French Popular Lithographic Imagery 181:

French Popular Lithographic Imagery, 1815-1870 Beatrice Farwell, 1981 *French Popular Lithographic Imagery, 1815-1870: Piety and the family* Beatrice Farwell, 1981 **The Invention of the Model** Susan Waller, 2017-07-05 Although mastery of the representation of the human figure was central to art making as early as the fifteenth century in Europe in the nineteenth century French imagination the artist's model became identified as a distinct social type and cultural trope This study of the artist's model in Paris between 1830 and 1870 incorporates three histories a social history of professional models a cultural history of models as social types and an art history of representations of the model in elite and popular visual culture It takes as its starting point the artist model transaction demonstrating that stereotypes of the model that figured in the public imagination were framed both by gender and ethnicity the book develops a nuanced typology of different types of models Interwoven with the analysis of the constructed identities of models are accounts of the lives of particular models and the histories of the urban population groups from which they emerged *The Invention of the Model Artists and Models in Paris 1830 1870* is an adept exploration of a major issue in nineteenth century art which will be of interest not only to art historians but also to social and French cultural historians *Picturing Children* Marilyn R. Brown, 2017-07-05 The representation of children in modern European visual culture has often been marginalized by Art History as sentimental and trivial For this reason the subject of childhood in relation to art and its production has largely been ignored Confronting this dismissal this unique collection of essays raises new and unexpected issues about the formation of childhood identity in the nineteenth century and makes a significant contribution to the development of interdisciplinary studies within this area Through a range of stimulating and insightful case studies the book charts the development of the Romantic ideal of childhood starting with Rousseau's *Emile* and attends to its visual social and psychological transformations during the historical period from which Freud's psychoanalytic theories eventually emerged Foremost scholars such as Anne Higonnet Carol Mavor Susan Casteras and Linda A Pollock uncover the means by which children became an important conduit for prevailing social anxieties and demonstrate that the apparently timeless images of them that proliferated at the time should be understood as complex cultural documents Over 50 illustrations enhance this rich and fascinating volume *Nineteenth-century French Studies*, 1981 **Art Books 1980-1984** R.R. Bowker Company, 1985 *Art Books*, 1950 Including an international directory of museum permanent collection catalogs *A Bibliography of Sources in Christianity and the Arts* Daven Michael Kari, 1995 Works have been selected primarily for their utility to those conducting research in the fine arts relating to Christianity and religion General categories covered include bibliographies of bibliographies aesthetics architecture cinema dance and mime drama and rhetoric electronic communications radio TV and video fabric arts literature music photography visual arts calligraphy to sculpture wit and humor **Subject Catalog, 1982** Library of Congress, 1982 **French Images from the Greek War of Independence**

(1821-1830) Nina Athanassoglou-Kallmyer, Nina M. Athanassoglou-Kallmyer, 1989-01-01 The Greek struggle against Ottoman rule was a crucial event in the history and politics of nineteenth century Europe In particular it had a strong impact on the political and cultural life of France during the Bourbon Restoration where it was appropriated and promoted as the symbolic spearhead of liberal ideas and of the growing Romantic rebellion This book by Nina Athanassoglou Kallmyer examines the French paintings prints and sculptures inspired by the Greek War of Independence Athanassoglou Kallmyer reinterprets important works by the foremost exponents of the Romantic movement including Delacroix Gericault Horace Vernet Ary Scheffer and David d Angers showing how they viewed the Greek struggle as a setting for the opposing forces of conservatism and liberalism She explains that far from being mere pictorial records of specific war episodes such as the massacre at Chios or the fall of Missolonghi images of the clashes between Greeks and Turks reflected the mottos and arguments of the French liberal propaganda echoed as well by contemporary newspapers parliamentary debates broadsides pamphlets popular plays and poems Subject Catalog Library of Congress, **Fine Lithographs and Etchings by 19th and 20th Century French and German Masters** William Weston Gallery, 1993 Books in Print Supplement, 1988

Picturing War in France, 1792-1856 Katie Hornstein, 2018-02-06 From the walls of the Salon to the pages of weekly newspapers war imagery was immensely popular in postrevolutionary France This fascinating book studies representations of contemporary conflict in the first half of the 19th century and explores how these pictures provided citizens with an imaginative stake in wars being waged in their name As she traces the evolution of images of war from a visual form that had previously been intended for mostly elite audiences to one that was enjoyed by a much broader public over the course of the 19th century Katie Hornstein carefully considers the influence of emergent technologies and popular media such as lithography photography and panoramas on both artistic style and public taste With close readings and handsome reproductions in various media from monumental battle paintings to popular prints *Picturing War in France 1792 1856* draws on contemporary art criticism war reporting and the burgeoning illustrated press to reveal the crucial role such images played in shaping modern understandings of conflict **A Critical History of French Children's Literature** Penny Brown, 2007 Bibliographic Index, 1997 *Historical Abstracts*, 1984 **Pierre Bonnard, the Graphic Art** Pierre Bonnard, Colta Feller Ives, Helen Emery Giambruni, Sasha M. Newman, Museum of Fine Arts, Houston, Museum of Fine Arts, Boston, 1989 *Tentoonstellingscatalogus Met bibliografie en register* Old Master Prints and Drawings Carlo James, Marjorie B. Cohn, 1997 This long awaited English edition of *Manuale per la conservazione e il restauro di disegni e stampe antichi* 1991 offers a clear and complete manual for the preservation and conservation of old master prints and drawings The authors throw light on the historical and scientific backgrounds concerning the problems of restoration techniques of arts on paper from 1150 when paper was first introduced in Europe until the middle of the nineteenth century The book is indispensable for anyone occupied with the study and conservation of old prints and drawings This richly

illustrated first English edition is revised and brought fully up to date **Manet/Velázquez** Gary Tinterow, Geneviève Lacambre, Metropolitan Museum of Art (New York, N.Y.), Musée d'Orsay, 2003 Here approximately two hundred works by French and Spanish artists chart the development of this cultural influence and map a fascinating shift in the paradigm of painting from Idealism to Realism from Italy to Spain from Renaissance to Baroque Above all these images demonstrate how direct contact with Spanish painting fired the imagination of nineteenth century French artists and brought about the triumph of Realism in the 1860s and with it a foundation for modern art BOOK JACKET
