher student or avid reader of intellectual history Fichte's work will enrich your comprehension of the self and its relation to the world

The Political Humanism of Hannah Arendt Michael H. McCarthy, 2012-08-17 At the end of the Second World War when the horror of the holocaust became known Hannah Arendt committed herself to a work of remembrance and reflection Intellectual integrity demanded that we comprehend and articulate the genesis and meaning of totalitarian terror What earlier spiritual and moral collapse had made totalitarian regimes possible What was the basis of their evident mass appeal To what cultural resources and political institutions and traditions could we turn to prevent their recurrence After years of profound study Arendt concluded that the deepest crisis of the modern world was political and that the enduring appeal of political mass movements demonstrated how profound that crisis had become For Arendt the modern political crisis is also a crisis of humanism The radical totalitarian experiment was rooted in two distorted images of the human being The agents of terror believed in the limitless power generated by strategic organization a power exercised without restraint and justified by appeal to historical necessity The victims of terror by contrast were systematically dehumanized by the ruling ideology and then brutally deprived of their legal rights and their moral and existential dignity Arendt's political humanism directly challenges both of these distorted images the first because it dangerously inflates human power the second because it deliberately subverts human freedom and agency This book offers a dialectical account of the political crisis that Arendt identified and shows why her interpretation of that crisis is especially relevant today The author also provides detailed analysis and appraisal of Arendt's political humanism the revisionary anthropology she based on the politically engaged republican citizen Finally the work distinguishes the merits from the limitations of Arendt's genealogical critique of our tradition of political thought showing that she tended to be right in what she affirmed and wrong in what she excluded or omitted

Friedrich Schiller Poet of Freedom Volume II Friedrich

Schiller, Helga Zepp-LaRouche, Friedrich Schiller the great German classical poet and friend of the American Revolution assigned to art the task of ennobling the spirit of Man especially at those times when political circumstances are most unfavorable men most degraded and when the qualities of genius are most urgently required to find a way to avert political catastrophe Reading Schiller's poetry as well as his historical philosophical and aesthetic works has precisely the effect on the sensitive reader of which Schiller informed us to produce in the reader an ennobling power which then continues to exist long after the reading is done This is volume II of the four volume collection of translations Volume II includes Schiller Institute English translations of the following Wilhelm Tell The Parasite What Is and to What End Do We Study Universal History The Legislation of Lycurgus and Solon On Grace and Dignity Kalias or On the Beautiful The Mission of Moses

Conceptions of God, Freedom, and Ethics in African American and Jewish Theology K. Buhning, 2008-05-12 This book is a consideration of major contemporary Black and Jewish understanding of God examining how profound faith in a just God is sustained and even strengthened in the face of particularly horrific and long standing evil and suffering in a community *God, Freedom and Immortality* Jonathan Harrison, 2018-12-21 Published in 1999 this text offers a

comprehensive treatment of the Philosophy of Religion Its overall conclusions are that though there is no reason to suppose there is a God doing something that is not quite believing in god who as some mystics think neither exists nor does not exist may be valuable for some people [Life's Quest for Love and Freedom](#) Allan Moore, 2017-02-15 In life we are all seekers on a perpetual search for love and freedom Still as hard as we try sometimes the things we want most seem to be the most elusive In a thought provoking guide to finding love and freedom life coach Allan Moore relies on personal experiences ancient philosophies and intuitive based wisdom to help others understand and sustain love with freedom While leading others on a spiritual journey to gain answers Moore introduces the concept of self reveals the source of love explores the law of attraction defines personal traits that can lead to failure or success and offers suggestions on how to gain observational awareness through journaling mindfulness and self reflection Through gentle encouragement Moore helps all of us understand that above all love is who we really are as unique beings existing within a vast universe Lifes Quest for Love and Freedom intertwines anecdotes with practical advice and introspective ideas that lead others down a contemplative path to attain a better life **Absolute freedom and happiness - our true essence** Vadim Sychevskiy, 2024-05-17 This essay is a

summary of the key points of authentic spiritual practice which are presented in detail in the book Dharma The Way Things Are Real Experiences and Realizations of a Spiritual Practitioner V Sychevskiy 2022 AEGITAS Publishing House 2022 Unfortunately nowadays it is very often believed that going into the astral is a spiritual practice This is a very dangerous misconception To put it briefly the Lower Astral World are the images of our worldly desires Therefore a simple going into the Astral outside the context of proper spiritual practice are nothing but horrifying visions of Hell the Animal World and the World of Hungry Spirits in the Lower Astral World and accordingly a serious blow to the psyche However if you read the

original Buddhist or yogic sutras you will not find in their descriptions anything about entering the Astral contact with astral entities connection to the streams of energy and further immersion in pitch darkness Because true spiritual practice based on the True Dharma which was given to the world by the Great Teachers of the past is completely opposite to the nonsense and lies broadcast by the urban crazies They think they are masters of meditation because they practice under the influence of drugs Their practice is often only technical and instead of immersing themselves in the Practices of Goodness Merit Law and Tranquility they engage in religious activities to satisfy their egoism and wealth In meditation only the data that we have accumulated will manifest Therefore what we experience after we sit down to meditate is very important Further when the data manifests we completely stop its action through concentration and Contemplation But what happens if from the very beginning we do not change the initial data and do not master Calmness and Contemplation For example although meditation has become very fashionable hasn't the world been getting worse and worse The fact is that if you do not change the initial data with the help of preliminary practices then it will remain at the level of the lower worlds full of worldly desires and accordingly suffering Moreover if the internal data is of a low level and there is no ability to stop the action of this outgoing data then no matter how much you meditate you will not get better from this Nevertheless ordinary people trying to be in the trend sit and think I meditate But there is no point in sitting in your pants The meaning will come only when we persistently change the data of our Five Aggregates controlling the actions of the body speech and thoughts based on the True Dharma fixed in memory

The Problems of Philosophy Bertrand Russell, 2007-01-01 One of his great works and a must read for any student of philosophy The Problems of Philosophy was written in 1912 as an introduction to Russell's thought As an empiricist Russell starts at the beginning with this question Is there any knowledge in the world that is so certain that no reasonable man could doubt it This according to Russell is where the work of philosophy begins He covers topics such as reality the nature of matter inductive reasoning truth and the limits of philosophical knowledge As one of the greatest minds in Western philosophy Russell's thoughts are profoundly informative and provocative and suitable for anyone wishing to expand his mind British philosopher and mathematician BERTRAND ARTHUR WILLIAM RUSSELL 1872-1970 won the Nobel Prize for Literature in 1950 Among his many works are *Why I Am Not a Christian* 1927 *Power A New Social Analysis* 1938 and *My Philosophical Development* 1959

The Concept of Freedom in Judaism, Christianity and Islam Georges Tamer, Ursula Männle, 2019-08-19 The third volume of the series *Key Concepts of Interreligious Discourses* investigates the roots of the concept of freedom in Judaism Christianity and Islam and its relevance for the present time The idea of freedom in terms of personal freedoms which include freedom of conscience freedom of speech and bodily integrity is a relatively new one and can in some aspects get into conflict with religious convictions At the same time freedom as an emancipatory power from outer oppression as well as from inner dependencies is deeply rooted in Judaism Christianity and Islam It is still a vital concept in religious and non religious communities and movements The volume presents the concept of freedom in its

different aspects as anchored in the traditions of Judaism Christianity and Islam It unfolds commonalities and differences between the three monotheistic religions as well as the manifold discourses about freedom within these three traditions The book offers fundamental knowledge about the specific understanding of freedom in each one of these traditions their interdependencies and their relationship to secular interpretations **Freedom and Solidarity** Fred Dallmayr,2015-12-18 Fred Dallmayr bridges the gap between the self and the outside world in Freedom and Solidarity Drawing on new scholarship and his work with the World Public Forum Dialogue of Civilizations he challenges dominant worldviews and heralds new possibilities for political thought and practice Freedom and Responsibility in Neoplatonist Thought Ursula Coope,2020 Ursula Coope presents a ground breaking study of the philosophy of the Neoplatonists 3rd 5th century CE She explores their understanding of freedom and responsibility an entity is free to the extent that it is wholly in control of itself self determining self constituting and self knowing which only a non bodily thing can be **Evil, Freedom, and the Road to Perfection in Clement of Alexandria** Peter Karavites,1998 The discussion of Clement s evil and freedom of the will constitutes a fascinating new study of a universal problem It presents Clement s ideas in a fresh and clear manner equally intelligible to the initiated as well as the common reader
