Merrill,1968 *The Function of Newspapers in Society* Shannon E. Martin,David A. Copeland,2003-06-30 The demise of the newspaper has long been predicted Yet newspapers continue to survive globally despite competition from radio television and now the Internet because they serve core social functions in successful cultures Initial chapters of this book provide an overview of the development of modern newspapers Subsequent chapters examine particular societies and geographic regions to see what common traits exist among the uses and forms of newspapers and those artifacts that carry the name newspaper but do not meet the commonly accepted definition The conclusion suggests that newspapers are of such core value to a successful society that a timely and easily accessible news product will succeed despite or perhaps because of changes in reading habits and technology , **Journalism 1908** Betty Houchin Winfield,2008-09-03 The year 1908 was not remarkable by most accounts but it was an auspicious year for journalism As newspapers sought to recover from big city yellow journalism and circulation wars that reached their boiling point a few years earlier during the Spanish American War press clubs began to champion higher education And schools dedicated to journalism education led by the University of Missouri began to emerge Now sanctioned by universities journalism could teach acceptable behavior and establish credentials It was nothing less than the birth of a profession Journalism 1908 opens a window on mass communication a century ago It tells how the news media in the United States were fundamentally changed by the creation of academic departments and schools of journalism by the founding of the National Press Club and by exciting advances that included early newsreels the introduction of halftones to

print and even changes in newspaper design Journalism educator Betty Houchin Winfield has gathered a team of well known media scholars all specialists in particular areas of journalism history to examine the status of their profession in 1908 news organizations business practices media law advertising forms of coverage from sports to arts and more Various facets of journalism are explored and situated within the country's history and the movement toward reform and professionalism not only formalized standards and ethics but also labor issues concerning pay hours and job differentiation that came with the emergence of new technologies This overview of a watershed year is national in scope examining early journalism education programs not only at Missouri but also at such schools as Colgate Washington and Lee Wisconsin and Columbia It also reviews the status of women in the profession and looks beyond big city papers to Progressive Era magazines the immigrant press and African American publications Journalism 1908 commemorates a century of progress in the media and given the place of Missouri's School of Journalism in that history is an appropriate celebration of that school's centennial It is a lode of information about journalism education history that will surprise even many of those in the field and marks a seminal year with lasting significance for the profession

The World's Great Dailies John Calhoun Merrill, Harold A. Fisher, 1980 This completely revised and extended updating of John Merrill's *The Elite Press* published over a decade ago provides a provocative and thoroughly researched look into the characteristics of great or quality journalism in an international context The introductory chapters define newspaper greatness by describing those journals that are serious intellectually oriented cosmopolitan courageous impartial interpretive reliable responsible and socially concerned Here the authors place newspapers in their political environments depicting the differences between authoritative and liberatarian press systems

Media Decentralization Dan Caspi offers a comprehensive introduction to the Israeli mass media and a fresh theoretical look at the role and function of a free press in a democratic society Two major issues underlie this study patterned after the pioneering work of Morris Janowitz on the community press in the United States relations between social and communications systems and reciprocal relations among various mass media Caspi's primary concern is to determine whether the recent flourishing of a local press in the form of weekly tabloids sold or distributed free throughout their respective cities reflects and in turn contributes to a process of social and political decentralization The Israeli audience thirsts for information The nationwide mass media developed in the shadow of a centralist political system is rigid and inflexible downplaying the news value of local events and attending only to Israel's acutely felt security and economic problems Hence there is a burgeoning of over a hundred local newspapers to fill the need for a more intimate press Contents Media Decentralization in a Centralized System Some General Trends and a Communication Model The Daily Press in Israel The Development of the Local Press Institutional Characteristics Personnel Characteristics Functional Characteristics The Struggle between the Local and Nationwide Press The Inception of the Local Press in Four Major Cities Jerusalem Tel Aviv Haifa and Beersheba Public Support Political Approaches

 Communication and the masses have a strategic role in responding various problems that exist In fact communication and mass can be a form of early education that directly targets the wider community effectively and efficiently The main discussion in this research is related to the important role of mass communication in the midst of pandemic as a form of prevention and early education to the public The results of this study are first that communication and the masses have a central role in responding to pandemic Second that the problems caused by the pandemic which has become a global problem have the potential to trigger a new social order or reconstruction thus it is necessary to have close communication between stakeholders and the community in responding to this problem Benjamin Collins and the Provincial Newspaper Trade in the Eighteenth Century Christine Y. Ferdinand,1997 This is a pioneering study of the English provincial newspaper and book trades in the eighteenth century Christine Ferdinand uses the first thoroughgoing study of the Salisbury Journal and its competitors to reveal how country newspapers worked within and influenced the developing information systems of a

region The detailed revelations of a community's social economic literary and cultural interests extend well beyond Salisbury to the surrounding counties and to London A hitherto hidden commercial infrastructure shows the interdependent relationship between the writers and makers of newspapers the principal members of the London book trade and the new market for the printed word Behind these news networks was the entrepreneurial spirit of Benjamin Collins a figure of national importance who set up Salisbury's first bank established newspapers in London and the provinces wrote children's books with John Newbery and whose publishing interests brought him into contact with the literary and commercial life of London This fascinating study of the information networks of eighteenth century provincial life will be of interest to literary students and biographers as well as historians New Public Spheres Peter Thijssen, Walter Weyns, Sara Mels, 2016-04-29

The public sphere provides a domain of social life in which public opinion is expressed by means of rational discourse and debate Habermas linked its historical development to the coffee houses and journals in England Parisian salons and German reading clubs He described it as a bourgeois public sphere where private people come together and where they turn from a politically disempowered bourgeoisie into an effective political agent the public intellectual With communication networks being diversified and expanded over time the worldwide web has put pressure on traditional public spheres These new informal and horizontal networks shaped by the internet create new contexts in which an anonymous and dispersed public may gather in political e communities to reflect critically on societal issues These de centered modes of communication and influence seeking change the role of the traditional public intellectual and at first sight seem to make their contributions less influential What processes therefore influence changes within public spheres and how can intellectuals assert authority within them Should we speak of different types of intellectuals according to the different modes of public intellectual engagement This ground breaking volume gives a multi disciplinary account of the way in which public intellectuals have constructed their role and position in the public sphere in the past and how they try to voice public concerns and achieve authority again within those fragmented public spheres today
