Architecture Patricia McHugh,Alex Bozikovic,2017-06-27 Toronto has been hailed as a city in the making and the city that
works It s an ongoing project in recent years Canada s largest city has experienced transformative exciting change But just
what does contemporary Toronto look like This authoritative architectural guide newly updated and expanded leads readers

revealing exploration of Toronto s past and future for the city s visitors and locals alike The Rough Guide to Toronto Phil
Lee,Helen Lovekin,Rough Guides (Firm),2003 This guide to Toronto provides complete coverage of Canada s most diverse
city The guide opens with a colour introduction to the city s highlights with photographs of attractions and sights from the
CN Tower to Union Station The guide reveals each of the city s many distinct neighbourhoods and the tranquil Toronto
islands There are discriminating reviews of the best places to eat drink and stay plus coverage of the arts scene with features
on Toronto s literary and theatre heritage There is also extensive coverage given to day trips from the city including Niagara
Falls and the Severn Sound **Modest Hopes** Don Loucks,Leslie Valpy,2021-09-14 Celebrating Toronto s built heritage of
row houses semis and cottages and the people who lived in them Despite their value as urban property Toronto s workers
cottages are often characterized as being small cramped poorly built and in need of modernization or even demolition But for
the workers and their families who originally lived in them from the 1820s to the 1920s these houses were far from modest
Many had been driven off their ancestral farms or had left the crowded conditions of tenements in their home cities abroad

Once in Toronto many lived in unsanitary conditions in makeshift shantytowns or cramped shared houses in downtown neighbourhoods such as The Ward To then move to a self contained cottage or rowhouse was the result of an unimaginably strong hope for the future and a commitment to family life Through the stories of eight families who lived in these Modest Hopes authors Don Loucks and Leslie Valpy bring an important but forgotten part of the Toronto narrative to life They illuminate the development of Toronto's working class neighbourhoods such as Leslieville Corktown and others and explain the designs and architectural antecedents of these undervalued heritage properties *Blue Jays 1, Expos 0* David Luchuk, 2009-08-11 The 2001 2002 offseason was a tumultuous one for Major League Baseball The commissioner's move to contract two teams voted on and approved by league owners in a 28-2 vote left fans in several cities fearing for the future of their teams The Montreal Expos with a recent history of poor play and even poorer attendance seemed an obvious choice Canada's only other big league franchise the Toronto Blue Jays had voted in favor of the commissioner's proposal but seemed as likely a candidate as either of the teams targeted by owners This book examines the 2002 season of the Expos and the Blue Jays setting events against the backdrop of a long nurtured urban rivalry between Montreal and Toronto Chapters cover the summer of 2002 month by month supplementing on and off field events with a wealth of historical background and showing how competition placed the Expos and Blue Jays as well as their two host cities on permanently divergent paths

Canadian Climate of Mind Timothy B. Leduc, 2016-05-01 The twenty first century is a period of great environmental and social transformation as climate change increasingly marks lives at levels that are personal familial communal national and global A Canadian Climate of Mind presents stories that emerge from the waters lands and climate of Canada and which have the potential to renew a compassionate energy for changing human relations with each other and with our world The turbulent effects of climate change are popularly discussed in the modern language of scientific knowledge political policies economic mechanisms and technological innovation While there is much to be learned from these views Timothy Leduc suggests a more profound call for change by returning to past understandings of the land and climate He argues that the world is initiating us into a broader and humbler sense of what it is to be human in an interconnected reality The world is doing this by responding to unsustainable practices such as our devastating reliance on fossil fuels Weaving together voices from numerous backgrounds and time periods with Indigenous views on present and past environmental challenges A Canadian Climate of Mind illuminates a world that is being shaken to its core while we hesitate to act

Reordering the Natural World Annabelle Sabloff, 2001-02-15 In *Reordering the Natural World* Annabelle Sabloff argues that the everyday practices of contemporary capitalist society reinforce the conviction that we are profoundly alienated from the rest of nature At the same time she reveals the often disguised affinities and sense of connection urban Canadians manifest in their relations with animals and the natural world Sabloff reflects on how the discipline of anthropology has contributed to the prevailing Western perception of a divide between nature and culture She suggests that the present ecological crisis has resulted largely from the ways in which Western societies have construed nature as a cultural system Since new ideas about nature may be critical in changing humanity s destructive interactions with the

biosphere Reordering the Natural World is invaluable in exploring how urban Canadians develop and sustain their current relationship with the macrocosm and in considering whether these relationships might be altered by reconceptualizing anthropology itself as an integral part of natural history With this unique text Sabloff not only provides provocative insight into the study of relations between humans and the natural world she lays the cornerstone for building an entirely new structure for the study of anthropology itself
