Chaballe,1984 Hardbound This dictionary covers the following areas sugar beet and sugar cane growing agricultural machines diseases weeds and pests beet and sugar cane manufacture processes and machines types of sugar economic terms international sugar organizations EEC terminology of sugar regulations Elsevier's Sugar Dictionary therefore facilitates communication between all those involved directly or indirectly in the manufacture or marketing of cane and beet sugar growers manufacturers of insecticides and agricultural equipment sugar technologists sugar plant designers and manufacturers sugar brokers sugar research institutes translators and interpreters **Elsevier's Dictionary of Vitamins and Pharmacochemistry** Henry

Philippsborn,2006-12-04 The dictionary will contain terms covering the following fields and subfields Vitamin Technology Vitamin biochemistry Physiology Origin of vitamins natural synthetic Fat soluble vitamins Water soluble vitamins Vitamins as antioxidants Vitamin deficiencies Hypervitaminosis Enzymes Proteins Biotechnology as applied biological science aimed at industrial exploitation Hormones Biochemistry Physiology Pharmaceutical Chemistry Pharmaceutical Technology Pharmaceutical Processes Conception of the active principles Structural analysis Antibiotics and their way of action Biochemistry The Drug The Medicament Definition origin way of action Biochemistry Medical Aspects in the languages English German French and Portuguese An important resource for pharmacologists pharmaceutists and medical doctors Includes definitions in several prominent languages English German French Portuguese Covers subfields of Vitamin Technology Enzymes Proteins Hormones Pharmaceutical Chemistry Pharmaceutical Technology Pharmaceutical Processes and more **Elsevier's Sugar Dictionary** L.Y. Chaballe,1997-01-31 CD ROM version This dictionary covers the following

areas sugar beet and sugar cane growing agricultural machines diseases weeds and pests beet and sugar cane manufacture processes and machines types of sugar economic terms international sugar organizations EEC terminology of sugar regulations Elsevier's Sugar Dictionary therefore facilitates communication between all those involved directly or indirectly in the manufacture or marketing of cane and beet sugar growers manufacturers of insecticides and agricultural equipment sugar technologists sugar plant designers and manufacturers sugar brokers sugar research institutes translators and interpreters **Elsevier's Dictionary of Trees** M.M. Grandtner,2005-04-08 This dictionary will present all currently accepted generic specific sub specific and variety names of trees excluding fossil and more recently extinct taxa hybrids and cultivars Only the indigenous trees of a continent those wild species that were natural elements of the spontaneous forest vegetation before the arrival of Europeans or other colonizers are included Each generic entry includes the family to which it is assigned the synonyms of the Latin name and the English French Spanish trade and other names For the English and French names the standard name is listed first followed by other available names with in parentheses the countries where

they are used Where appropriate names in additional languages are also included Each infrageneric species subspecies variety entry includes in addition the distribution height type of foliage ecological characteristics and main uses of the tree when available In this volume only taxa indigenous on the North American continent are included considered in a geographical not in a political sense This means from Alaska and Greenland to Panama including Caribbean but excluding Hawaii

Elsevier's Dictionary of Medicine A. Hidalgo Simon, 2004-03-19 This is a comprehensive medical and scientific dictionary for the 21st century New vocabulary is constantly being introduced into fast moving medico scientific disciplines such as genomics clinical trials medico legal health economics and pharmacovigilance This new terminology is included in this dictionary clearly defined and accurately translated into Spanish The dictionary contains more than 28 000 main entries and many subentries a medical terms used outside the medical community including colloquial usage b technical medical terms in current use in clinical practice and research c new technical terms in the fields of medicine medical research and basic scientific research applied to medicine defined in recent years The breadth of subjects covered and the accessibility of the definitions make it user friendly for the educated general public while the level of detail and state of the art coverage of recent terminology make it a unique tool for professionals

Elsevier's Dictionary of Chemoetymology Alexander Senning, 2006-10-30 Noting a marked lack of comprehensiveness and or contemporaneity among typical reference works on chemical etymology as well as a somewhat spotty coverage of chemical terms and their etymology in comprehensive dictionaries and textbooks the author decided to write an up to date desk reference on chemical etymology which would satisfy the needs of casual readers as well as those of more demanding users of etymological lore Characteristic user friendly features of the present work include avoidance of cumbersome abbreviations avoidance of entries in foreign alphabets and a broad coverage of all chemical disciplines including mineralogy Biological medical geological physical and mathematical terms are only considered where they appear of interest to mainstream chemists This book does not provide definitions of terms unless required in the etymological context nor guidance as to the timeliness of different nomenclature systems The typical user will from the outset be well aware of the exact meaning of the terms he or she focuses on and only require the etymological background to be used Examples of sources which have been drawn upon in the preparation of this book apart from the extremely useful Internet resource Google are listed but an exhausting enumeration would be tiresome and impractical an up to date desk reference on chemical etymology characteristic user friendly features broad coverage of all chemical disciplines

Elsevier's Dictionary of Mammals Murray Wrobel, 2006-11-18 This authoritative dictionary has been compiled with the aim of giving an overview of the English German French and Italian names of mammals The Basic Table contains in alphabetical order the scientific names of families genera species and sub species and synonyms with the identified names detailed in all four languages These are given in the singular for species and sub species and in the plural for other terms The synonyms and subspecies are offered in detail The editor offers numerous alternative spellings of

vernacular names This dictionary is an outstanding guide for every researcher in mammalogy *Sugar Processing and By-products of the Sugar Industry* Antonio Valdes Delgado, Carlos de Armas Casanova, Food and Agriculture Organization of the United Nations, 2001-01-01 Sugar has many functional properties in addition to its nutritive value It can be produced either in the liquid or crystallized form for both domestic and industrial uses This publication describes the sugar industry with particular regard to the production of various categories of sugar and alcohol processing and utilization of by products and the manufacture of pulp and paper With the diminishing demand for and cost of sugar diversification towards value added products can offer opportunities for improving the economics of sugar production Elsevier's Dictionary of Medicine and Biology G. Konstantinidis, 2005-08-18 Dictionaries are didactic books used as consultation instruments for self teaching They are composed by an ordered set of linguistic units which reflects a double structure the macrostructure which correspond to the word list and the microstructure that refers to the contents of each lemma The great value of dictionaries nests in the fact that they establish a standard nomenclature and prevent in that way the appearance of new useless synonyms This dictionary contains a total of about 27 500 main English entries and over of 130 000 translations that should normally sufficiently cover all fields of life sciences The basic criteria used to accept a word a part of the dictionary during the development period in order of importance were usage up to dateness specificity simplicity and conceptual relationships The dictionary meets the standards of higher education and covers all main fields of life sciences by setting its primary focus on the vastly developing fields of cell biology biochemistry molecular biology immunology developmental biology microbiology genetics and also the fields of human anatomy histology pathology physiology zoology and botany The fields of ecology paleontology systematics evolution biostatistics plant physiology plant anatomy plant histology biometry and lab techniques have been sufficiently covered but in a more general manner The latest Latin international anatomical terminology Terminologia Anatomica or TA has been fully incorporated and all anatomical entries have been given their international Latin TA synonym This dictionary will be a valuable and helpful tool for all scientists teachers students and generally all those that work within the fields of life sciences **Elsevier's Dictionary of Soil Science** A.
