Freudian Reading Analytical And Fictional Constructions:

The Freudian Reading Lis Moller, Lis Møller, 2016-11-11 Selected by Choice magazine as an Outstanding Academic Title In *The Freudian Reading* Lis Møller examines the premises, procedures and objectives of psychoanalytic reading in order to question the kind of knowledge such readings produce. But above all she questions the role of Freud as master explicator. Although Freud has been seen as a great synthesizer, Møller contends that his significance as a reader lies elsewhere. For Møller, this significance lies in the way Freud presses his inquiry to the point where he encounters something he cannot explain or that he can only explain at the risk of overthrowing previous conclusions. Such moments of crisis occur repeatedly in Freud's work, causing him to swerve from his original train of thought or even to call into question the theoretical foundation of his interpretation. The dominant line of argument therefore is frequently punctuated with problems and questions. If we concentrate on these, Møller argues, we are forced to reconsider the traditional conception of a Freudian reading and to reassess our perceived notions of just what kind of reader Freud was. While *The Freudian Reading* is based on a wide range of Freud's writings, it concentrates on four central texts: *Delusions and Dreams in Jensen's Gradiva*, *From the History of an Infantile Neurosis*, *The Uncanny* and *Constructions in Analysis*. The discussion does not progress chronologically. Rather, it explores the ways in which these texts interact, how they reflect, comment on and contradict one another. *The Freudian Reading* is a concentrated, subtle analysis of Freud's interpretive practice, with special reference to his interpretations of literary texts. It will be of interest to scholars and students of literary theory and criticism as well as to readers in the field of psychoanalysis.

Radicalizing Lawrence Robert Burden, 2021-12-28 In this study of D. H. Lawrence and critical theory, Robert Burden pays particular attention to the critical formations that underpin the reception history of the main novels, including the much maligned leadership novels, because strong readings have always contested the meaning and significance of Lawrence and because there has been a persistent reluctance to approach his writing through post-structuralist theory. This study demonstrates in some detail that once Lawrence's texts are the objects of the newer critical paradigms, their principles of coherence are understood differently and that older notions of textual unity are displaced by aesthetic structures of degrees of generic and linguistic destabilization. This enables a radicalizing of Lawrence's fiction by drawing out its deconstructive effects on his myth-making and essentialist notions of the self. The sexual identities represented in the fiction are read as experiments or thought adventures, as Lawrence himself characterized his work. The different approaches to Lawrence's writing in this study lead to a radical reassessment of his relationship to Modernism, especially in the light of the more elastic concept of Modernism in recent discussion and one which traditional Lawrence scholars have ignored. What emerges is a more self-deconstructive Lawrence, with some surprising results.

Literature in Psychoanalysis Steven Vine, 2017-09-16 This collection of psychoanalytic readings of literary texts and literary readings of psychoanalytic texts has been carefully designed to work as an effective teaching text for introducing students to the complexities of psychoanalytic

theory in practice The texts selected are widely studied and map the development of the field from Freud up to the most contemporary work

Psychoanalytic Conversations Peter L. Rudnytsky, 2013-06-17 In this stunning addition to what has of late become a distinct genre of psychoanalytic literature Peter Rudnytsky presents 10 substantive and provocative interviews with leading analysts with theorists from allied fields and with influential Freud critics In conversations that Rudnytsky succeeds in making psychoanalytic both in form and in content he guides his interlocutors to unforeseen reflections on the events and forces that shaped their lives and on the personal and intellectual grounds of their beliefs and practices Rudnytsky a ranking academic scholar of psychoanalysis and the humanities approaches his subjects with not only a highly attuned third ear but also a remarkable grasp of theoretical historical and clinical issues When his interviewees turn from autobiographical narratives to matters of theory and clinical practice Rudnytsky is clear about his own intellectual allegiance to the Independent tradition of object relations theory and his admiration for John Bowlby and attachment theory His willingness to set forth his own point of view and occasionally to press a line of questioning infuses his exchanges with an energy even passion heretofore unknown in the analytic interview literature Rudnytsky consistently emerges as a partner even an analytic partner in dialogues that meld discovery with self discovery To be sure *Psychoanalytic Conversations* will find many clinical and scholarly readers among those who relish a good engrossing read But it will have special appeal to students of analysis who share Rudnytsky's belief that if psychoanalysis is to remain vital in the new century it can only be by expanding its horizons and learning from those who have taken it to task

Wild Analysis Shaul Bar-Haim, Elizabeth Sarah Coles, Helen Tyson, 2021-10-12 Winner of the 2022 Gradiva Award for Best Edited Book This book argues that the notion of wild analysis a term coined by Freud to denote the use of would be psychoanalytic notions diagnoses and treatment by an individual who has not undergone psychoanalytic training also provides us with a striking new way of exploring the limits of psychoanalysis *Wild Analysis From the Couch to Cultural and Political Life* proposes to reopen the question of so called wild analysis by exploring psychoanalytic ideas at their limits arguing from a diverse range of perspectives that the thinking produced at these limits where psychoanalysis strays into other disciplines and vice versa as well as moments of impasse in its own theoretical canon points toward new futures for both psychoanalysis and the humanities The book's twelve essays pursue fault lines dissonances and new resonances in established psychoanalytic theory often by moving its insights radically further afield These essays take on sensitive and difficult topics in twentieth century cultural and political life including representations of illness forced migration and the experiences of refugees and questions of racial identity and identification in post war and post apartheid periods as well as contemporary debates surrounding the Enlightenment and its modern invocations the practice of critique and paranoid reading Others explore more acute cases of wilding such as models of education and research informed by the insights of psychoanalysis or instances where psychoanalysis strays into taboo political and cultural territory as in Freud's references to cannibalism This book will be of interest to researchers

practitioners and students working across the fields of psychoanalysis history literature culture and politics and to anyone with an interest in the political import of psychoanalytic thought today

Trauma in Contemporary Literature Marita Nadal, Mónica Calvo, 2014-03-26 Trauma in Contemporary Literature analyzes contemporary narrative texts in English in the light of trauma theory including essays by scholars of different countries who approach trauma from a variety of perspectives The book analyzes and applies the most relevant concepts and themes discussed in trauma theory such as the relationship between individual and collective trauma historical trauma absence vs loss the roles of perpetrator and victim dissociation nachträglichkeit transgenerational trauma the process of acting out and working through introjection and incorporation mourning and melancholia the phantom and the crypt postmemory and multidirectional memory shame and the affects and the power of resilience to overcome trauma Significantly the essays not only focus on the phenomenon of trauma and its diverse manifestations but above all consider the elements that challenge the aporias of trauma the traps of stasis and repetition in order to reach beyond the confines of the traumatic condition and explore the possibilities of survival healing and recovery

Literature in the Ashes of History Cathy Caruth, 2013-12-23 These stories of trauma cannot be limited to the catastrophes they name and the theory of catastrophic history may ultimately be written in a language that already lingers in a time that comes to us from the other side of the disaster

Queering The Terminator David Greven, 2017-06-15 The Terminator film series is an unlikely site of queer affiliation The entire premise revolves around both heterosexual intercourse and the woman's pregnancy and giving birth It is precisely the Terminator's indifference to both that signifies it as an unimaginably inhuman monstrosity Indeed the films overarching contention that humanity must be saved rooted as it is in a particular story about pregnancy and birth that exclusively focuses on the heterosexual couple and the family would appear to put it at odds with the political stances of contemporary queer theory Yet as this book argues there is considerable queer interest in the Terminator mythos The films provide a framework for interpreting shifting gender codes and the emergence of queer sexuality over the period of three decades Significantly the series emerges in the Reagan 80s which marked a decisive break with the sexual fluidity of the 70s As a franchise and on the individual basis of each film The Terminator series combines both radical and reactionary elements Each film reflects the struggles over gender and sexuality specific to its release At the same time the series foregrounds the intersection of technology and gender that has become a definitive aspect of contemporary experience A narrative organized around a conservative view of female sexuality and the family the Terminator myth is nevertheless a richly suggestive narrative for queer theory and gender studies

Freud's Italian Journey Laurence Simmons, 2006 Rather the processes of interpretation begun by Freud are turned on Freud himself thus eventually displacing and questioning his theoretical mastery

Freud Revisited R. Horrocks, 2001-02-13 Freud Revisited sees Freud as one of the last great exponents of Enlightenment rationalism yet he also forms part of modernism which shattered traditional forms in art and he leads forward to certain postmodern ideas The book examines some of Freud

Rethinking the Uncanny in Hoffmann and Tieck Marc Falkenberg, 2005 This stimulating new book challenges Freud's definition of the uncanny prevalent in the study of Gothic and Romantic fiction by reviving the importance of uncertainty in the uncanny Literary criticism views the uncanny as an expression of the return of the repressed Falkenberg's expanded definition includes but is not limited to the psychoanalytic and instead redefines the uncanny as a cognitive and aesthetic phenomenon Beyond offering a survey of what David Punter has called The Theory of the Uncanny this study places the uncanny in the context of the poetological and philosophical background of the Romantic period In close readings of two stories that have stood at the center of the debate about the uncanny E T A Hoffmann's Sandman and Ludwig Tieck's Blond Eckbert the author shows how these texts are constructed as uncanny phenomena in themselves The study traces fairytale elements framing techniques and interdependencies between the fictional productions of the protagonists and their dark fates to expose how these texts confront the reader with paradoxical decoding instructions This expanded and revised uncanny not only yields new readings of two classic German short stories it also leads to a better understanding of the cultural soil that nourished the Romantic Movement *Phallic Panic* Barbara Creed, 2015-08-18 Vampires werewolves cannibals and slashers why do audiences find monsters in movies so terrifying In *Phallic Panic* Barbara Creed ranges widely across film literature and myth throwing new light on this haunted territory Looking at classic horror films such as *Frankenstein* *The Shining* and *Jack the Ripper* Creed provocatively questions the anxieties fears and the subversive thrills behind some of the most celebrated monsters This follow up to her influential book *The Monstrous Feminine* is an important and enjoyable read for scholars and students of film cultural studies psychoanalysis and the visual arts *The Continental Aesthetics Reader* Clive Cazeaux, 2017-10-03 *The Continental Aesthetics Reader* brings together classic and contemporary writings on art and aesthetics from the major figures in continental thought The second edition is clearly divided into seven sections Nineteenth Century German Aesthetics Phenomenology and Hermeneutics Marxism and Critical Theory Excess and Affect Embodiment and Technology Poststructuralism and Postmodernism Aesthetic Ontologies Each section is clearly placed in its historical and philosophical context and each philosopher has an introduction by Clive Cazeaux An updated list of readings for this edition includes selections from Agamben Butler Guattari Nancy Virilio and Iek Suggestions for further reading are given and there is a glossary of over fifty key terms Ideal for introductory courses in aesthetics continental philosophy art and visual studies *The Continental Aesthetics Reader* provides a thorough introduction to some of the most influential writings on art and aesthetics from Kant and Hegel to Badiou and Ranci *The Self and It* Julie Park, 2010 *The Self and It* makes a fresh and bold intervention in histories and theories of the rise of the novel by arguing that the material objects proliferating in eighteenth century England's consumer markets worked in conjunction with the novel as vital tools for fashioning the modern self *Turning Points* Ansgar Nünning, Kai Marcel Sicks, 2012-10-30 At times of crisis and

revolution such as ours diagnoses of crucial junctures and ruptures turning points in the continuous flow of history are more prevalent than ever Analysing literary cinematic and other narratives the volume seeks to understand the meanings conveyed by different concepts of turning points the alternative concepts to which they are opposed when used to explain historical change and those contexts in which they are unmasked as false and over simplifying constructions Literature and film in particular stress the importance of turning points as a sensemaking device as part of a character s or a community s cultural memory while at the same time unfolding the constructive and hence relative character of turning points Offering complex reflections on the notion of turning points literary and filmic narratives are thus of particular interest to the present volume

The Gothic and the Everyday L. Piatti-Farnell, M. Beville, 2014-10-16 The Gothic and the Everyday aims to regenerate interest in the Gothic within the experiential contexts of history folklore and tradition By using the term living this book recalls a collection of experiences that constructs the everyday in its social cultural and imaginary incarnations Joseph Holbrooke Paul Watt, Anne-Marie Forbes, 2014-12-23 This is the first scholarly work to document the musical life of Joseph Holbrooke one of Britain s most prolific and controversial composers during the first half of the twentieth century Holbrooke was outspoken on many issues including the maligned fortunes of British composers which he believed were brought about by apathy and indifference on the part of critics and the public Despite doubts in various quarters over Holbrooke s ability to forge a unique compositional idiom many of his works were performed to critical acclaim in Britain Europe and the United States Today Holbrooke s music is increasingly enjoyed and recorded Joseph Holbrooke Composer Critic and Musical Patriot opens with a biographical overview of Holbrooke that concentrates on his relationship with Granville Bantock and Wales and the role that Lord Howard de Walden played in Holbrooke s work and development Contributors offer studies of a selection of repertory by Holbrooke including his chamber music the operas Pierrot and Pierrette and The Enchanted Garden and his tone poem The Raven The final chapter describes Holbrooke s patriotism by examining his book Contemporary British Composers which was published in 1925 Included is an appendix that provides the first comprehensive and corrected list of Holbrooke s compositions This book will interest not only musicologists musicians and listeners interested in the repertory of the British classical music tradition but also scholars and general readers interested in the ways Celticism poetic inspiration and nationalist ideology were expressed in the work of classical composers in the early twentieth century **Beyond Lacan** James M. Mellard, 2006-10-05 In Beyond Lacan James M Mellard traces psychoanalytic literary theory and practice from Freud to Lacan to Žižek While Freud effectively presupposes an unconscious that is textual it is Lacan whose theory all but articulates a textual unconscious as he offers the epoch a cutting edge psychoanalytic ideology Mellard considers this and then asks Which Lacan Is there one or many Early or late As Žižek counters the notion of a single unitary Lacan Lacanians are asked to choose Through Lacanian readings of various texts from novels like Ellison s Invisible Man and O Connor s Wise Blood to short stories by Glaspell and Fitzgerald Mellard shows that in critical practice Lacanians produce a middle Lacan

between early and late Mellard concludes by examining why Žižek has perhaps transcended Lacan. More than any other, it is Žižek who has constructed early and late Lacan, making possible that middle Lacan of praxis. But in the process, he has also claimed an independent authority. Ultimately, Mellard explains how Žižek offers a post-Lacanian critique, one built on a pervasive philosophy of paradox that opens new avenues of analysis of contested cultural and literary issues such as subjectivity, political economy, multiculturalism, and religious belief.
