*French Lovers* Joseph Barry, 1987 A bestseller in France this book traces a wholly original path through Western attitudes towards love from medieval times to our own The story of liberated Heloise and the ill fated Abelard begins the journey and the seemingly modern Sartre and his feminist lover Simone Beauvoir end it **Emilie du Châtelet between Leibniz and Newton** Ruth Hagengruber, 2011-10-29 Emilie du Châtelet was one of the most influential woman philosophers of the Enlightenment Her writings on natural philosophy physics and mechanics had a decisive impact on important scientific debates of the 18th century Particularly she took an innovative and outstanding position in the controversy between Newton and Leibniz one of the fundamental scientific discourses of that time The contributions in this volume focus on this Leibnizian turn They analyze the nature and motivation of Emilie du Châtelet's synthesis of Newtonian and Leibnizian philosophy Apart from the *Institutions Physiques* they deal with Emilie du Châtelet's annotated translation of Isaac Newton's *Principia* The chapters presented here collectively demonstrate that her work was an essential contribution to the mediation between empiricist and rationalist positions in the history of science *Dreams of Love and Fateful Encounters* Ethel S. Person, 2007-04-02 This groundbreaking study has been widely hailed for its focus on a human emotion generally considered impervious to rational analysis romantic passionate love Ethel Person views romantic love as a powerful agent of change arguing that it is as central to human culture as it is to human existence This new edition of *Dreams of Love and Fateful Encounters* emphasizes the relevance of passion not only to lovers but also to mental health professionals whose patients often enter treatment because of love related issues from the inability to love or make a commitment to the perils of extramarital love to love sickness or loss of love She forthrightly addresses not only the power of love to unlock the soul but also its inherent paradoxes and conflicts Employing a philosophical perspective in order to understand the existential dilemmas posed by love and a cultural perspective in order to understand its cultural variability Dr Person breaks with contemporary intellectual and philosophical dismissive assumptions about romantic love She acknowledges love's vital importance and power proposing that passion serves an important function not only for the individual but also for the culture while charging psychoanalysis with a reductionist emphasis on sexuality and psychopathology that has narrowed the focus of inquiry into love Among the issues she discusses are romantic love's sources in our early lives its relationship to imagination and creativity and its capacity to enable the lover to transcend the self how romantic love often demands a reordering of values and promotes personal growth by exposing the self to new risks and possibilities the transformational potential of transference love in the therapy process flaws in the common misperception that women are more influenced by romantic love than men considerations of homosexual love love across generations and love triangles focusing on the individual growth that can result from such relationships Citing accounts of love drawn from literature film and real life Person focuses on the lover's internal soliloquy and external dialogue with the beloved that can develop over an individual's life An uplifting
