**Collected Sacred Works** Jean Maillard, 2012-01-01     *Painting Music in the Sixteenth Century* H. Colin Slim, 2024-10-28 Professor Slim deals here with the several roles that music can play in the artworks of the Renaissance looking in particular at Italian painting of the 16th century For understandable reasons art historians sometimes neglect the role of music and especially that of musical notation when studying works of art These studies not only identify musical compositions wholly or partially inscribed in paintings and tapestries ceramics prints as well but also seek reasons why these particular musical compositions were included and analyse their relevance to the scene depicted Furthermore as many of these studies show identifying a musical composition especially if it has a text leads to the formation of ideas about

iconographical functions and thus augments interpretations of the visual art      Syntagma Musicum III Michael Praetorius, 2004-03-18 Michael Praetorius 1571-1621 was one of the most versatile wide ranging and prolific German composers of the seventeenth century Also important as a theorist his *Syntagma Musicum* penned around 1619 was originally planned in four parts He completed only three with the first discussing the place of music in the church while Volume II focused on musical instruments Volume III deals with terminology theoretical issues and performance practice More than any other source from this period Volume III provides the most thorough coverage of performance practice issues of the late sixteenth and early seventeenth centuries It offers detailed commentary about the performance of particular pieces of music including many of Praetorius's own as well as those by Lassus Gabrieli Monteverdi and Schütz Throughout Praetorius offers immensely practical insights on numerous topics such as the definition and classification of vocal forms the names and characteristics of instruments arrangement of large scale works for multiple choirs description of ligatures use of proportions time signatures transposition teaching the Italian manner of singing the types of ornamentation used in Italy in the first two decades of the seventeenth century and much more Praetorius is the most often quoted and excerpted writer on performance practice In this translation musicologist and early music practitioner Jeffery T.
