**Picturing German Antiquity in the Age of Print** Rachel Carlisle,2025-10-01 Picturing German Antiquity in the Age of Print Art Archaeology and the Style All antica in Early Modern Augsburg examines the central role of print to local antiquarian pursuits and generation of a style all antica in early sixteenth century Augsburg Germany Working in the shadow of Holy Roman Emperor Maximilian I Augsburg's leading patrons including humanist Konrad Peutinger and the mercantile Fugger family documented local antiquities and commissioned new works of classicizing art and architecture visually asserting a genuine unbroken lineage to the city's past This study challenges earlier narratives by arguing that Augsburg's artists and printers did not directly copy Italian Renaissance models but instead manipulated the imported visual vocabulary according to local concerns The book brings together scholarly discourses on transalpine exchange scientific advancements in printmaking and reception of antiquity north of the Alps to offer a new understanding of art in early modern Augsburg and northern Europe at large

*Syntax - Theory and Analysis. Volume 3* Tibor Kiss,Artemis Alexiadou,2015-03-10 This Handbook represents the development of research and the current level of knowledge in the fields of syntactic theory and syntax analysis Syntax can look back to a long tradition Especially in the last 50 years however the interaction between syntactic theory and syntactic analysis has led to a rapid increase in analyses and theoretical suggestions This second edition of the Handbook on Syntax adopts a unifying perspective and therefore does not place the division of syntactic theory into several schools to the fore but the increase in knowledge resulting from the fruitful argumentations between syntactic analysis and syntactic theory It uses selected

phenomena of individual languages and their cross linguistic realizations to explain what syntactic analyses can do and at the same time to show in what respects syntactic theories differ from each other It investigates how syntax is related to neighbouring disciplines and investigate the role of the interfaces especially the relationship between syntax and phonology morphology compositional semantics pragmatics and the lexicon The phenomena chosen bring together renowned experts in syntax and represent the consensus reached as to what has to be considered as an important as well as illustrative syntactic phenomenon The phenomena discussed do not only serve to show syntactic analyses but also to compare theoretical approaches with each other

**The Lies of Sarah Palin** Geoffrey Dunn, 2025-09-23 In *The Lies of Sarah Palin* Geoffrey Dunn provides the first full scale and in depth political biography of the controversial Republican vice presidential candidate and former governor of Alaska Based on more than two hundred interviews many of them with Republican colleagues and one time political allies of Palin s and more than forty thousand pages of uncovered documents Dunn chronicles Palin s troubling penchant for duplicity in grim detail from her dysfunctional childhood in Wasilla through her contentious run for mayor and her failed governorship of Alaska He also provides the shocking inside story of her betrayal of running mate John McCain during the 2008 presidential campaign and her self serving resignation as governor in July of the following year Dunn deftly places Palin in the American tradition of right wing demagogues from Huey Long to Joe McCarthy and details her troubling obsession with Barack Obama as it fuels her own political ambitions and a potential run for the presidency in 2012 *The Lies of Sarah Palin* is a journalistic tour de force that vividly reveals the Queen of the Tea Party movement as a vengeful and manipulative empress without clothes This is the definitive book on Sarah Palin

**How German is She?** Erica Carter, 1997 The 1950s have passed into the history books as the period of the Federal Republic of Germany s so called economic miracle yet attention to women s roles in economic reconstruction has until now been negligible In this book Erica Carter explores how the development of a social market economy after 1949 gave a new centrality to consumers as key players in the economic life of the nation and in that process gave women a new public significance Public attention focused in particular on the nation s housewives who were to train the populace for entry into a new world of consumer prosperity Carter investigates this focus from two perspectives in part 1 she tackles the political economy of postwar West German consumption and in part 2 she looks at representations of the consuming woman across a range of popular cultural forms Since visual imagery is discussed at length the book is lavishly illustrated with advertisements fashion photographs film stills and documentary photography from the period *How German Is She* also makes a distinctive contribution to questions of national identity While many historians agree that nationalism was a spent force after 1945 Carter argues that concepts of nationhood survived in the rhetorics of public policy and in popular culture of the period In this context national and efficient consumption became a housewife s duty not just to husband and family but to the postwar nation The book will be of primary interest to scholars and students in German studies women s studies and cultural studies Erica Carter is Research Fellow in

**United States Patent Office** United States. Patent Office,1970-11 **The Post-Heroic Presidency** Michael A. Genovese,Todd L. Belt,2016-06-13 This book examines how presidents from Nixon to Obama have faced the challenges of global leadership in a dramatically changing world one with more limited resources and an increasing number of threatening challengers The immediate post World War II era was undeniably a period of American power and influence Even during the Cold War the United States was the leader of the West exerting wide ranging power internationally But beginning with the Vietnam War America began experiencing a series of setbacks and challenges to its power The Post Heroic Presidency Leveraged Leadership in an Age of Limits examines how U S presidents have attempted to reverse or contend with this new era of limited power in which presidential leadership is hamstrung due to an increasingly globalized and interdependent world one where power is more diffuse and the system of checks and balances bind a president in an age of hyper partisanship The book examines presidents of the 20th and 21st centuries explaining how the first U S president to confront this new age was Richard Nixon who along with Henry Kissinger developed a sophisticated approach to deal with the recalibration of American power It documents how other recent presidents have either tried to make peace with limited power Jimmy Carter reverse the decline Ronald Reagan ignore the implications of limits George W Bush or find ways to lead that were less ambitious more prudent and less unilateral George H W Bush Bill Clinton and Barack Obama In the cases of Clinton and Obama this shift to using soft power persuasion and multilateralism earned them criticism that they are weak thereby undermining their efforts to lead both at home and abroad *Readings in Caribbean History and Culture* D.A. Dunkley,2011-12-08 This collection of eleven essays is designed to highlight some important new voices who have been doing research on the general subject areas of the history and culture of the Caribbean The essays in this volume also address a number of themes which are critical to developing an understanding of current scholarly work on the two broad subject areas Among the themes examined are colonialism slavery and the involvement of the Christian Church in both colonial rule and enslavement The essays also analyze the pre independence and post independence periods of the twentieth century with examinations on topics that include prostitution departmentalization education visual art and the musical form known as Reggae The purpose of this book is to stimulate discussion around these important topics based on the perspectives of a

number of new scholars The book is also designed as a teaching device principally for courses focusing on Caribbean society whether in the past or the present      *School Reform, Corporate Style* Dorothy Shipps, 2006 Like other big city school systems Chicago's has been repeatedly reformed over the last century Yet its schools have fallen far short of citizens expectations and left a gap between the performances of white and minority students Many blame the educational establishment for resisting change Other critics argue that reform occurs too often still others claim it comes not often enough Dorothy Shipps reappraises the tumultuous history of educational progress in Chicago revealing that the persistent lack of improvement is due not to the extent but rather the type of reform Throughout the twentieth century managerial reorganizations initiated by the business community repeatedly altered the governance structure of schools as well as the relationships of teachers to children and parents but brought little improvement while other more promising reform models were either resisted or crowded out Shipps chronicles how Chicago's corporate actors led abetted or restrained nearly every attempt to transform the city's school system then asks whether schools might be better reformed by others To show why city schools have failed urban children so badly she traces Chicago's reform history over four political eras revealing how corporate power was instrumental in designing and revamping the system Her narrative encompasses the formative era of 1880-1930 when teachers unions moderated business plans previously unexplored business activism from 1930 to 1980 when civil rights dominated school reform and the decentralization of the 1980s She also covers the uneasy cooperation among business associations in the 1990s to install the mayor as head of the school system a governing regime now challenged by privatization advocates Business people may be too wedded to a stunted view of educators to forge a productive partnership for change Unionized teachers bridle at the second class status accorded them by managers If reform is to reach deeply into classrooms Shipps concludes it might well require a new coalition of teachers unions and parents to create a fresh agenda that supersedes corporate interests This study clearly shows that in Chicago as elsewhere urban schooling is intertwined with politics and power By reviewing more than a century of corporate efforts to make education work Shipps makes a strong case that it's high time to look elsewhere perhaps to educators themselves for new leadership
