Everything and the Moon Julia Quinn, 2009-10-13 It was indisputably love at first sight But Victoria Lyndon was merely the teenaged daughter of a vicar while Robert Kemble was the dashing young earl of Macclesfield Surely what their meddling fathers insisted must have been true that he was a reckless seducer determined to destroy her innocence and she was a shameless fortune hunter So it most certainly was for the best when their plans to elope went hopelessly awry Even after a seven year separation Victoria now a governess still leaves Robert breathless But how could he ever again trust the raven haired deceiver who had shattered his soul And Victoria could never give her heart a second time to the cad who so callously trampled on it the first But a passion fated will not be denied and vows of love yearn

Allegory and Enchantment Jason Crawford,2017 Allegory and Enchantment is about the genealogies of modernity and about the lingering power of some of the cultural forms against which modernity defines itself religion magic the sacramental the medieval Jason Crawford explores the emergence of modernity by investigating the early modern poetics of allegorical narrative a literary form that many modern writers have

taken to be paradigmatically medieval He investigates how allegory is intimately linked with a self-conscious modernity and with what many commentators have in the last century called the disenchantment of the world in four of the most substantial allegorical narratives produced in early modern England William Langland's *Piers Plowman* John Skelton's *The Bowge of Courte* Edmund Spenser's *The Faerie Queene* and John Bunyan's *The Pilgrim's Progress* Enchantment's Odds & Ends Ken Evans, 2021-07-26 To be Enchanted at one time meant to be carried away from one's humdrum existence to something or somewhere magical perhaps even spiritual at least always more than merely physically pleasant Of course this depended on one's beliefs in human souls Take that away and enchantment would be as mundane as everything else in modern daily life No Soul means no possibility of Enchantment Ken Evans

Sacral Kingship Between Disenchantment and Re-enchantment Ronald G. Asch, 2014-07-01 France and England are often seen as monarchies standing at opposite ends of the spectrum of seventeenth-century European political culture On the one hand the Bourbon monarchy took the high road to absolutism while on the other the Stuarts never quite recovered from the diminution of their royal authority following the regicide of Charles I in 1649 However both monarchies shared a common medieval heritage of sacral kingship and their histories remained deeply entangled throughout the century This study focuses on the interaction between ideas of monarchy and images of power in the two countries between the execution of Mary Queen of Scots and the Glorious Revolution It demonstrates that even in periods when politics were seemingly secularized as in France at the end of the Wars of Religion and in latter seventeenth-century England the appeal to religious images and values still lent legitimacy to royal authority by emphasizing the sacral aura or providential role which church and religion conferred on monarchs
