Long, 2016-09-05 This book which presents the whole splendid history of English literature from Anglo Saxon times to the close of the Victorian Era has three specific aims The first is to create or to encourage in every student the desire to read the best books and to know literature itself rather than what has been written about literature The second is to interpret literature both personally and historically that is to show how a great book generally reflects not only the author s life and thought but also the spirit of the age and the ideals of the nation s history The third aim is to show by a study of each successive period how our literature has steadily developed from its first simple songs and stories to its present complexity in prose and poetry To carry out these aims we have introduced the following features 1 A brief accurate summary of historical events and social conditions in each period and a consideration of the ideals which stirred the whole nation as in the days of Elizabeth before they found expression in literature 2 A study of the various literary epochs in turn showing what each gained from the epoch preceding and how each aided in the development of a national literature 3 A readable biography of every important writer showing how he lived and worked how he met success or failure how he influenced his age and how his age influenced him 4 A study and analysis of every author s best works and of many of the books required for college entrance examinations 5 Selections enough especially from earlier writers and from writers not likely to be found in the home or school library to indicate the spirit of each author s work and directions as to the best works to read and where such works may be found in inexpensive editions 6 A frank untechnical discussion of each great writer s work as a whole and a critical estimate of his relative place and influence in our literature Great Englishmen of the Sixteenth Century Sir Sidney Lee, 1904 *A New Companion to English Renaissance Literature and Culture* Michael Hattaway, 2010-02-12 In this revised and greatly expanded edition of the Companion 80 scholars come together to offer an original and far reaching assessment of English Renaissance literature and culture A new edition of the best selling Companion to English Renaissance Literature revised and updated with 22 new essays and 19 new illustrations Contributions from some 80 scholars including Judith H Anderson Patrick Collinson Alison Findlay Germaine Greer Malcolm Jones Arthur Kinney James Knowles Arthur Marotti Robert Miola and Greg Walker Unrivalled in scope and its exploration of unfamiliar literary and cultural territories the Companion offers new readings of both literary and non literary texts Features essays discussing material culture sectarian writing the history of the body
