 ,1989 Freedom with Justice Michael Novak,1984 Catholic Social Teaching and Movements Marvin L. Krier Mich,1998
 This introductory book to Catholic social teaching covers not only the official documents and encyclicals but also gives a
 sense of the movements and people who embodied the struggle for social justice in the last 100 years **Catholicism,
 Liberalism, and Communitarianism** Kenneth L. Grasso, Gerard V. Bradley, Robert P. Hunt, 1995 This book makes a very
 ambitious proposal The proposal is that Catholic social thought can contribute significantly to revivifying the American
 experiment in liberal democracy That there is a need and urgent need for such a revival is today widely recognized by
 thinkers across the political and philosophical spectrum Some of the essays here are polemical and others apologetic but the
 book taken all in all is a proposal As such it must make its case sometimes in conversation with and sometimes against other
 proposals that are advanced in the public square of democratic discourse Foreword **On Cultivating Liberty** Michael
 Novak, 1999 On Cultivating Liberty brings together Novak s essays on moral ecology the ethos that must be cultivated and
 preserved if liberal democratic societies are to survive Novak argues in defense of a free and virtuous society by examining
 the family welfare reform free markets self government and the American Founding and includes a series of remarkable
 intellectual studies on figures ranging from Jacques Maritain to St Thomas Aquinas Along with a biographical essay and an
 introduction by Brian C Anderson On Cultivating Liberty is indispensable for anyone concerned about the future of
 democracy **The Public Order and the Sacred Order: Contemporary Issues, Catholic Social Thought, and the
 Western and American Traditions** Stephen M. Krason, 2009-05-20 The Public Order and the Sacred Order evaluates a

 and America s founding tradition It treats a wide range of topics including economics education free speech abortion church
 state relations American legal trends international politics Through discussions of these and other issues confronting
 contemporary American society author Stephen M Krason offers a scholarly social commentary suggests means for a
 reconstruction of sound social and political thought and calls for a renewal of American institutions politics and culture The
 book is structured in three parts Part I sets out foundational principles guided by Catholic social teaching philosophical
 reasoning Western political thought and the American founding Part II examines and evaluates the numerous issues in light
 of the principles set out in Part I and Part III provides approaches to the issues both general and specific policy ideas

 traditional Catholic approaches to the questions of our time the vast array of material covered makes this book an invaluable
 reference for anyone interested in contemporary politics **The Catholic Social Imagination** Joseph M.

Palacios,2008-11-15 The reach of the Catholic Church is arguably greater than that of any other religion extending across diverse political ethnic class and cultural boundaries But what is it about Catholicism that resonates so profoundly with followers who live under disparate conditions What is it for instance that binds parishioners in America with those in Mexico For Joseph M Palacios what unites Catholics is a sense of being Catholic a social imagination that motivates them to promote justice and build a better world In *The Catholic Social Imagination* Palacios gives readers a feeling for what it means to be Catholic and put one's faith into action Tracing the practices of a group of parishioners in Oakland California and another in Guadalajara Mexico Palacios reveals parallels and contrasts in the ways these ordinary Catholics receive and act on a church doctrine that emphasizes social justice Whether they are building a supermarket for the low income elderly or waging protests to promote school reform these parishioners provide important insights into the construction of the Catholic social imagination Throughout Palacios also offers important new cultural and sociological interpretations of Catholic doctrine on issues such as poverty civil and human rights political participation and the natural law

Living Justice Thomas Massaro,2000-06 Rooted in the life and ministry of Jesus and the message of the New Testament the Church proclaims Justice is constitutive of the Gospel Building upon the broad tradition of Catholic social teaching this third book in our popular Come See Series offers a fresh discussion of contemporary issues disarmament human rights the option for the poor Through Scripture Tradition world events and living examples of heroism and holiness ranging from the simple to the extraordinary *Living Justice* develops your understanding of Catholic social teaching and inspires you for service

Modern Catholic Social Teaching Joe Holland,2003 The impact of the industrial revolution on the social structures of industrialized nations posed a difficult challenge to the Catholic Church and its Popes In the struggle for human and economic status should the Church side with the new working class or with capitalist barons who along with the old aristocracy identified themselves as upholders of Christian civilization In this history of papal social teaching Joe Holland tells how the popes at first backed the status quo Then with the accession of Pope Leo XIII in 1878 a seismic shift took place Leo's encyclical *Rerum novarum* was the first authoritative Church voice to declare that laboring people have rights the right to fair wages to decent living conditions the right to organize labor unions and even to strike Henceforth the notion of civilization at least for the Church would be grounded in the lives and aspirations of working people *Modern Catholic Social Teaching* traces this historic shift as it played out in the writings of Leo and the popes who followed him Pius X Benedict XV Pius XI and Pius XII These popes supported Leo's encyclical and even elaborated it as European history experienced the emergen

OUR UNFINISHED BUSINESS Phillip Berryman,2013-02-20 What human ends are served by our economic policies To whom is what owed in our country today Is there an acceptable argument for just wars or for the proliferation of nuclear weapons In the final years of the Reagan era The U S Catholic bishops emerged as articulate sources of dissenting wisdom publicly testing our foreign and domestic policies against the principles of morality and humanity With the same succinct style of

Liberation Theology Phillip Berryman analyzes two recent and widely circulated texts the 1982 Challenge of Peace on nuclear arms and the 1986 Economic Justice For All Drawing on debate in and beyond church circles over these letters Berryman argues that as we search for acceptable answers to urgent political questions we must use ethical and moral traditions if we are to confront them squarely Only then can we promote peace and prosperity for all **Challenging the Modern World**

Samuel Gregg,2002-10-01 Moral theologian Samuel Gregg addresses issues surrounding the Pope s personal influence on developments in Catholic social teaching He compares the treatment of industrial relations capitalism and relations between developed and developing countries in John Paul s three social encyclicals with the handling of these three topics in the teachings of the Council and Paul VI arguing that John Paul s critical engagement with the modern world has contributed significantly to Catholic social teaching particular its moral anthropological dimensions Annotation copyrighted by Book News Inc Portland OR The Public Order and the Sacred Order Stephen M. O'Donoghue,Judith Harford,2021 For centuries the Catholic Church ran schools around the world but by the 20th century most countries had moved to a state school system Piety and Privilege shows Ireland as an exception with the state financing schools leaving the Church to promote practices aimed at salvation of souls and at the reproduction of a loyal middle class Listening for God Howard Lesnick,2007-08 Listening for God proceeds from the authors belief that across a wide spectrum of outlooks people are attracted to religion yet wary of it The book is intended to speak in an honest and reflective way to those who have conflicting feelings about religion and are put off by the needlessly polarized and blithely self assured style of much writing about it Grounded in his won religious tradition yet manifesting great respect and appreciation for other traditions Lesnick

recounts the odyssey of his own encounter with religion from a mild form of conventional adherence to Conservative Judaism as an adolescent to a long period of alienation from all religion to a gradual and deepening re engagement with Judaism through his sympathetic exposure to religions Lesnick articulates the ways in which the author has found it illuminating to turn to religion as an aid to discernment of moral truth rather than as a source of metaphysical knowledge or belief The God of which he speaks is both the repository of truth about moral life and force that draws him to struggle to discern and follow it The book offers the reader a bridge between apparent polarities too often found in the world and ourselves between emotion and reason experience and authority knowledge and belief faith and doubt ethics and ritual hope and despair Written by a teacher of law it asks where do moral imperatives come from and how do the answers found in religion and in law affect one another Listening for God is a record of and a grateful prayer for sustaining courage and hope in a fallen world

World Philosophies Ninian Smart,1999 World Philosophies is a comprehensive survey of the world's philosophical and religious traditions by one of our foremost religious thinkers Ninian Smart discusses notable figures such as Plato and Kierkegaard in the West the Buddha and Mao Zedong in Asia Tempels and Knibanga in Africa and Rodo and Royce in America Covering a wide range of topics including Indian ideas of testimony and evidence Chinese notions of moral development Buddhist concepts of cosmology and Latin American critiques of materialism Smart sheds new light on the astonishing diversity of philosophies that have developed throughout history **Debating God's Economy** Craig R. Prentiss,2010-11 What would a divinely ordained social order look like Pre labor unions class consciousness and economic power were the watchwords of the day This was a time of immense social change and especially in the light of the monumental social and economic upheavals in Russia and Europe in the early twentieth century Catholics found themselves taking sides Catholic subcultures across America sought to legitimize or in theological parlance sanctify diverse economic systems that were at times mutually exclusive While until now the faithful both scholars and nonscholars have typically spoken of the Catholic Social Tradition as if it were an established prescription for curing social ills Prentiss maintains that the tradition is better understood as a debate grounded in a common mythology that provides Catholics with a distinctive vocabulary and touchstone of authority *Three in One* Michael Novak,2001 Throughout his many writings Michael Novak one of the leading Catholic social theorists of our times has urged us to adopt a tripartite system of democratic capitalism including a market economy a democratic polity and a moral cultural system that would nourish the values and virtues on which free societies depend Three in One introduces the reader to Novak's portrait of democratic capitalism
