Freedom's Ordeal Peter Juviler, 2010-11-24 Fifteen countries have emerged from the collapse of the Soviet Union Freedom's Ordeal recounts the struggles of these newly independent nations to achieve freedom and to establish support for fundamental human rights Although history has shown that states emerging from collapsed empires rarely achieve full democracy in their first try Peter Juviler analyzes these successor states as crucial and not always unpromising tests of democracy's viability in

postcommunist countries Taking into account the particularly difficult legacies of Soviet communism Freedom's Ordeal is distinguished by its careful tracing of the historical background with special attention to human rights before during and after communism Juviler suggests that the culture and practices of despotism may wither wherever modernization conflicts with tyranny and with the curtailment or denial of democratic rights and freedoms *Critical Citizens* Pippa Norris,1999 *Critical Citizens* is a study on attitudes towards nation governance political institutions and political leadership The contributors argue that the crisis in global democracy has been greatly exaggerated in recent years **Petrotyranny** John Bacher,2000-09-01 High gas prices aren't the end of the world but they may be the beginning of the end This at least is the feeling of many who shudder at the staggering power oil rich countries have over the world's political affairs In *Petrotyranny* John Bacher uncovers the frightening facts of the world's oil industry He reveals that the worst dictatorships control six times the reserves that are under democratic control and explores the potential for global conflict that exists as the demand for energy increases and the oil supply decreases What kind of power will these dictatorships possess in the future How many wars will be fought over the ever shrinking supply of oil Bacher takes an optimistic approach viewing the problem as a challenge the world's democracies need to devise a creative response to avoid the looming crisis That is start replacing fossil fuel burning with renewable energy and start the process now *Peaceworks*,1995 [Combating Corruption in Latin America](#) Joseph S. Protection Against Genocide Neal Riemer, 2000-03-30 Without succumbing to utopian fantasies or realistic pessimism Riemer and his contributors call for strengthening the key institutions of a global human rights regime developing an effective policy of prudent prevention of genocide working out a sagacious strategy of keenly targeted sanctions political economic military judicial and adopting a guiding philosophy of just humanitarian intervention They underscore significant changes in the international system the end of the Cold War economic globalization the communications revolution that hold open the opportunity for significant if modest movement toward strengthening key institutions The essays explore key problems in working toward prevention of genocide They highlight the existence of considerable early warning of genocide and emphasize that the real problem is a lack of political will in key global institutions Sanctions especially economic sanctions may punish a genocidal regime but at the expense of innocent civilians Thus more clearly targeted sanctions are seen as essential The argument on behalf of a standing police force to deal with the crime of genocide as they show is powerful and controversial powerful because the need is persuasive controversial because political realists question its cost and political feasibility Implementing a philosophy of just humanitarian intervention requires an appreciation of the difficulties of interpreting those principles in difficult concrete situations A permanent international criminal tribunal to deter and punish genocide they argue will put into place a much needed component of a global human rights regime A thoughtful analysis for scholars and students of international politics and law and human rights
