**French Colonialism in Tropical Africa, 1900-1945. Translated from the French by Till Gottheiner** Jean Suret-Canale, 1971      **The French Imperial Nation-State** Gary Wilder, 2020-05-08 France experienced a period of crisis following World War I when the relationship between the nation and its colonies became a subject of public debate The French Imperial Nation State focuses on two intersecting movements that redefined imperial politics colonial humanism led by administrative reformers in West Africa and the Paris based Negritude project comprising African and Caribbean elites Gary Wilder develops a sophisticated account of the contradictory character of colonial government and examines the cultural nationalism of Negritude as a multifaceted movement rooted in an alternative black public sphere He argues that interwar France must be understood as an imperial nation state an integrated sociopolitical system that linked a parliamentary republic to an administrative empire An interdisciplinary study of colonial modernity combining French history colonial studies and social theory The French Imperial Nation State will compel readers to revise conventional assumptions about the distinctions between republicanism and racism metropolitan and colonial societies and national and transnational processes      **The French Colonial Lobby, 1889-1938** Stuart Michael Persell, 1983      **Cold War and Decolonization in Guinea, 1946-1958** Elizabeth Schmidt, 2007-09-25 In September 1958 Guinea claimed its independence rejecting a constitution that would have relegated it to junior partnership in the French Community In all the French empire Guinea was the only territory to vote No Orchestrating the No vote was the Guinean branch of the Rassemblement D mocratique Africain RDA an alliance of political parties with affiliates in French West and Equatorial Africa and the United Nations trusts of Togo and Cameroon Although Guinea s stance vis vis the 1958 constitution has been recognized as unique until now the historical roots of this phenomenon have not been adequately explained Clearly written and free of jargon Cold War and Decolonization in Guinea argues that Guinea s vote for independence was the culmination of a decade long struggle between local militants and political leaders for control of the political agenda Since 1950 when RDA representatives in the French parliament severed their ties to the French Communist Party conservative elements had dominated the RDA In Guinea local cadres had opposed the break Victimized by the administration and sidelined by their own leaders they quietly rebuilt the party from the base Leftist militants their voices muted throughout most of the decade gained preeminence in 1958 when trade unionists students the party s women s and youth wings and other grassroots actors pushed the Guinean RDA to endorse a No vote Thus Guinea s rejection of the proposed constitution in favor of immediate independence was not an isolated aberration

Rather it was the outcome of years of political mobilization by activists who despite Cold War repression ultimately pushed the Guinean RDA to the left The significance of this highly original book based on previously unexamined archival records and oral interviews with grassroots activists extends far beyond its primary subject In illuminating the Guinean case Elizabeth Schmidt helps us understand the dynamics of decolonization and its legacy for postindependence nation building in many parts of the developing world Examining Guinean history from the bottom up Schmidt considers local politics within the larger context of the Cold War making her book suitable for courses in African history and politics diplomatic history and Cold War history

Klein, 1998-07-28 Martin Klein's book is a history of slaves during the nineteenth and twentieth centuries in three former French colonies It investigates the changing nature of local slavery over time and the evolving French attitudes towards it through the phases of trade conquest and colonial rule The heart of the study focuses on the period between 1876 and 1922 when a French army composed largely of slave soldiers took massive numbers of slaves in the interior while in areas near the coast hesitant actions were taken against slave raiding trading and use After 1900 the French withdrew state support of slavery and as many as a million slaves left their masters A second exodus occurred after World War I when soldiers of slave origin returned home The renegotiation of relationships between those who remained and their masters carries the story into the contemporary world

Cameroon la R publique du Cameroun This conflict has shaken Cameroon to its core since the 1990s and led to an armed conflict between the government of Cameroon and Anglophone non state armed groups The premise of this book is that the Anglophone Question the problematic situation of the muted English and Pidgin speaking minority in French Cameroon is one of the unfinished items of business of World War I and the Treaty of Versailles of 1919 that resolved the conflicts of that great conflict The Anglophone conflict has been exacerbated by the authoritarian republican chieftaincy that was installed in Cameroon after independence and reunification This neo patrimonial kleptocratic regime of Cameroon has with the support of its international partners emphasized the argument of force rather than the force of argument thereby creating yet another frozen African conflict

**Accounting for Colonialism** Richard F. America, 2024-01-17 This book examines qualitatively and quantitatively the exploitation of Africa through six centuries of colonialism and imperialism The contributions build on previous qualitative analyses The chapters introduce new ways to measure some of the coerced income and wealth transfers to Europe and North America through systematic underpayments and overcharges This wealth was wrongfully accumulated using many forms of their abuse of dominance The book provides estimates that will be helpful to understanding the growing debate on reparations This also contributes to rethinking international development assistance policy It helps establish a basis for improved estimates of the gains from past and current practices that worked against African economic social and political institutions and systems This edited volume showcases a variety of scholars with diverse perspectives and establishes for the first time the extent of wrongful benefits and damages from 600 years of international harm to the African continent

**Colonial Legacies in Francophone African Literature** Mohamed Kamara, 2023-12-06 Colonial Legacies in Francophone African Literature The School and the Invention of the Bourgeoisie by Mohamed Kamara examines the representation and lasting impact of the colonial school and bourgeoisie in Francophone sub Saharan literature Mohamed Kamara contends that the so called indigenous colonial bourgeoisie was invented by the colonizer through the school to perpetuate the ideology of the colonizer and he interrogates the policies and practices of the school and the ways they were informed by discourses of racial difference While many works like those authored by Gadjigo and Alessandri have interrogated the impact of the colonial school on the African individual and society they do not focus on the relationship between colonial education and the emergence of the African bourgeois and bourgeoisie Accordingly this book analyzes the various literary strategies used in selected texts to paint a portrait of the school and the class it produced in view of showing the organic relationship between the two This book adds a fresh perspective on the intimate connection between the school and social transformation in Francophone sub Saharan Africa Kamara suggests that the best solution for the continent resides in the continent s ability to take what is good in its precolonial past and combine it with what makes sense in today s reality
