**The Culture of Piracy, 1580-1630** Claire Jowitt,2016-12-05

Listening to what she terms unruly pirate voices in early modern English literature in this study Claire Jowitt offers an original and compelling analysis of the cultural meanings of piracy By examining the often marginal figure of the pirate and also the sometimes hard to distinguish privateer Jowitt shows how flexibly these figures served to comment on English nationalism international relations and contemporary politics She considers the ways in which piracy can sometimes in surprising and resourceful ways overlap and connect with rather than simply challenge some of the foundations underpinning Renaissance orthodoxies absolutism patriarchy hierarchy of birth and the superiority of Europeans and the Christian religion over other peoples and belief systems Jowitt s discussion ranges over a variety of generic forms including public drama broadsheets and ballads prose romance travel writing and poetry from the fifty year period stretching across the reigns of three English monarchs Elizabeth Tudor and James and Charles Stuart Among the early modern writers whose works are analyzed are Heywood Hakluyt Shakespeare Sidney and Wroth and among the multifaceted historical figures discussed are Francis Drake John Ward Henry Mainwaring Purser and Clinton What she calls the semantics of piracy introduces a rich symbolic vein in which these figures operating across different cultural registers and appealing to audiences in multiple ways represent and reflect many changing discourses political and artistic in early modern England The first book length study to look at the cultural impact of Renaissance piracy The Culture of Piracy 1580 1630 underlines how the figure of the Renaissance pirate was not only sensational but also culturally significant Despite its transgressive nature piracy also comes to be seen as one of the key mechanisms which served to connect peoples and regions during this period

## **Conflicting Claims to East India Company**

**Wealth, 1600-1650** Julia Schleck,2025-10-01 Centered on moral critiques of wealth and the unequal distribution of risks and rewards in the lengthy voyages required by the East Indies trade this book examines the debates surrounding England s earliest global trading ventures Arguments over the staggering loss of lives and national resources and struggles over control of the new trade in luxuries reveal the forging of rationales justifying the new capitalist inequalities Yet Company servants traveling abroad to conduct the risky trade resisted this newly coalescing social formation through strategic disobedience to their masters will controlling information and promoting ignorance when it served their financial and sexual purposes Conflicting Claims to East India Company Wealth 1600 1650 interrogates the forces that shaped England s earliest forays into capitalist imperialism by tracing the battles over corporate control of men s finances marriages and bare survival at the

dawn of its global trade      *Shakespeare and Hospitality* Julia Reinhard Lupton, David Goldstein, 2016-04-20 This volume focuses on hospitality as a theoretically and historically crucial phenomenon in Shakespeare's work with ramifications for contemporary thought and practice Drawing a multifaceted picture of Shakespeare's scenes of hospitality with their numerous scenes of greeting feeding entertaining and sheltering the collection demonstrates how hospitality provides a compelling frame for the core ethical political theological and ecological questions of Shakespeare's time and our own By reading Shakespeare's plays in conjunction with contemporary theory as well as early modern texts and objects including almanacs recipe books husbandry manuals and religious tracts this book reimagines Shakespeare's playworld as one charged with the risks of hosting rape and seduction war and betrayal enchantment and disenchantment and the limits of generosity how much can or should one give the guest with what attitude or comportment and under what circumstances This substantial volume maps the terrain of Shakespearean hospitality in its rich complexity demonstrating the importance of historical rhetorical and phenomenological approaches to this diverse subject      **Travel Narratives, the New Science, and Literary Discourse, 1569-1750** Judy A. Hayden, 2016-03-03 The focus of this volume is the intersection and the cross fertilization between the travel narrative literary discourse and the New Philosophy in the early modern to early eighteenth century historical periods Contributors examine how in an historical era which realized an emphasis on nation and during a time when exploration was laying the foundation for empire science and the literary discourse of the travel narrative become intrinsically linked Together the essays in this collection point out the way in which travel narratives reflect the anxiety from changes brought about through the discoveries of the new knowledge and the way this knowledge in turn provided a new and more complex understanding of the expanding world in which the writers lived The worlds in this text are many for no world is monomial from the antipodes to the New World from the heavens to the seas and from fictional worlds to the world which contains and or constructs one's nation and empire All of these essays demonstrate the manner in which the New Philosophy dramatically changed literary discourse      **The Jacobean Grand Tour** Edward Chaney, Timothy Wilks, 2013-12-13 Although the eighteenth century is traditionally seen as the age of the Grand Tour it was in fact the continental travel of Jacobean noblemen which really constituted the beginning of the Tour as an institutionalized phenomenon James I's peace treaty with Spain in 1604 rendered travel to Catholic Europe both safer and more respectable than it had been under the Tudors and opened up the continent to a new generation of aristocratic explorers enquirers and adventurers This book examines the political and cultural significance of the encounters that resulted focusing in particular on two of England's greatest and newly united families the Cecils and the Howards It also considers the ways in which Protestants and Catholics experienced the aesthetic and intellectual stimulus of European travel and how the cultural experiences of the travellers formed the essential ingredients in what became the Grand Tour      **Anti-Semitic Stereotypes Without Jews** Bernard Glassman, 2017-12-01 Anti Semitic sentiments are seen here as reflecting deep seated irrational responses to the Jewish

people rooted in the teachings of the church and exploited by men who needed an outlet for religious social and economic frustrations     **Elizabethans Errant ; the Strange Fortunes of Sir Thomas Sherley and His Three Sons, as Well in the Dutch Wars as in Muscovy, Morocco, Persia, Spain, and the Indies, by D.W. Davies** David William Davies,

**Travel and Drama in Early Modern England** Claire Jowitt, David McInnis, 2018-10-11 This agenda setting volume on travel and drama in early modern England provides new insights into Renaissance stage practice performance history and theatre's transnational exchanges It advances our understanding of theatre history drama's generic conventions and what constitutes plays about travel at a time when the professional theatre was rapidly developing and England was attempting to announce its presence within a global economy Recent critical studies have shown that the reach of early modern travel was global in scope and its cultural consequences more important than narratives that are dominated by the Atlantic world suggest This collection of essays by world leading scholars redefines the field by expanding the canon of recognized plays concerned with travel Re-assessing the parameters of the genre the chapters offer fresh perspectives on how these plays communicated with their audiences and readers     **Early Modern Tales of Orient** Kenneth Parker, 2013-10-28 Early

Modern Tales of Orient is the first volume to collect together these travellers tales and make them available to today's students and scholars By introducing a fascinating array of accounts of exploration diplomatic and commercial ventures Kenneth Parker challenges widely held assumptions about Early Modern encounters in the Orient The documents assembled in Early Modern Tales of Orient have extraordinary resonance for us today Many of the discourses which in part emerged from those early encounters such as Islamophobia English Nationalism and the Catholic Protestant divide are still active in contemporary society This volume sheds a unique light on the development of a very English interest in the exotic     **Persia**

**in Early Modern English Drama, 1530-1699** Chloë Houston, 2023-05-01 This book is a study of the representation of the Persian empire in English drama across the early modern period from the 1530s to the 1690s The wide focus of this book encompassing thirteen dramatic entertainments both canonical and little known allow it to trace the changes and developments in the dramatic use of Persia and its people across one and a half centuries It explores what Persia signified to English playwrights and audiences in this period the ideas and associations conjured up by mention of Persia and where information about Persia came from It also considers how ideas about Persia changed with the development of global travel and trade as English people came into people with Persians for the first time In addressing these issues this book provides an examination not only of the representation of Persia in dramatic material but of the broader relationship between travel politics and the theatre in early modern England     Early Modern England and Islamic Worlds L. McJannet, Bernadette

Andrea, 2011-08-29 The essays in this book analyze a range of genres and considers geographical areas beyond the Ottoman Empire to deepen our post Saidian understanding of the complexity of real and imagined traffic between England and the Islamic worlds it encountered and constructed     The Society of Jesus in Ireland, Scotland, and England, 1598-1606 Thomas

M. McCoog, S.J., 2017-05-15 In 1598 Jesuit missions in Ireland Scotland and England were either suspended undermanned or under attack With the Elizabethan government's collusion secular clerics hostile to Robert Persons and his tactics campaigned in Rome for the Society's removal from the administration of continental English seminaries and from the mission itself Continental Jesuits alarmed by the English mission's idiosyncratic status within the Society sought to restrict the mission's privileges and curb its independence Meanwhile the succession of Queen Elizabeth I the subject that dared not speak its name had become a more pressing concern One candidate King James VI of Scotland courted Catholic support with promises of conversion His peaceful accession in 1603 raised expectations but as the royal promises went unfulfilled anger replaced hope *Early Modern Encounters with the Islamic East* Sabine Schülting, Sabine Lucia Müller, Ralf Hertel, 2016-04-29 An exploration of early modern encounters between Christian Europe and the Islamic East from the perspective of performance studies and performativity theories this collection focuses on the ways in which these cultural contacts were acted out on the real and metaphorical stages of theatre literature music diplomacy and travel The volume responds to the theatricalization of early modern politics to contemporary anxieties about the tension between religious performance and belief to the circulation of material objects in intercultural relations and the eminent role of theatre and drama for the re imagination and negotiation of cultural difference Contributors examine early modern encounters with and in the East using an innovative combination of literary and cultural theories They stress the contingent nature of these contacts and demonstrate that they can be read as moments of potentiality in which the future of political and economic relations as well as the players cultural religious and gender identities are at stake *The Rhetoric of Credit* Ceri Sullivan, 2002 Recent influential work on Jacobean city comedies by Jean Christophe Agnew and Douglas Bruster in particular is confined to the well worn topics of urban alienation and the avaricious merchant drawing on 1550s sermons and tracts against usury In this model where social credit is deemed to circulate without limit the city comedy's specific reference to contemporary ideas of trade cash and credit is lost The plays are reduced to moral satires against greed humoral comedies of the hollow self or self referencing literary artifacts which create and interact with a coterie audience Aging rants against avarice might account for earlier interludes which mock usurers and misers but not for the slick formal pleasures of the city comedy bringing together gull courtesan prodigal gallant virgin daughter and jealous citizen father or husband BOOK JACKET *Dramatic Geography* Laurence Publicover, 2017 Focusing on early modern plays which stage encounters between peoples of different cultures the volume explores the ways in which early modern plays stage dramatic geography and how this has shaped literary and theatrical heritage **A Biographical Encyclopedia of Early Modern Englishwomen** Carole Levin, Anna Riehl Bertolet, Jo Eldridge Carney, 2016-11-03 From the exemplary to the notorious to the obscure this comprehensive and innovative encyclopedia showcases the worthy women of early modern England Poets princesses or pirates the women of power and agency found in these pages are indeed worth knowing and this volume will introduce many

female figures to even the most established scholars in early modern studies Rather than using the conventional alphabetical format of the standard biographical encyclopedia this volume is divided into categories of women Since many women will fit in more than one category each woman is placed in the category that best exemplifies her life and is cross referenced in other appropriate sections This structure makes the book an interesting read for seasoned scholars of early modern women while students need not already be familiar with these subjects in order to benefit from the text Another unusual feature of this reference work is that each entry begins with some incident from the woman's life that is particularly exciting or significant Some entries are very brief while others are extensive Each includes a source listing The book is well illustrated and liberally sprinkled with quotations of the time either by or about the women in the text

**The Turn of the Soul** Lieke Stelling, Harald Hendrix, Todd Richardson, 2012-01-05 Focusing on conversion as one of early modern Europe's most pressing issues the present book offers a comprehensive reading of artistic and literary ways in which spiritual transformations and exchanges of religious identities were given meaning

*A Companion to Islamic Art and Architecture* Finbarr Barry Flood, Gulru Necipoglu, 2017-06-16 The two volume Companion to Islamic Art and Architecture bridges the gap between monograph and survey text by providing a new level of access and interpretation to Islamic art The more than 50 newly commissioned essays revisit canonical topics and include original approaches and scholarship on neglected aspects of the field This two volume Companion showcases more than 50 specially commissioned essays and an introduction that survey Islamic art and architecture in all its traditional grandeur Essays are organized according to a new chronological geographical paradigm that remaps the unprecedented expansion of the field and reflects the nuances of major artistic and political developments during the 1400 year span The Companion represents recent developments in the field and encourages future horizons by commissioning innovative essays that provide fresh perspectives on canonical subjects such as early Islamic art sacred spaces palaces urbanism ornament arts of the book and the portable arts while introducing others that have been previously neglected including unexplored geographies and periods transregional connectivities talismans and magic consumption and networks of portability museums and collecting and contemporary art worlds the essays entail strong comparative and historiographic dimensions The volumes are accompanied by a map and each subsection is preceded by a brief outline of the main cultural and historical developments during the period in question The volumes include periods and regions typically excluded from survey books including modern and contemporary art architecture China Indonesia Sub Saharan Africa Sicily the New World Americas
