History of French Literature: From its origin to the renaissance Henri Van Laun, 1876 **History of French Literature** Henri Van Laun, 2024-06-27 Reprint of the original first published in 1877 **A New History of Medieval French Literature** Jacqueline Cerquiglini-Toulet, 2011-12 Is it legitimate to conceive of and write a history of medieval French literature when the term literature as we know it today did not appear until the very end of the Middle Ages In this novel introduction to French literature of the period Jacqueline Cerquiglini Toulet says yes arguing that a profound literary consciousness did exist at the time Cerquiglini Toulet challenges the standard ways of reading and evaluating literature considering medieval literature not as separate from that in other eras but as part of the broader tradition of world literature Her vast and learned readings of both canonical and lesser known works pose crucial questions about among other things the notion of otherness the meaning of change and stability and the relationship of medieval literature with theology Part history of literature part theoretical criticism this book reshapes the language and content of medieval works By weaving together topics such as the origin of epic and lyric poetry Latin French bilingualism women s writing grammar authorship and more Cerquiglini Toulet does nothing less than redefine both philosophical and literary approaches to medieval French literature Her book is a history of the literary act a history of words a history of ideas and works monuments rather than documents that calls into question modern concepts of literature

**Introduction to Nineteenth-Century French Literature** Tim Farrant, 2013-11-20 Everyone knows something of nineteenth century France or do they Les Miserables The Lady of the Camelias and The Three Musketeers Balzac and Jules Verne live in the popular consciousness as enduring human documents and cultural icons Yet the French nineteenth century was even more dynamic than the stereotype suggests This exciting new introduction takes the literature of the period both as a window on past and present mindsets and as an object of fascination in its own right Beginning with history the century s biggest problem and potential it

looks at narrative responses to historical political and social experience before devoting central chapters to poetry drama and novels all genres the century radically reinvented It then explores numerous modernities ways nineteenth century writing and mentalities look forward to our own before turning to marginalities subjects and voices the canon traditionally forgot No genre was left unchanged by the nineteenth century This book will help to discover them anew English Literature, Its History and Its Signi the English-Speaking World William J. Long, 2016-09-05 This book which presents the whole splendid history of English literature from Anglo Saxon times to the close of the Victorian Era has three specific aims The first is to create or to encourage in every student the desire to read the best books and to know literature itself rather than what has been written about literature The second is to interpret literature both personally and historically that is to show how a great book generally reflects not only the author s life and thought but also the spirit of the age and the ideals of the nation s history The third aim is to show by a study of each successive period how our literature has steadily developed from its first simple songs and stories to its present complexity in prose and poetry To carry out these aims we have introduced the following features 1 A brief accurate summary of historical events and social conditions in each period and a consideration of the ideals which stirred the whole nation as in the days of Elizabeth before they found expression in literature 2 A study of the various literary epochs in turn showing what each gained from the epoch preceding and how each aided in the development of a national literature 3 A readable biography of every important writer showing how he lived and worked how he met success or failure how he influenced his age and how his age influenced him 4 A study and analysis of every author s best works and of many of the books required for college entrance examinations 5 Selections enough especially from earlier writers and from writers not likely to be found in the home or school library to indicate the spirit of each author s work and directions as to the best works to read and where such works may be found in inexpensive editions 6 A frank untechnical discussion of each great writer s work as a whole and a critical estimate of his relative place and influence in our literature
