## Education As Mibion:

**Bureaucracy's Masters and Minions** Eleanor L. Schiff, 2020-07-23 In *Bureaucracy's Masters and Minions: The Politics of Controlling the U S Bureaucracy* the author argues that political control of the bureaucracy from the president and the Congress is largely contingent on an agency's internal characteristics of workforce composition, workforce responsibilities and workforce organization. Through a revised principal agent framework the author explores an agent principal model to use the agent as the starting point of analysis. The author tests the agent principal model across 14 years and 132 bureaus and finds that both the president and the House of Representatives exert influence over the bureaucracy but agency characteristics such as the degree of politization among the workforce, the type of work the agency is engaged in and the hierarchical nature of the agency affects how agencies are controlled by their political masters. In a detailed case study of one agency, the U S Department of Education, the author finds that education policy over a 65 year period is elite led and that that hierarchical nature of the department conditions political principals' influence. This book works to overcome three hurdles that have plagued bureaucratic studies: the difficulty of uniform sampling across the bureaucracy, the overuse of case studies and the overreliance on the principal agent theoretical approach.

Emperor of Education has no Clothes, The John Cosgrove, 2011-06-01 Dr Cosgrove's book is one that you will want to share with others. This is an enjoyable, funny, satirical novel with a serious social commentary. Many of the characters and situations are instantly recognisable from my forty years of educational experience, but it carries a message wider than the context of education. Beneath the antics of the seemingly mad Dr Erfert is the question it raises about the awareness of mental health issues within schools and other areas of society.

PF Lupton BA Dip RE Retired teacher

**Description** This book is meant to be a satirical novel based on the author's forty years of experience in teacher training and inspection. Its fundamental principle is that much of what goes on in education is so bizarre as to be like the old story of the emperor's new clothes. There is an elaborate game played by two sets of players. Some genuinely believe in the absurdities and some see through them, but it is not in their interest to break rank. So long as everyone plays by the rules of this silly game, the emperor has clothes. But when one young Yorkshireman of sturdy common sense tries to make people believe that much of what goes on is nonsense, he comes up against both sets of protagonists. The novel is partly a story of how he is defeated by the system and ultimately has to accept and embrace it. Many of the things John Cosgrove recounts in this novel have actually happened, but they are wrapped around the bizarre antics of a mad principal. The serious question on which the reader must decide for him or herself is whether Dr Erfert is mad or whether the madness lies in the society that tolerates and promotes him and other so-called educational experts. This is an interesting and thought-provoking novel which raises questions for the whole of society.
