**Embracing History's Lessons** Jay R. Allgood, 2004 Surprisingly few authors have attempted to delineate the lessons of history in a concise form where they can be easily examined pondered and evaluated in relation to each other A work over twenty years in the writing Jay Allgood has produced a masterful analysis drawn from the finest minds of history and has synthesized material from hundreds of sources *Atlantic Educational Journal* ,1914 *The New Education* ,1891 *The Dial* Francis Fisher Browne,1898 **The Salisbury Review** ,1986 **A Supplement to Allibone's Critical Dictionary of English Literature and British and American Authors** John Foster Kirk,1891 *The Illustrated London News* ,1848 *The Publishers Weekly* ,1919 **Railway Master Mechanic** ,1891 *Nebraska History* Addison Erwin Sheldon,James Lee Sellers,James C. Garraty,1986 This is not a test It s the real thing *Everything You Need to Know about Your History Course* Generic,Sandra K. Mathews-Lamb,1999-09 *Gentlemen and Scholars* , Historians have dubbed the period from the Civil War to World War I the age of the university suggesting that colleges in contrast to universities were static institutions out of touch with American society Bruce Leslie challenges this view by offering compelling evidence for the continued vitality of colleges using case studies of four representative colleges from the Middle Atlantic region Bucknell Franklin and Marshall Princeton and Swarthmore A new introduction to this classic reflects on his work in light of recent scholarship especially that on southern universities the American college in the international context the experience of women and liberal Protestantism s impact on the research university According to Leslie nineteenth century colleges were designed by their founders and supporters to be instruments of ethnic denominational and local identity The four colleges Leslie examines in detail here were representative of these types each serving a particular religious denomination or lifestyle Over the course of this period however these colleges like many others were forced to look beyond traditional sources of financial support toward wealthy alumni and urban benefactors This development led to the gradual reorientation of these schools toward an emerging national urban Protestant culture Colleges that responded to and exploited the new currents prospered Those that continued to serve cultural distinctiveness and localism risked financial sacrifice Leslie develops his argument from a close study of faculties curricula financial constituencies student bodies and campus life The book will be valuable to those interested in American history higher education as well as the particular institutions studied This book continues the story started by Veysey s *Emergence of the American University* Its innovative approach should encourage scholars to study colleges and universities as parts of local communities rather than as freestanding entities Leslie s findings will substantially revise

currently accepted accounts of the history of education in the late nineteenth century Louise L Stevenson Franklin and Marshall College W Bruce Leslie is professor of history at the State University of New York at Brockport     *The Study of History in American Colleges and Universities* Herbert Baxter Adams,1887     *America at College* Robert Knox Risk,Donald Macalister,2008-06-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work     **History as a Career** John L.
