French Socialists in Search of a Role, 1956-1967 Harvey G. Simmons, 1910 French Socialists in Search of a Role, 1956-1967 Harvey Gerald Simmons, 1970 Monograph describing the political leadership of the socialist political party in France during 1956 and 1957 and its political activities as an element of the opposition up to 1967 includes statistical tables on membership and a chronology of the principal events in the internal politics of the party from 1956 to 1966 Bibliography Anticommunism in French Society and Politics, 1945-1953 Aaron Clift, 2023-06-20 Anticommunism in French Society and Politics 1945 1953 evaluates the prevalence of anticommunism among the French population in 1945 to 1953 and examines its causes character and consequences through a series of case studies on different segments of French society These include the scouting movement family organisations agricultural associations middle class groups and trade unions and other working class organisations Aaron Clift contends that anticommunism was more widespread and deeply rooted than previously believed and had a substantial impact on national politics and on these social groups and organisations Furthermore he argues that the study of anticommunism allows us a deeper understanding of the values they regarded as the most important to defend Although anticommunism was a diverse phenomenon this work identifies common discourses including portrayals of communism as a threat to the nation the colonial empire the traditional family private property religion the rural world and Western civilisation It also highlights common aims such as the rehabilitation of wartime collaborators and tactics such as the invocation of apoliticism While acknowledging the importance of the Cold War it rejects the assumption that anticommunism was an American import or foreign to French society and demonstrates links between anticommunism and anti Americanism It concludes that anticommunism drew its strength from the connection or even conflation of communism with perceived negative social changes that were seen to threaten traditional French civilisation interacting with the postwar international and domestic environment and the personal experiences of individual anticommunists The Political Mobilization of the European Left, 1860-1980 Stefano Bartolini, 2000-08-28 In an in depth comparative analysis Stefano Bartolini studies the history of socialism and working class politics in Western Europe While examining the social contexts organizational structures and political developments of thirteen socialist experiences from the 1860s to the 1980s he reconstructs the steps through which social conflict was translated and structured into an opposition as well as how it developed its different organizational and ideological forms and how it managed more or less successfully to mobilize its reference groups politically <u>Ideology And Politics: The Socialist Party Of France</u> George A. Codding, 2019-04-10 This book explores the strengths and weaknesses of the French Socialist party its history ideology organization and constituency as well as the reasons the party has remained a viable force in the French political system for over seventy years Socialism in Provence, 1871-1914 Tony Judt, 2011 No detailed description available for Socialism in Provence 1871 1914 British Dogmatism and French Pragmatism Douglas E. History Of The International: World Socialism 1943-1968 Julius Braunthal, 2019-03-20 With this volume the history of the first century of the International reaches its conclusion Originally I had intended that the trilogy would come to a close with the centenary of the founding of the First International in September 1964 But before I could finish writing the third volume the tragedy of the Communist revolution in Czechoslovakia had played itself out The Spring of Prague of 1968 having set in motion a process of change from a Communist dictatorship to a Socialist democracy was followed within a few months by the invasion of the armies of the five Warsaw Pact powers to forestall reformation in Czechoslovakia Both revolution and counter revolution were events of the utmost significance for the history of Socialism the revolution for showing that it was possible for a Communist system of totalitarian dictatorship to be transformed without resort to force and the counter revolution for showing how the regime in the Soviet Union has remained essentially unaltered since Stalin's death The invasion of Czechoslovakia brutally called in question any optimistic perspective of development within the Soviet Union itself The French Communist Party and the Algerian War Daniele Joly, 1991-04-19 The Long March of the French Left R.W. Johnson, 1981-03-19 Decolonization in Britain and France Miles Kahler, 2014-07-14 Professor Kahler focuses on organizations below the state investigating party competition and sensitivity to political change produced by the characteristics of commercial firms In addition he explores transmission of external shocks to the domestic polity by the state itself and the domestic politics of settler societies under external threat Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Paris and the Provinces Peter Gourevitch, 2023-02-14 First published in 1980 Paris and the Provinces explores why reforms of central local relations in France have been so ineffectual Professor Gourevitch discovers the cause in party politics and personal rivalries The struggle for dominance among different parties Gaullists Communists Socialists Christian Democrats Independents and others and individuals De Gaulle Giscard Chirac Mitterand Marchais etc has

influenced virtually every aspect of institutional reform from the creation of the regional administration and delineation of its powers to the delegation of specific responsibilities to cities and towns Conflict over the mechanisms that link local life to the national government is by no means limited to France This book closely examines comparable events in Italy and analyses the factors that differentiate the strength of ethnically based challenges to central authority in Britain Spain Belgium Yugoslavia and Canada from the relative weakness of such challenges in France Italy and Germany By evaluating the territorial distribution between the capital and the countryside as both an influence on and an object of policy Paris and the Provinces contributes significantly to understanding the connections between party politics and policy formation and will be of interest to students of political science government and public policy The French Socialist Experiment John Steward Ambler 1985 *The Spirit of '68* Gerd-Rainer Horn, 2007-02-15 Publisher description The Rise and Fall of the <u>People's Parties</u> Pepijn Corduwener, 2023 The Rise and Fall of the People's Parties explores the striking parallels between the history of democracy and that of the people's parties since 1918 It demonstrates that understanding the rise and fall of the people s parties is pivotal to understanding the contemporary crisis of democracy The French Socialist and Communist **Christian Democracy in France (Routledge** Party Under the Fifth Republic, 1958-1981 Wayne Northcutt, 1985 **Revivals)** R. E. M. Irving, 2010-03-23 Christian Democracy which may briefly be defined as organised political action by Catholic democrats has been a major political force in Western Europe since the Second World War not least in France The aim of this book first published in 1973 is to trace the Development of Christian Democracy in France from its origins in the 1830s to the present day discussing its theories and its importance in French history and politics with particular but by no means exclusive reference to the Fourth Republic 1946 58 when the MRP was one of the key centre parties Dr Irving provides a thorough analysis of MRP its economic foreign and colonial policies and gives reasons for the relative decline of French Christian Democracy in the 1960s This French movement has been little understood in Britain and a throrough history has been badly needed This study will be valuable to all those who in the context of a United Europe wish to understand the political forces at work at its conception It will be valuable especially to students of modern history and politics Europe Since 1945 Bernard A. Cook, 2001 Employing 286 scholars this two volume encyclopedia contains entries on post World War II European political history and groups significant events and persons the economy religion education the arts women s issues writers and more The Cold War Spencer C.
