French Voter Decides:

The French Voter Decides Daniel Boy, Nonna Mayer, 1993 Contains the latest research on French electoral behavior

The French Voter M. Lewis-Beck, 2003-12-18 Why do French voters vote the way they do In this book leading international scholars examine this question from many different angles Special attention is given to the 2002 national elections when right wing extremist Le Pen made such a spectacular showing in the presidential contest Was the first ballot success of Le Pen based on issues of law and order ethnicity nationalism or on the economy What about the role of the traditional factors of social class region religion and left right ideology Do the peculiar electoral institutions of the Fifth Republic foster political extremism or act as a break on it The French Voter considers these issues both in relation to the 2002 contest and past elections

How the French Learned to Vote Malcolm Crook, 2021 This is a comprehensive history of voting in France which offers original insights into all aspects of electoral activity that today involve most adults across the world

French Presidential Elections M. Lewis-Beck, R. Nadeau, É. The French party system Jocelyn Evans, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This book provides a complete overview of the of parties in France The

social and ideological profiles of all the major parties are analysed chapter by chapter highlighting their principal functions and dynamics within the system These are complemented by analyses of bloc and system features including the pluralist left Europe and the ideological space in which the parties operate In particular the book addresses the impressive capacity of French parties and their leaders to adapt themselves to the changing concerns of their electorates and to a shifting institutional context

The 2012 French Election Pascal Perrineau, 2016-09-09 This edited volume is based on a highly original survey carried out between November 2011 and June 2012 among a panel of 6 000 voters The panel was interviewed on 12 separate occasions about how and why they made their voting choices The book focuses on how electoral choices are made and how these choices evolve during the short time span of an election campaign The analysis of the 2012 electoral result shows more than ever that voting choices are the fruit of interweaving timelines the long term period that characterizes voters predispositions and their predictions of a possible scenario the shorter period of time during which the campaign unfolds where those predispositions are either confirmed called into question or undone and the moment when the final choice is made This is the first time the electoral decision making process during a French Presidential election has been systematically studied

French Presidentialism and the Election of 1995 Lorna Milne, John Gaffney, 2018-12-21 First published in 1997 this volume examines the presidential elections one of the central events of the democratic process in France and arguably the main organising principle of French politics since 1962 provide an opportunity to assess the development of the regime More significantly they allow us to assess modifications to the office of president and to French Presidentialism which are both reflected in and affected by the electoral campaign and the elections themselves This book provides such an assessment with specific reference to the candidates issues and events of the 1995 Presidential elections

Personality Politics? Marina Costa Lobo, John Curtice, 2014-12-11 Personality Politics assesses the role that voters perceptions and evaluations of leaders play in democratic elections The book presents evidence from an array of countries with diverse historical and institutional contexts and employs innovative methodologies to determine the importance of leaders in democracies worldwide Addressing such questions as Where do leaders effects come from In which institutional contexts are leader effects more important and To which kinds of voters are leaders a more prominent factor for voting behaviour the authors seek to determine whether the roles leaders play enhances or damages the electoral process and what impact this has on the quality of democracy in electoral democracies today

French Politics Today David Scott Bell, 2002 Brings together the varied artistic critical and cultural productions by women scholars critics and artists between 1790 1900 many of whom are little known in the canonical histories of the period Questions the concepts of scholarship criticism and artist across the different disciplines Women discussed include authors Mary Wollstonecraft Shelley Sydney Morgan and Anna Jameson actresses Elizabeth Siddons Dorothy Jordan and Mary Robinson critics Margaret Oliphant and Mary Cowden Clarke historians Agnes Strickland Lucy Aikin Mary Anne Everett Green Elizabeth Cooper and Lucy Toulmin Smith as well as

the writers and readers of Women's magazines educationalists and translators Makes a significant and original contribution to the development of gender studies by extending the frontiers of existing knowledge and research **Irish Voters Decide** Richard Sinnott, 1995 This textbook explores voting behaviour in Irish general elections and referendums since independence in 1922 By interpreting the latest survey opinion poll and statistical data for the non psephologist Richard Sinnott explores how and why Irish voters preferences have changed and asks whether the 1922 general election has heralded a fundamental realignment in the Irish political system **Elections at Home and Abroad** M. Kent Jennings, Thomas E. Mann, 1994 A comprehensive examination of current issues in voting studies **Postwar Politics in the G-7** Byron E. Shafer, 1996 Seven analysts and professors of political science provide an examination of each of the countries comprising the Group of Seven with a focus on the period from the end of WWII to the end of the Cold War Introductory and concluding essays provide some synthesis No bibliography Paper edition unseen 19 95 Annotation copyrighted by Book News Inc Portland OR **France, Social Capital and Political Activism** F. Vassallo, 2010-01-27 This book deals with the theme of political participation in France focusing on conventional and unconventional forms of political activism over the last three decades Measures of social integration and political involvement are used to question the validity of social capital theory **Leaders' Personalities and the Outcomes of Democratic Elections** Anthony King, 2002-03-21 The conventional wisdom purveyed by the press and television and accepted as true by most politicians is that elections throughout the democratic world are personal clashes between individual presidential candidates and party leaders Almost everyone assumes that election outcomes are frequently determined by the major candidates personal characteristics In the United States Al Gore in 2000 came over as aloof and arrogant and failed to win his expected victory In Great Britain Tony Blair in 2001 came across as dynamic and personable and won a second term So personal charisma appears to yield electoral success This study by eminent scholars on both sides of the Atlantic suggests that the conventional wisdom is wrong Survey research conducted in recent decades indicates that relatively few voters are swayed by candidates' personal characteristics Far more important are voters longstanding party loyalties their views on issues and their judgments of how well or badly presidents and parties have performed or will perform in office The votes of even the few electors who are swayed by candidates personalities usually cancel each other out As a result election outcomes are seldom decided by individual candidates personal images Occasionally but not often Ronald Reagan and Bill Clinton owed their election victories more to economics than to charm At the end of World War II the charismatic Winston Churchill lost the 1945 British general election the colorless Clement Attlee won Chancellor Helmut Kohl remained in power in Germany for a generation but was never personally popular Russian voters reckoned that Boris Yeltsin could not hold his drink but nevertheless elected him The implications of the authors analyses are profound They suggest that modern democratic politics is not nearly as candidate centered and personality oriented as is often supposed They also suggest that parties policies and their performance in office usually count for far

more than the men and women they choose as their leaders Not least the authors suggest that the efforts of political consultants advertising agencies and spin doctors are often misdirected

Party Competition and Responsible Party Government James Frolik Adams,2010-07-23 In countries with multiparty political systems we assume if the system is going to work that parties have relatively stable positions on policy that these positions diverge and that voters make choices based on policy preferences Yet much of the research on voter behavior and party competition does not support these assumptions In Party Competition James Adams applies the insights of behavioral research to an examination of the policy strategies that political parties and candidates employ in seeking election He argues that vote seeking parties are motivated to present policies that appeal to voters whose bias toward these policies is based in part on reasons that have nothing to do with policy He demonstrates that this strategic logic has profound implications for party competition and responsible party government Adams s innovative fusion of research methodologies presents solutions to issues of policy stability and voter partisanship His theory s supported by an in depth analysis of empirical applications to party competition in Britain France and the United States in the postwar years Party Competition and Responsible Party Government will appeal to readers interested in the study of political parties voting behavior and elections as well as to scholars specializing in French British and American politics James Adams is Assistant Professor of Political Science University of California Santa Barbara

Voters and Voting Jocelyn A J Evans,2004-01-31 An accessible textbook that provides an overview of the historical origins and development of voting theory this guide explores theories of voting and electoral behaviour at a level suitable for college students Reports of Proceedings ... Boston (Mass.). City Council,1886 The French National Front Harvey G

Simmons,2018-03-05 Over the past few decades extreme right political parties have won increasing support throughout Europe The largest and most sophisticated of these is the French National Front Led by the charismatic Jean Marie Le Pen the Front is now the third most important political force in France after the mainstream right and the socialists This clear and comprehensive book explores the antecedents for the meteoric rise of the National Front Beginning with a political history of the extreme right from 1945 to 1995 Harvey Simmons traces links between Le Pen and French neo fascist and extreme right organizations of the 1950s and 1960s and concludes with analyses of the Front s antisemitism racism organization ideology language electorate and views on women Simmons argues that the Front is not a party like any other but a major threat to French democracy
