Freedom In The World Political Rights And Civil Liberties 1979:

Freedom in the World Raymond D. Gastil, Bohdan R. Bociurkiw, 1979 *Freedom in the World* Raymond Duncan Gastil, 1980-01-01 This yearbook marks the thirteenth year of the Comparative Survey of Freedom and is the seventh edition in the Freedom House series of annual publications In addition to the ratings and tables of the Comparative Survey this volume contains an extensive discussion of the criteria for and definitions of freedom For the first time ever the yearbook includes the checklist of political rights and civil liberties that forms the basis of the Survey's ratings system Summary discussions of the status of freedom in each country and related territories are included This edition also examines the continuing controversy over the role of and regulations appropriate to the news media in the ongoing struggle for greater political social and economic freedom It reports the outcome of a Freedom House sponsored conference on strengthening American support for liberalization in Eastern Europe Finally the volume includes an assessment of the American campaign for democracy in the world and considers the opportunities and strategies appropriate to it **Ibss Poli Sci 29 1980** "International Committee For Social Sciences Documentation", 2013-10-15 The International Bibliography of the Social Sciences IBSS is an essential tool for librarians academics and researchers wishing to be kept up to date with the published literature in the social sciences IBSS is compiled in four divisions Anthropology Sociology Economics and Political Science This is Volume XXIX of the International bibliography of political science as of 1980 **The Fallacies of Hope** James Mayall, Anthony Payne, 1991 A consideration of the evolution of the countries of the Commonwealth after the fall of the British Empire The book focuses on the political development of the countries as well as discussing their economic and social policies and international relations **Freedom in the World 2013** Freedom House, 2013-10-10 Freedom in the World the Freedom House flagship survey whose findings have been published annually since 1972 is the standard setting comparative assessment of global political rights and civil liberties The survey ratings and narrative reports on 195 countries and 14 territories are used by policymakers the media international corporations civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide The Freedom in the World political rights and civil liberties ratings are determined through a multi layered process of research and evaluation by a team of regional analysts and eminent scholars The analysts used a broad range of sources of information including foreign and domestic news reports academic studies nongovernmental organizations think tanks individual professional contacts and visits to the region in conducting their research The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights and these standards are applied to all countries and territories irrespective of geographical location ethnic or religious composition or level of economic development **Democracy and Development** Axel Hadenius, 1992-09-17 This book is a thorough investigation into the requisites of democracy Based on data from all 132 sovereign states of the Third World it first establishes a scale to measure the level of democracy existing in these countries

The author discusses various interpretations of the meaning of political democracy and emerges with a specification of its essential principles which includes such elements as the holding of elections to central decision making organs and the maintenance of certain fundamental political liberties Theories concerning the requisites of democratic government are then examined in order to explain the manifest differences in the level of democracy among the states of the Third World The author employs statistical techniques including regression analysis to test theories related to socio economic conditions demographic and cultural factors and institutional arrangements This book thus provides a uniquely wide ranging examination both of the elements which constitute democracy and of the factors which explain its varying prevalence

Global Human Rights Ved P. Nanda, 2019-04-05 Written in response to the increasingly conscious effort to develop human rights on a universal scale this seminal volume focuses on three distinct areas of human rights public policy criteria for comparative assessment and NGO nongovernmental organization strategies The contributors amplify and clarify what has been done in the sphere of hum

Human Rights Theory David Cingranelli, 1988-06-18 This study attempts to facilitate the development of empirical theories relevant to human rights phenomena It is designed to be of use to policymakers regarding appropriate strategies for measuring human rights practices and for evaluating human rights policies

Human Rights and Comparative Politics Youcef Bouandel, 1997 Human rights is a central concept in political science yet it is still poorly understood This book reviews the literature on human rights and takes into account the different perceptions asking if human rights can be measured and whether countries can be ranked on the basis of their performance

Freedom in the World 2016 Freedom House, 2016-12-24 Freedom in the World the Freedom House flagship survey whose findings have been published annually since 1972 is the standard setting comparative assessment of global political rights and civil liberties The survey ratings and narrative reports on 195 countries and fifteen territories are used by policymakers the media international corporations civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide The Freedom in the World political rights and civil liberties ratings are determined through a multi layered process of research and evaluation by a team of regional analysts and eminent scholars The analysts used a broad range of sources of information including foreign and domestic news reports academic studies nongovernmental organizations think tanks individual professional contacts and visits to the region in conducting their research The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights and these standards are applied to all countries and territories irrespective of geographical location ethnic or religious composition or level of economic development

Political Liberalization and Democratization in Africa Julius O. Ihonvbere, John Mukum Mbaku Esq., 2003-12-30 Since the late 1980s Africans have been engaged in efforts to transform their societies and provide themselves with more effective governance and economic structures Unfortunately most of these efforts have not progressed beyond simple elections The contributors to this volume provide strategies that Africans can use

to deepen democracy improve resource allocation and enhance their ability to coexist peacefully Mbaku Ihonvbere and their contributors while adopting a critical approach to the study of African political economy take a stand against Afro pessimism They articulate an holistic agenda for addressing Africa s multifarious problems reject received knowledge and through a dialectical methodology draw attention to the centrality of social categories classes the state civil society the environment communities and patterns of change in the continent Relying on fieldwork hard data and critical reviews of the extant literature the volume highlights the importance of democracy and democratization to the urgent restructuring that Africa needs in the new globalization Paying attention to the continent s historical experiences and its specificities the contributors draw attention to the importance of grassroots action leadership and the need to constitutionally entrench civil liberties

The Political Economy of Human Rights in Armenia Simon Payaslian, 2011-06-30 Since its independence from the Soviet Union in 1991 Armenia has experienced a reversal from democratization to a Soviet style authoritarian regime and has been accused of repressive approaches to human rights Here Simon Payaslian juxtaposes a masterful survey of the history of the Armenian people from the nineteenth century through the first republic 1918-21 and Sovietization to the present with the evolution of international human rights standards and argues that a statist and authoritarian political culture has impeded political liberalization and institutionalization of human rights principles Highlighting the clash between sovereignty on one side and human rights and democracy on the other this comprehensive and in depth analysis is essential for all those interested in human rights democratization political repression and the former Soviet republics *Bowker's Law Books and Serials in Print 1988* R. R. Bowker, 1988 *Handbook of Citizenship Studies* Engin F Isin, Bryan S Turner, 2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women s rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to

understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include Being Political Genealogies of Citizenship Minnesota 2002 and with P K Wood Citizenship and Identity Sage 1999 He is the Managing Editor of Citizenship Studies Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in Citizenship and Capitalism Unwin Hyman 1986 and Citizenship and Social Theory Sage 1993 He is also the author of The Body and Society Sage 1996 and Classical Sociology Sage 1999 and has been editor of Citizenship Studies since 1997 **Philosophy, History and Social Action** S. Hook, W. O'Neill, R. O'Toole, 2012-12-06 Two articles by Lewis Feuer caught my attention in the 40s when I was wondering as a student physicist about the relations of physics to philosophy and to the world in turmoil One was his essay on The Development of Logical Empiricism 1941 and the other his critical review of Philipp Frank's biography of Einstein Philosophy and the Theory of Relativity 1947 How extraordinary it was to find so intelligent independent critical and humane a mind and furthermore he went further as I soon realized when I looked for his name on other publications I recall arguing with myself over his exploration of Indeterminacy and Economic Development 1948 and even more when I read his Dialectical Materialism and Soviet Science 1949 More papers and then the fascinating sometimes irritating always insightful books His monograph on Psychoanalysis and Ethics 1955 the beautiful sociological and humanist study of Spinoza and the Rise of Liberalism 1958 his essays on The Social Roots of Einstein's Theory of Relativity 1971 together with the book on Einstein and the Generations of Science 1974 the splendid reader from the works of Marx and Engels Basic Writings on Politics and Philosophy 1959 which was a major text of the 60s the stimulating essays on the social formation which seems to have been required for a modern scientific movement to develop set forth most convincingly in The Scientific Intellectual 1963

Human Rights and Statistics Thomas B. Jabine, Richard Pierre Claude, 2016-11-11 Effective human rights advocacy and research require the use of statistics carefully collected and objectively analyzed and presented using the best techniques available Statistics that lack credibility are of little value Those that can be defended against critics can be effective in throwing the light on violations and promoting the observance of human rights for all The contributors to this book including experts in political science public health law forensic pathology and statistics illustrate good statistical practice in the field of human rights and show the importance of collaboration between statisticians and other professionals The treatment is largely nonmathematical and the examples provide broad coverage of all features of the collection and use of statistical data on human rights violations For readers who would like to do their own analyses an extensive guide to human rights data sources is included This book is the first to describe and summarize important issues associated with the collection and uses of human rights statistics **International Ethics** Mark R. Amstutz, 2018-02-23 Mark Amstutz illustrates the role of moral norms in global politics and the ethical foundation of the rules institutions and structures of global society with twenty six new and revised case studies including the ethics of climate change the refugee crisis and the Syrian civil war The cases

address the following major global issues human rights war unconventional military operations foreign intervention international economic relations justice among states and global justice This comprehensive study will be of special interest to students and practitioners of international affairs who are concerned with the role of political morality and ethical judgment in global affairs *Reconstructing the Authoritarian State in Africa* George Kieh, Jr., Pita Agbese, 2013-10-01 This work seeks to examine the nature and dynamics of authoritarianism in Africa and to suggest ways in which the states covered in the book can be democratically reconstituted In 1990 a wave of euphoria greeted the third wave of democratization that swept across the African Continent The repression wearied subalterns were hopeful that the third wave would have set into motion the process of democratically reconstituting the authoritarian state on the continent More than two decades thereafter although some progress has been made by and large the authoritarian state remains the dominant construct in the region Even in some of the countries in which democratic transitions have taken place the process of democratic consolidation remains an elusive quest as these states are sandwiched between authoritarianism and democracy Against this background the purpose of this book is to examine the travails of the authoritarian state in Africa including the Herculean task to democratically reconstruct it In order to do this six of Africa's perennial authoritarian states Cameroon the Democratic Republic of the Congo Egypt Liberia Rwanda and Uganda are used as the case studies The book has two major objectives First the various chapters probe the nature and dynamics of authoritarianism in Africa Second the chapters suggest ways in which the various authoritarian states covered in the book can be democratically reconstituted **On Measuring Democracy** Alex Inkeles, 2017-07-05 This book focuses on measuring democratic political systems as such and is concerned more with the consequences and concomitants of political democracy in cross national research It examines the sequences and dynamics of political change between 1800 and 1986 *Comparative Hong Kong Politics* Mathew Y. H. Wong, 2017-04-03 This guidebook for students offers a survey of comparative politics intended for use in Hong Kong Hong Kong is one of the world's great cities but its political future has never been hazier Mass protests contested elections a 2047 transition causing uncertainty in financial and business elites for Hong Kong it is the best of times as well as the worst of times Hong Kong University politics scholar Matthew Wong brings a clear headed and fact based approach introducing Hong Kong to scholars of comparative politics even as he introduces comparative politics to students in Hong Kong with this new area specific reference work a mix of theory and insights into how political theory can be of value in understanding the case of Hong Kong complete with datasets and quantitative information that helps to disentangle fact from myth For Hong Kong residents scholars students and members of civil society this book will be a breath of fresh air
