

The background is a complex collage of geometric shapes, primarily triangles and rectangles, in black, white, red, and yellow. Various symbols are scattered throughout, including a fleur-de-lis, a five-pointed star, a fleur-de-bise, and a stylized 'Y' or 'T' shape. The text is overlaid on this pattern.

French Enigma Survival And Development In Canadas Francophone Societies:

The French Enigma Robert A. Stebbins, 2000 **Canada's Francophone Minority Communities** Michael Derek Behiels, 2004

By the late 1950s Canada's Francophone and Acadian minority communities were in rapid decline. Demographic, economic, socio-cultural, institutional, and political factors that had sustained both the concept and the reality of French Canada for well over a century were being eliminated or transformed at an unprecedented rate. To survive, these beleaguered minority communities set out to conquer the challenges of rebuilding their provincial and national organizations, training a new generation of leaders, redefining their respective provincial and national identities, elaborating new political and constitutional policies and strategies for survival and expansion, and then defending and securing full implementation of these policies and strategies. Growth of their communities revitalized Francophone organizations, and leaders lobbied for constitutional entrenchment of official bilingualism and of a mandated Charter right to education in their own language, including the right to governance over their own schools and school boards. Having achieved their objectives in the 1982 Charter of Rights and Freedoms, Francophone provincial and national leaders learned the techniques of micro-constitutional politics to convince the Ontario, Alberta, and Manitoba provincial governments to implement full and unfettered school governance by and for Francophone minority communities, a collectivist and remedial interpretation to the Charter's official language minority education rights section 23. The Canadian government assisted the Francophone minority in two ways: it made funds available to Francophone organizations and parents via the Court Challenges program, and it signed lucrative financial agreements with the provinces to help defray the additional costs of establishing French language schools and school boards. While the Francophone minority communities were pursuing implementation of their section 23 Charter rights, they found themselves drawn into the mega constitutional negotiations and ratification procedures surrounding the controversial Meech Lake Constitutional Accord (1987-90) and the omnibus Charlottetown Consensus Report (1990-92). During the Quebec Provincial Round, their Charter rights remained intact when the Meech Lake Accord failed to obtain ratification. Conception of a pan-Canadian cultural and linguistic duality which helped minimize the constitutional and political impact of the Quebec government's insistence upon a territorial conception of duality that is an asymmetrical Canada-Quebec federation. When Canadians rejected the Charlottetown deal, neither conception achieved formal constitutional recognition. Nevertheless, Canada's Francophone minority communities were regenerated by the intertwined developments of constitutional renewal and their winning of school governance. A new vigorous Francophone pan-Canadian national community emerged, one capable of ensuring the survival of its constituents' communities well into the 21st century.

Exploratory Research in the Social Sciences Robert A. Stebbins, 2001-05-14

Robert Stebbins addresses an area of social science that receives scant attention: exploration as a methodological process. The author emphasises its importance, then leads the reader through the process in a highly readable way. *The Mortality and Morality of Nations* Uriel

Abulof,2015-07-24 Standing at the edge of life's abyss we seek meaningful order We commonly find this symbolic immortality in religion civilization state and nation What happens however when the nation itself appears mortal The Mortality and Morality of Nations seeks to answer this question theoretically and empirically It argues that mortality makes morality and right makes might the nation's sense of a looming abyss informs its quest for a higher moral ground which if reached can bolster its vitality The book investigates nationalism's promise of moral immortality and its limitations via three case studies French Canadians Israeli Jews and Afrikaners All three have been insecure about the validity of their identity or the viability of their polity or both They have sought partial redress in existential self-legitimation by the nation of the nation and for the nation's very existence Canadian Society Harry H.
