A Catalogue of Valuable Books by D.H. Lawrence ,1950 [The American Lawrence](#) Lee M. Jenkins, 2021-01-18

Reassessing Lawrence s relationship to American modernism and his American literary contemporaries Jenkins offers new insights into the literary exchange between America and Europe *D. H. Lawrence and Ambivalence in the Age of*

Modernity Gaku Iwai, 2024-05-01 D H Lawrence is renowned for his scathing criticism of the ruling class industrialisation of the country and wartime patriotism However his texts bear the imprint of contemporary dominant ideologies and discourses

of the period Comparing Lawrence's texts to various major and minor contemporary novels journal articles political pamphlets and history books this book aims to demonstrate that Lawrence's texts are ambivalent his texts harbour the dynamism of conflicting power struggles between the subversive and the reactionary For example in some apparently apolitical texts such as *The White Peacock* and *Movements in European History* reactionary ideologies and wartime propaganda are embedded Some texts like *Lady Chatterley's Lover* are intended to be a radical critique of the period wherein it was composed but they also bear discernible traces of the contemporary frame of reference that they intend to subvert Focusing on Lawrence's stories and novels set in the mining countryside and the works composed under the impact of the First World War this book establishes that Lawrence's texts in fact consist of multiple layers that are often in conflict with each other serving as a testimony to the age of modernity

The Last Poems of D.H. Lawrence Bethan Jones, 2016-03-03 In the first book to take D H Lawrence's Last Poems as its starting point Bethan Jones adopts a broadly intertextual approach to explore key aspects of Lawrence's late style The evolution and meaning of the poems are considered in relation to Lawrence's prose works of this period including *Sketches of Etruscan Places* *Lady Chatterley's Lover* and *Apocalypse* More broadly Jones shows that Lawrence's late works are products of a complex process of textual assimilation as she uncovers the importance of Lawrence's reading in mythology cosmology primitivism mysticism astronomy and astrology The result is a book that highlights the richness and diversity of his poetic output also prioritizing the masterpieces of Lawrence's mature style which are as accomplished as anything produced by his Modernist contemporaries
