Segregation Carl H. Nightingale, 2012-05-01 When we think of segregation what often comes to mind is apartheid South Africa or the American South in the age of Jim Crow two societies fundamentally premised on the concept of the separation of the races But as Carl H Nightingale shows us in this magisterial history segregation is everywhere deforming cities and societies worldwide Starting with segregation's ancient roots and what the archaeological evidence reveals about humanity's long standing use of urban divisions to reinforce political and economic inequality Nightingale then moves to the world of European colonialism It was there he shows segregation based on color and eventually on race took hold the British East India Company for example split Calcutta into White Town and Black Town As we follow Nightingale's story around the globe we see that division replicated from Hong Kong to Nairobi Baltimore to San Francisco and more The turn of the twentieth century saw the most aggressive segregation movements yet as white communities almost everywhere set to rearranging whole cities along racial lines Nightingale focuses closely on two striking examples Johannesburg with its state sponsored separation and Chicago in which the goal of segregation was advanced by the more subtle methods of real estate markets and housing policy For the first time ever the majority of humans live in cities and nearly all those cities bear the scars of segregation This unprecedented ambitious history lays bare our troubled past and sets us on the path to imagining the better more equal cities of the future

Mobilizing Memory Dónal Hassett, 2019 Over the course of the First World War a quarter of million settlers and subjects from the French colony of Algeria crossed the Mediterranean to fight with in the forces of the Empire a mass mobilization which transformed politics in the colony as well as the social and economic demands of Algeria's

citizens      *Colonial Food in Interwar Paris* Lauren Janes, 2016-02-25 In the wake of the First World War in which France suffered severe food shortages colonial produce became an increasingly important element of the French diet The colonial lobby seized upon these foodstuffs as powerful symbols of the importance of the colonial project to the life of the French nation But how was colonial food really received by the French public And what does this tell us about the place of empire in French society In *Colonial Food in Interwar Paris* Lauren Janes disputes the claim that empire was central to French history and identity arguing that the distrust of colonial food reflected a wider disinterest in the empire From Indochinese rice to North African grains and tropical fruit to curry powder this book offers an intriguing and original challenge to current orthodoxy about the centrality of empire to modern France by examining the place of colonial foods in the nation's capital

Cuffel, 2007-04-16 This book compares shifting formulations of gender interfaith and ethnic relations across continents from antiquity to the Nineteenth century Contributors address three areas depictions of homosexual and transgendered behaviours conceptualizations of femininity and masculinity and the marriageability of ethnic and religious minorities      The Cambridge History of the First World War: Volume 3, Civil Society Jay Winter, 2014-01-09 Volume 3 of *The Cambridge History of the First World War* explores the social and cultural history of the war and considers the role of civil society throughout the conflict that is to say those institutions and practices outside the state through which the war effort was waged Drawing on 25 years of historical scholarship it sheds new light on culturally significant issues such as how families and medical authorities adapted to the challenges of war and the shift that occurred in gender roles and behaviour that would subsequently reshape society Adopting a transnational approach this volume surveys the war's treatment of populations at risk including refugees minorities and internees to show the full extent of the disaster of war and with it the stubborn survival of irrational kindness and the generosity of spirit that persisted amidst the bitterness at the heart of warfare with all its contradictions and enduring legacies      **Native to the**

**Republic** Minayo Nasiali, 2016-10-20 In *Native to the Republic* Minayo Nasiali traces the process through which expectations about living standards and decent housing came to be understood as social rights in late twentieth century France These ideas evolved through everyday negotiations between ordinary people municipal authorities central state bureaucrats elected officials and social scientists in postwar Marseille Nasiali shows how these local level interactions fundamentally informed evolving ideas about French citizenship and the built environment namely that the institutionalization of social citizenship also created new spaces for exclusion Although everyone deserved social rights some were supposedly more deserving than others From the 1940s through the early 1990s metropolitan discussions about the potential for town planning to transform everyday life were shaped by colonial and later postcolonial migration within the changing empire As a port and the historical gateway to and from the colonies Marseille's interrelated projects to develop welfare institutions and manage urban space make it a particularly significant site for exploring this uneven process Neighborhood debates about the

meaning and goals of modernization contributed to normative understandings about which residents deserved access to expanding social rights Nasiali argues that assumptions about racial social and spatial differences profoundly structured a differential system of housing in postwar France Native to the Republic highlights the value of new approaches to studying empire membership in the nation and the welfare state by showing how social citizenship was not simply constituted within imagined communities but also through practices involving the contestation of spaces and the enjoyment of rights
