Anglicisms and secondary sources This book examines the appearance and behavior of English items in the lexicon and morphology of French and explains them in the context of French neology and lexical activity The first phase of the latest contact period 1990 2015 has its own complex linguistic characterization including a significant influx of nonce borrowings and very low frequency Anglicisms heterogeneous and creative borrowing outcomes and direct phraseological borrowing This book is a counterargument to the well known criticism that Anglicisms are lexical polluters On the contrary the use of Anglicisms requires the inventive application of complex linguistic rules and the borrowing of Anglicisms into the French lexicon is convincing proof that language change is systematic The findings bring novel interdisciplinary insights to the domains of borrowing in a non bilingual contact setting global English as a source of lexical creativity in the French lexicon the phases patterns and processes of integration of English loanwords the morphology of borrowing and computational corpus linguistics The appended database is a snapshot of a synchronic period of linguistic contact and a useful lexicographic resource *Library World Records, 3d ed.* Godfrey Oswald, 2017-08-11 Which are the oldest public libraries in the world In what years were the first books printed in French Thai Japanese Arabic Turkish What are the oldest extant texts written in Chinese English Russian Spanish When was the first major computer database used in libraries What are the titles of the largest smallest or most expensive books ever published Where is the world's busiest public library Which three books were the first to contain photographs In its updated and expanded third edition this reference work provides hundreds of fascinating facts about libraries books periodicals reference databases specialty archives bookstores catalogs technology information science organizations and library buildings Thinking Syntactically Liliane Haegeman, 2009-02-04 Thinking Syntactically A Guide to Argumentation and Analysis is a textbook designed to teach introductory students the skills of relating data to theory and theory to data Helps students develop their thinking and argumentation skills rather than merely introducing them to one particular version of syntactic theory Structured around a wide range of exercises that use clear and compelling logic to build arguments and lead up to theoretical proposals Data drawn from current media sources including newspapers books and television programs to help students formulate and test hypotheses Generative in spirit but does not focus on specific theoretical approaches but enables students to understand and evaluate different approaches more easily Written by an established author with an international reputation **Language Endangerment** Ndimele, Ozo-mekuri, 2016-02-22 This commemorative volume is the 12th edition in the Nigerian Linguists Festschrift Series devoted to Professor Mrs Appolonia Uzoaku Okwudishu The majority of the papers were presented at the 27th Annual Conference of the Linguistic Association of Nigerian CLAN which was held at the Benue State University Makurdi Nigeria and the 26th CLAN which was held at the University of Ibadan Nigeria The title derives from the theme of the 27th CLAN Language Endangerment Globalisation and the Fate of Minority Languages in Nigeria A large number of the papers address the major theme of the conference while the balance address various aspects of Nigerian linguistics languages communication and

Edwards, 2019-10-17 This volume examines the ways in which multilingual women authors incorporate several languages into their life writing It compares the work of six contemporary authors who write predominantly in French It analyses the narrative strategies they develop to incorporate more than one language into their life writing French and English French and Creole or French and German for example The book demonstrates how women writers transform languages to invent new linguistic formations and how they create new formulations of subjectivity within their self narrative It intervenes in current debates over global literature national literatures and translingual and transnational writing which constitute major areas of research in literary and cultural studies It also contributes to debates in linguistics through its theoretical framework of translanguaging It argues that multilingual authors create new paradigms for life writing and that they question our understanding of categories such as French literature **Corpus Analysis and Variation in Linguistics** Yuji Kawaguchi, Makoto Minegishi, Jacques Durand, 2009-03-26 For sale in all countries except Japan For customers in Japan
