Educacion Centrada En Valores:

La educación en valores en la institución escolar José María Alonso A.,2004 Enseñar valores Graham Haydon,2003

Este libro ofrece un plan para hacer frente a las demandas de educación moral en una sociedad liberal multirracial, multicultural y multiconfesional. Nos invita a concentrarnos en la razón del porqué de las cosas, un importante correctivo de la actual preocupación mercantilista, eficientista y utilitarista que desestima la reflexión sobre las dimensiones morales. Graham HAYDON se centra en las cuestiones éticas y políticas que subyacen a las tareas prácticas del profesorado. Analiza las peculiaridades de los valores morales y su diversidad en las sociedades modernas, centrándose en cómo debemos entender la educación en valores y la educación moral. Reconoce que las cuestiones de valor están presentes en casi todas las decisiones docentes y en las políticas educativas, sea de forma explícita o implícita. Si la moralidad tiene que estar presente en el currículum, es inevitablemente como un tema transversal lo que compromete a todo el equipo docente. Ahora bien, esto supone cargar al profesorado con unas responsabilidades para las que tal y como muchos lamentan, no ha recibido una formación específica. El libro escrito en un lenguaje accesible no requiere tener una sólida formación filosófica. Está dirigido al profesorado de Educación Primaria y Secundaria, así como a los futuros docentes para ayudarles a reflexionar sobre temas como los valores, la moralidad, el pluralismo, la tolerancia, la relación entre moralidad y religión y los fines de la educación. Una obra que ayuda a diseñar modos de trabajo en las aulas sobre cimientos firmes. Graham HAYDON es profesor de Filosofía de la Educación en el Instituto de Educación de la Universidad de Londres. Esta obra recibió el Segundo Premio de la Standing Conference on Studies in Education.

La interdisciplinariedad en la Educación Secundaria Obligatoria Marta Castañer, 1998

Contrariamente a lo que se suele pensar, llevar a cabo proyectos de interdisciplina curricular no implica mayor carga de trabajo docente, sino mayor riqueza, variedad y aceptación de actividades y una mayor equitatividad en la repartición de tareas, incluso tensiones que se suelen asumir en solitario entre los profesionales implicados. La primera parte de la presente obra pretende evidenciar que es creciente el interés por desarrollar proyectos interdisciplinares. Es una voz activa que nos recuerda la necesidad de no olvidar la interdisciplinariedad en una educación que se precie de ser integradora. La segunda parte nos adentra en los aspectos palpables y cotidianos de las diversas facetas que intervienen en el diseño e implementación de los proyectos de interdisciplina en el seno del equipo docente. La tercera parte del texto aporta tres unidades implementadas en distintos centros escolares. Son unidades que ofrecen una variada gama de ideas en su diseño que enlazan diversas áreas curriculares. Así sumando la aportación de estas unidades didácticas con las pequeñas experiencias que a modo de sugerencias variadas hemos expuesto en el cuarto capítulo, crean a nuestro entender un buen entramado de ejemplificaciones correspondiente al cuerpo práctico del presente texto.
