Fogarty, Rhona Rapoport, Robert N. Rapoport, 2017-01-06 In this book first published in 1971

the authors show from first hand studies of family and working life and with evidence from many countries including the socialist societies of Eastern Europe the nature of the discrimination facing women in the professions and how various family and employment patterns might contribute to solving it Their point is not that some new stereotype should be substituted for traditional views of the role of husbands and wives different patterns fit different situations The Career Mystique Phyllis Moen, Patricia Roehling, 2005 The Career Mystique shows that most Americans men and women continue to embrace the myth that hard work long hours and continuous employment pay off even though it is out of date and out of place in twenty first century America Phyllis Moen and Patricia Roehling argue that the lock step arrangements around education work family and retirement no longer fit the realities and risks of contemporary living yet the roles rules and regulations spawned by the career mystique remain in place This books shows that ambiguities and uncertainties about the future abound in boardrooms in offices and on factory floors as Americans face the realities of corporate restructuring chronic job insecurity and double demands at work and at home Moen and Roehling show the career mystique for what it is a false myth standing in the way of creating new alternative workplaces and career flexibilities Based on research funded by the Alfred P Sloan Foundation and the National Institute on Aging **Research in Education** ,1973 Weekly World News ,2000-03-28 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub [www.weeklyworldnews.com](http://www.weeklyworldnews.com) is a leading entertainment news site
