Zeine,1966 **Arab Nationalism in the Twentieth Century** Adeed Dawisha,2016-02-16 Like a great dynasty that falls to ruin and is eventually remembered more for its faults than its feats Arab nationalism is remembered mostly for its humiliating rout in the 1967 Six Day War for inter Arab divisions and for words and actions distinguished by their meagerness But people tend to forget the majesty that Arab nationalism once was In this elegantly narrated and richly documented book Adeed Dawisha brings this majesty to life through a sweeping historical account of its dramatic rise and fall Dawisha argues that Arab nationalism which he says was inspired by nineteenth century German Romantic nationalism really took root after World War I and not in the nineteenth century as many believe and that it blossomed only in the 1950s and 1960s under the charismatic leadership of Egypt s Gamal Abd al Nasir He traces the ideology s passage from the collapse of the Ottoman Empire through its triumphant ascendancy in the late 1950s with the unity of Egypt and Syria and with the nationalist revolution of Iraq to the mortal blow it received in the 1967 Arab defeat by Israel and its eventual eclipse Dawisha criticizes the common failure to distinguish between the broader cultural phenomenon of Arabism and the political secular desire for a united Arab state that defined Arab nationalism In recent decades competitive ideologies not least Islamic militancy have inexorably supplanted the latter he contends Dawisha who grew up in Iraq during the heyday of Arab nationalism infuses his work with rare personal insight and extraordinary historical breadth In addition to Western sources he draws on an unprecedented wealth of Arab political memoirs and studies to tell the fascinating story of one of the most colorful and significant periods of the contemporary Arab world In doing so he also gives us the means to more fully understand trends in the region today Complete with a hard hitting new and expanded section that surveys recent nationalism and events in the Middle East Arab Nationalism in the Twentieth Century tells the fascinating story of one of the most colorful and significant periods in twentieth century Middle Eastern history *Arab-Turkish Relations and the Emergence of Arab Nationalism* Zeine N. Zeine,1958 *The Many Faces of National Security in the Arab World* Rex Brynen,Bahgat Korany,Paul Noble,2016-07-27 Two Gulf wars and the continuing Arab Israeli conflict have highlighted the salience of military factors in the Middle East This book argues however that many of the most serious security challenges to Arab states and societies are rooted not in external military threats but in the imperatives of socio economic development

Contributors examine the regional security environment the social and political impact of regional militarization and underdevelopment as a source of regional insecurity

Arab History and the Nation-State Youssef M. Choueiri, 2016-11-10 The study of Arab historiography and of the emergence of the Arab nation state as an object of historical treatment is a matter of considerable current interest Despite its importance no academic work has dealt with this subject as a major preoccupation of Arab historians and intellectuals This book first published in 1989 discusses the development of modern Arab historiography and

its study of the nation state in the nineteenth century and analyses the work of three contemporary Arab historians from Egypt the Lebanon and Morocco An important and highly readable account it reaffirms the importance of historiography and proposes a revision of the manner in which modern Arab thought has hitherto been classified and interpreted *A History of the Arab Peoples* Albert Habib Hourani, Albert Hourani, 2002 Chronicles the history of Arab civilization looking at the beauty of the great mosques the importance attached to education the achievements of Arab science the role of women internal conflicts and the Palestinian question **The Politicization of Islam** Kemal H. Karpat, 2001 This book analyzes the transformation of the Ottoman Empire over the 19th and 20th centuries It focuses on Muslim revivalist fundamentalist movements which were contained by the Ottoman government's Islamist ideology and whose ideas fuelled a new kind of nationalist religious ideology **History for the IB Diploma: The Arab-Israeli Conflict 1945-79** Jean Bottaro, 2012-08-02 Tailored to the requirements and assessment objectives of the syllabus they provide opportunities for students to make comparisons between different regions and time periods *Social Constructions of Nationalism in the Middle East* Fatma M?ge G??ek, 2002-01-24 Central to the methodological focus of this group of 10 essays is the observation by editor Goecek that nationalism is constituted through the constant negotiation of its boundaries by including some groups meanings and practices and excluding others **The Emergence of the Palestinian-Arab National Movement, 1918-1929 (RLE Israel and Palestine)** Yehoshua Porath, 2020-08-18 The resurgence of Palestinian nationalism in the wake of the 1967 Arab Israeli war tended to overshadow the fact that Palestinian national consciousness is not a new phenomenon but traces its origins back to the time when the first stirrings of nationalism were being felt in many parts of the under developed world This work first published in 1974 is based on both Arabic and Hebrew primary sources as well as English and French official and unofficial documents and was the first detailed study of the infancy period of Palestinian nationalism The book begins by establishing the position of Palestine and Jerusalem in Islamic history and their significance within the concepts of Islam and outlines the social and political features of the Palestinian population at the beginning of the First World War The author then charts in detail the development of Palestinian nationalism over the decade after the War Two major forces influenced this development and reacted with it Zionism with its ambitious schemes for settling Jews in Palestine and creating a National Home for them there and Arab nationalism on a wider scale which was emerging spontaneously with the disintegration of the Ottoman Empire and the spreading of ideas of self determination The growing threat posed by Zionism awoke the Palestinian population to the need for organization and the establishment of their own identity to oppose it while the focus of their national aspirations widened or narrowed according to the ability which they felt at any given time to confront Zionism and achieve self expression within a Palestinian rather than an all Syrian national framework The events of these turbulent years the confrontations with the British delegations boycotts proposals and rejections the emergence of al Hajj Amin al Husayni the Wailing Wall conflict and its repercussions are all described within

the context of these wider considerations which also include Britain's own role as holder of the Mandate over Palestine

Literature and Development in North Africa Perri Giovannucci, 2008-04-15 The book examines how modern global development largely privileges Western multinational interests at the expense of local or indigenous concerns in the developing nations of the East. The practices of development have mostly led not to economic social and political progressivism in local society but rather to instability, poverty, debt, and repression. Modernization may therefore be seen as the catalyst of anti-Western reaction. The record of exploitative development is traceable in the anti-colonial works of Frantz Fanon, Albert Memmi, and Jean Paul Sartre, as well as in the fiction and memoirs of several North African authors including Albert Camus, Naguib Mahfouz, Nawal El Saadawi, Assia Djebar, and Edward Said, who address decolonization in the middle twentieth century. The critical regard of development provides better understanding of the independence movements in North Africa. Further, one may look to the colonial past for perspective upon global development today. One sees similar practices and rhetoric are now invoked under globalization. This recognition is key to understanding today's so-called war on terror. The understanding of things postcolonial is therefore critical for Americans today. Grounded in literature in English translation, this work has relevance for cultural studies in the Middle East, Africa, globalization, postcolonialism, and women's studies.

**A History of the Middle East** Peter Mansfield, 2013-08-27 The definitive history of the Middle East that provides the historical context to today's headlines, now in its fifth edition. The best overall survey of the politics, regional rivalries, and economics of the contemporary Arab World. The Washington Post: One of the most crucial, volatile, and complex regions of the modern world, the Middle East has long confounded the dreams of conquerors and peacemakers alike. This now classic book and still the essential work on the subject follows the historic struggles of the Middle East from Napoleon's campaign in Egypt and Syria through the slow decline and fall of the Ottoman Empire to the Israeli-Palestinian conflict and the history of Islam and its recent resurgence. For this new fifth edition, 2019 Economist journalist and Middle East correspondent Nicolas Pelham has written extensive new material examining recent developments throughout the Middle East, including the aftermaths of the Arab Spring, the situation in Iran, the continuing Arab-Israeli conflict, and the unfolding disasters of the Syrian and Yemeni civil war.
