of major events a full index of persons places and subjects a fully featured companion website enhanced for this new edition The European World 1500 1800 will be essential reading for all students embarking on the discovery of the early modern period

EU Development Policy in a Changing World Andrew Mold,2007 On many fronts European Union development policy is at a critical juncture in the face of new obstacles the EU has been forced to rethink trade security and its relationship with neighbors in North Africa and the Middle East Contentious questions have centered on the effects of EU expansion agricultural protectionism and development friendly trade policy in the EU and its member nations To answer these questions and others this expertly edited volume draws on analysis from well known specialists in fields such as public policy and economic development providing a critical overview of EU development policy and the challenges it must confront in an increasingly volatile and changing world

The Emergence of the European World Jerome Blum,Rondo E. Cameron,Thomas Garden Barnes,1970 Includes bibliographical references *Europe, 1450-1815: The emergence of the modern era, 1450-1650* Ernest John Knapton,1961

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish M. Scott,2015 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam

Teaching Global History Alan J. Singer,2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions

Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it

The European Heritage Gerard Delanty, 2017-07-06 Gerard Delanty offers a critical interpretation of the European heritage today in light of recent developments in the human and social sciences and in view of a mood of crisis in Europe that compels us to re think the European past One of the main insights informing this book is that a transnational and global perspective on European history can reorient the European heritage in a direction that offers a more viable way for contemporary Europe to articulate an intercultural identity in keeping with the emerging shape of Europe and with its own often acknowledged past He argues that the European heritage is based less on a universalistic conception of culture than on a plurality of interconnecting narratives Such a perspective opens up new directions for scholarship and public debate on heritage that are guided by critical cosmopolitan considerations that highlight contention resistances competition and dissonance He argues that the specificity of the European dimension of culture is in the entanglement of many cultures rather than in an original culture The cultures of Europe are not separated but have been shaped in close interaction with each other and with the non European world Nations are not therefore unique exceptional or fundamentally different from each other The outcome of such intermingling is a multiplicity of ideas of Europe that serve as shared cultural reference points

The Emergence of Modern Europe Britannica Educational Publishing, 2010-10-01 At the end of the Renaissance the Western world was beginning to change Explorers brought back treasures from other lands Merchants helped develop the rudiments of a modern economy The new Protestant religion swept across Europe sparking the brutal Thirty Year s War with Roman Catholics By the time of the French Revolution the world had been introduced to the distinct entities that still largely make up present day Europe and to the revolutionary social cultural and political philosophies of the enlightenment Within these pages readers will encounter the developments that altered the course of Europe s early modern era The volume contains a wealth of thoroughly researched information complemented by beautiful photographs to draw readers into the remarkable history of the development of this powerful continent
