W. Brogan,1960 [The French Nation from Napoleon to Petain: 1814-1940](#) D. W. Brogan,1957 [French National Cinema](#) Susan Hayward,2006-09-07 This examination of France s national cinema takes its primary artefact the feature film and discusses both popular cinema and the avant garde cinema that contests it Susan Hayward argues that writing on French national cinema has tended to focus on either great film makers or on specific movements addressing moments of exception rather than the global picture Her work offers a thorough and much needed historical textualisation of those moments and relocates them them in their wider political and cultural context Beginning with an ecohistory of the French film industry she then traces the various movements in French cinema and the directors associated with them including the avant garde Poetic Realist New Wave and today s postmodern cinema Her analysis includes amongst other considerations the social and political concerns these cinemas reflect [French Caesarism from Napoleon I to Charles de Gaulle](#) Philip Thody,1989-07-31 **The Origins of the French Nationalist Movement, 1886-1914** Robert Lynn Fuller,2014-01-10 This narrative history explores the emergence of one of the most influential Nationalist movements of modern Europe It explains how and why the movement united the far right with the far left in a militant campaign to wrest control of France from the moderate republicans who were attempting to stabilize the country after a century of political volatility The agitation groups propaganda machines street fighting gangs and political hustlers who made up the Nationalists all campaigned for one end to overthrow the Third Republic The eruption of the Dreyfus Affair 1894 1899 provided the Nationalists with a convenient target for their assaults the Dreyfusard defenders of a wrongly convicted Jewish army captain Alfred Dreyfus This work based on original archival research in France argues that the Nationalists posed a real and dangerous threat that dissipated only when their goals were adopted by more moderate competing groups [France 1814 - 1914](#) Robert Tombs,2014-09-25 Here is an incomparably rich portrait of France in the years when the disparate elements that made up the fragmented kingdom of the ancien regime were forged into the modern nation The survey begins with an exploration of national obsessions and attitudes It considers the tendency to revolution and

war the preoccupation with the idea of a New Order and the deep strain of national paranoia that was to be intensified by the dramatic debacle of the Franco Prussian War Robert Tombs then investigates the structures of power and in Part Three he turns his attention to social identities from the individual and family to the nation at large When every aspect of the period has been put under the microscope Robert Tombs draws them all into the broad political narrative that brings the book to its rousing conclusion Bursting with life as well as learning this is quite simply a tour de force **Aspects of European**

History 1789-1980 Stephen J. Lee,2008-01-28 Stephen Lee charts the most commonly encountered topics of nineteenth and twentieth century European history from the origins of the French Revolution through the social and political reforms of the last two centuries to the present The French Nation from Napoleon to Pétain, 1814-1940 Brogan (Sir Denis William),1957

The French Nation Denis William Brogan,1957 **The Past in French History** Robert Gildea,1996-01-01 This fascinating book examines how the past pervades French public life how the French both commemorate their past triumphs heroes and martyrs and attempt to erase the more violent events in their history The book surveys the ways that various political communities in France during the past two centuries have manufactured different versions of the past in order to define their identities and legitimate their goals Beginning with a discussion of the bicentenary of the French Revolution in 1989 Robert Gildea moves backward in time to show how rival factions have used various elements of French political culture from the grandeur of the ancien régime to Catholicism Jacobinism Anarchism and Bonapartism to further their ends Gildea shows how proponents of revolution and counterrevolution church and state centralism and regionalism and national identity and nationalism campaigned to achieve the widest possible acceptance of their own view of the past He describes the continuing battle between Left and Right for association with national heroes such as Joan of Arc and Napoleon He exposes the reworking of collective views of the past by political communities in order to increase or recover political legitimacy Written in clear and trenchant prose the book offers a new perspective on French history and political culture The French Nation John G. Kemeny,1961 *A Compendium of World Sovereigns: Volume III Early Modern* Timothy Venning,2023-06-30 The Compendium of World Sovereigns series contains three volumes Ancient Medieval and Early Modern These volumes provide students with easy to access who's who with details on the identities and dates ages and wives where known of heads of government in any given state at any time within the framework of reference The relevant original and secondary sources are also listed in a comprehensive bibliography Providing a clear reference guide for students to who was who and when they ruled in the dynasties and other ruler lists for the Ancient Medieval and Early Modern worlds primarily European and Middle Eastern but including available information on Africa and Asia and the pre Columbian Americas The trilogy accesses and interprets the original data plus any modern controversies and disputes over names and dating reflecting on the shifts and widening of focus in student and academic studies Each volume contains league tables of rulers records and an extensive bibliographical guide to the relevant personnel and dynasties plus any controversies so
