The Human Eros Thomas M. Alexander, 2013-07-01 The Human Eros explores themes in classical American philosophy primarily the thought of John Dewey but also that of Ralph Waldo Emerson George Santayana and Native American traditions Alexander's primary claim is that human beings have an inherent need to experience meaning and value a Human Eros Our various cultures are symbolic environments or spiritual ecologies within which the Human Eros seeks to thrive This is how

we inhabit the earth Encircling and sustaining our cultural existence is nature yet Western philosophy has not provided adequate conceptual models for thinking ecologically Alexander introduces the idea of eco ontology to explore ways in which this might be done beginning with the primacy of Nature over Being but also including the recognition of possibility and potentiality as inherent aspects of existence He argues for the centrality of Dewey s thought to an effective ecological philosophy Both pragmatism and naturalism he shows need to be contextualized within an emergentist relational nonreductive view of nature and an aesthetic imaginative nonreductive view of intelligence **Long March to Freedom**

Masculinity in Transition K. Allison Hammer, 2023-10-17 Locating the roots of toxic masculinity and finding its displacement in unruly culture *Masculinity in Transition* analyzes shifting relationships to masculinity in canonical works of twentieth century literature and film as well as in twenty first century media performance and transgender poetics Focusing on toxic masculinity which has assumed new valence since 2016 K Allison Hammer traces its roots to a complex set of ideologies embedded in the histories of settler colonialism racial capitalism and political fraternity and finds that while toxic strains of masculinity are mainly associated with straight white men trans and queer masculinities can be implicated in these systems of power Hammer argues however that these malignant forms of masculinity are not fixed and can be displaced by unruly alliances texts and relationships that reject the nationalisms and gender politics of white male hegemony and perform an urgently needed reimagining of what it means to be masculine Locating these unruly alliances in the writings performances and films of butch lesbians gay men cisgender femmes and trans and nonbinary individuals *Masculinity in Transition* works through an archive of works of performance art trans poetics Western films and streaming media global creative responses to HIV AIDS and working class and white trash fictions about labor and unionization *Masculinity in Transition* moves the study of masculinity away from an overriding preoccupation with cisnormativity whiteness and heteronormativity and toward a wider and more generative range of embodiments identifications and ideologies Hammer's bold rethinking of masculinity and its potentially toxic effects lays bare the underlying fragility of normative masculinity Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

A Most Uncertain Crusade Rowland Brucken, 2013-12-01 *A Most Uncertain Crusade* traces and analyzes the emergence of human rights as both an international concern and as a controversial domestic issue for US policy makers during and after World War II Rowland Brucken focuses on officials in the State Department at the United Nations and within

certain domestic non governmental organizations and explains why after issuing wartime declarations that called for the definition and enforcement of international human rights standards the US government refused to ratify the first UN treaties that fulfilled those twin purposes The Truman and Eisenhower administrations worked to weaken the scope and enforcement mechanisms of early human rights agreements and gradually withdrew support for Senate ratification A small but influential group of isolationist oriented senators led by John Bricker R OH warned that the treaties would bring about socialism destroy white supremacy and eviscerate the Bill of Rights At the UN a growing bloc of developing nations demanded the inclusion of economic guarantees support for decolonization and strong enforcement measures all of which Washington opposed Prior to World War II international law considered the protection of individual rights to fall largely under the jurisdiction of national governments Alarmed by fascist tyranny and guided by a Wilsonian vision of global cooperation in pursuit of human rights President Roosevelt issued the Four Freedoms and the Atlantic Charter Behind the scenes the State Department planners carefully considered how an international organization could best protect those guarantees Their work paid off at the 1945 San Francisco Conference which vested the UN with an unprecedented opportunity to define and protect the human rights of individuals After two years of negotiations the UN General Assembly unanimously approved its first human rights treaty the Genocide Convention The UN Commission on Human Rights UNCHR led by Eleanor Roosevelt drafted the nonbinding Universal Declaration of Human Rights in 1948 Subsequent efforts to craft an enforceable covenant of individual rights though bogged down quickly A deadlock occurred as western nations communist states and developing countries disagreed on the inclusion of economic and social guarantees the right of self determination and plans for implementation Meanwhile a coalition of groups within the United States doubted the wisdom of American accession to any human rights treaties Led by the American Bar Association and Senator Bricker opponents proclaimed that ratification would lead to a U N led tyrannical world socialistic government The backlash caused President Eisenhower to withdraw from the covenant drafting process Brucken shows how the American human rights policy had come full circle Eisenhower like Roosevelt issued statements that merely celebrated western values of freedom and democracy criticized human rights records of other countries while at the same time postponed efforts to have the UN codify and enforce a list of binding rights due in part to America s own human rights violations

Social Ethics in the Making Gary Dorrien, 2011-04-06 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self styled public

intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award The Captive's Quest for Freedom R. J. M. Blackett, 2018-01-25 Examines the impact fugitive slaves had on the Fugitive Slave Law and the coming of the American Civil War On the rights and duties of nations in time of war Sir Travers Twiss, 1863 Freedom in America William Muir, 2011-07-11 If you want students to really understand the concept of power moving beyond a survey book's quick discussion of Laswell's who gets what and how Muir's thoughtful *Freedom in America* might be the book for you Exploring the words and ideas of such thinkers as Madison Jefferson Hamilton and Tocqueville Muir discusses the nature and limits of three types of power coercive reciprocal and moral and then uses this framework to explain how American political institutions work If looking for an alternative to a long survey text or itching to get students grappling with *The Federalist Papers* or *Democracy in America* with more of a payoff Muir's meditation on power and personal freedom is a gateway for students to take their study of politics to the next level His inductive style engaging students with well chosen and masterfully written stories lets him draw out and distill key lessons without being preachy Read a chapter and decide if this page turner is for you Stumbling over the Cross Joni S. Sancken, 2016-04-21 It has never been easy to preach about the cross and resurrection of Jesus but difficulties today are particularly challenging Hearers ask tough questions of the church and the Christian faith and they are not satisfied by formulaic answers People are often suspicious of doctrine and are attracted to a broad but vague or pluralistic spirituality rather than the classical claims of Christianity In this climate preachers often see preaching on the central events of the Christian story the crucifixion and resurrection as more of a problem than a possibility more of a burden than a joy They wonder not only how to preach the old old story of cross and resurrection but whether they should preach these themes at all This book addresses these concerns and shows preachers how to preach the cross and resurrection in fresh culturally relevant ways that deepen Christian discipleship Each chapter shows the relevance of preaching the cross for addressing a particular congregational concern What has ironically become a stumbling block in the pulpit the stone that preachers often reject preaching on the cross and resurrection of Jesus can serve as the cornerstone for building up the congregation for discipleship in our world *The Development of the Principles of Insurance Law in the Netherlands from 1500 to 1800* J. P. Van Niekerk, 1998 Published in two volumes the first part of this title covers the origin recognition and distinguishing features of the insurance contract The second part details the principles of pre-codified Dutch insurance law from general requirements to the termination of insurance contracts **Winning Is Everything** Tony Hart, 2010-11 Enjoyable inspiring profitable and immensely encouraging here is a book that everyone can enjoy Tony Hart does an excellent job to lift up one's spirits in the midst of troubles The book is well illustrated easy to read and you won't want to put it down Alexander Strauch Author of *Biblical Eldership*
