Toward a New World Dominique de Villepin, 2004 His speeches caused an uproar and now seem eerily prescient The stakes transcend the case of Iraq alone Let us look at things lucidly We are defining a method to resolve crises We are choosing to define the world we want our children to live in The use of force can arouse rancor and hatred fuel a clash of identities of cultures something that our generation has precisely a prime responsibility to avoid When France's Dominique

de Villepin spoke out in the United Nations in early 2003 against the impending war in Iraq warning that the US plan for unilateral attack would only lead to devastating and long lasting chaos his passionate reasoning and beautifully crafted speeches caused an uproar and won him a large and admiring American audience But the rest of the world has long been familiar with the speeches of the scholar poet and statesman who has become such a dominant figure in European politics Villepin s addresses to the European Union for example are some of the most stirring and edifying descriptions yet of that emerging and in the US little examined economic superpower He has likewise become renowned for his talks about terrorism proliferation the conflict between Israel and Palestine and the role of the UN TOWARD A NEW WORLD collects his most important speeches interviews and essays on those topics But it is more than a primary documentation of critical recent history Also included are commentaries from some of the world s leading intellectuals making the book an exciting call to consider as does Villepin himself that the tumultuous changes sweeping the globe may yet be cause for hope *Rimbaud vivant* ,2003
