Zun,Lara G. Chepenik,Mary Nan S. Mallory,2013-03-21 This comprehensive go to volume features cutting edge discussion of the emergency department management of mental health patients **Faith Based** Jason Hackworth,2012-06-01 Faith Based explores how the Religious Right has supported neoliberalism in the United States bringing a particular focus to welfare an arena where conservative Protestant politics and neoliberal economic ideas come together most clearly Through case studies of gospel rescue missions Habitat for Humanity and religious charities in post Katrina New Orleans Jason Hackworth describes both the theory and practice of faith based welfare revealing fundamental tensions between the religious and economic wings of the conservative movement Hackworth begins by tracing the fusion of evangelical religious conservatism and promarket antigovernment activism which resulted in what he calls religious neoliberalism He argues that neoliberalism the ideological sanctification of private property the individual and antistatist politics has rarely been popular enough on its own to promote wide change Rather neoliberals gain the most traction when they align their efforts with other discourses and ideas The promotion of faith based alternatives to welfare is a classic case of coalition building on the Right Evangelicals get to provide social services in line with Biblical tenets while opponents of big

government chip away at the public safety net Though religious neoliberalism is most closely associated with George W Bush's Office of Faith Based and Neighborhood Partnerships the idea predates Bush and continues to hold sway in the Obama administration Despite its success however Hackworth contends that religious neoliberalism remains an uneasy alliance a fusion that has been tested and frayed by recent events *Faith Community Nursing* Janet Susan Hickman, 2006 This unique text combines traditional parish nursing content with community health nursing methodology coverage of community and faith community assessment and health education and health promotion disease prevention programming *And a Time to Die* Sharon Kaufman, 2005-04-19 A reassuring and illuminating examination on our conflicting wishes about the end of life how the politics and routines of the American hospital have formed our understanding and experience of death and ultimately why what we consider a good death is so hard to attain In a penetrating and revelatory study medical anthropologist Dr Sharon Kaufman uses two years of intensive observations and interviews with scores of patients family members physicians nurses social workers and other staff at several community hospitals in California to explore the heart of a science driven yet fractured and often irrational world of health care delivery where empathetic yet frustrated hard working yet constrained professionals both respond to and create the anxieties and often inchoate expectations of patients and families who must make decisions they are ill prepared to make She sought out the critically ill the dying and their friends and relatives She followed patients from admission to death days weeks or sometimes months later through what is often for them and their families a Kafkaesque journey She asked hospital staff what they were doing and why and stood beside doctors and nurses observing their work cynicism compassion and frustration And she paid close attention to the most important player of all the hospital bureaucracy and how it impacts the manner and timing of patient death Her investigative research links together the emotional experiences of patients and families the dedicated work of hospital staff and the ramifications of institutional bureaucracy to show the invisible power of the hospital system itself its rules mandates and daily activity in organizing death and individual experience of it The book is the story of real patients and their families an account of what drives the American hospital today and a report on the complex sources and implications of doing something about death **The Christian Century**, 1918 Congressional Record United States Congress, 1998 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **The Religious Spirit** Nate Cashdan, 2021-12-10 We often speak harshly of the Pharisees when we read about all the ridiculous things they said and did during the time of Jesus Have you ever noticed though that they were acting the way they were out of a deep love for Yahweh Yes even sending Jesus to the Cross was out of zeal for the same God that we serve today So how could they have been so blind They were influenced by a religious spirit The

religious spirit is a demonic entity tasked with masquerading as the Holy Spirit It operates in the Church by influencing Christians to engage in behaviors and thought that seem righteous and holy but actually bring division and destruction In The Religious Spirit Nate examines the work of this spirit from the seeds in which it is allowed to take root to the tactics it employs to the harmful fruit it produces to the method for gaining freedom from its nasty influence This fascinating book will equip everyday believers to identify and destroy the influence of the religious spirit in their lives
