Haunting the World Dominic Lash, 2025-07-01 Argues that the experience of the ordinary film viewer and the investigations of the film scholar or film philosopher are not necessarily so far apart In Haunting the World Dominic Lash tries to show that taking films seriously in no way interferes with the pleasure we get from watching them The book draws its title from the philosopher Stanley Cavell who saw haunting the world as something we are all prone to and who claimed that cinema s relationship with this tendency is both an importance and a danger of film Specifically Lash proposes that the work of Cavell and of the critic and scholar V F Perkins have valuable lessons to offer contemporary film studies some of which are in danger of being neglected Written in a lively and approachable style that makes philosophical ideas accessible without simplifying them the book argues that film theory risks going awry when it dismisses or underestimates the experience of the ordinary film viewer Haunting the World offers fresh accounts of fundamental topics including description experience and agency and examines in detail important films by Ildik Enyedi Paul Thomas Anderson Ridley Scott Werner Herzog Andrei Tarkovsky Kelly Reichardt and more

The Guardians in Action William H. F. Altman, 2016-03-17 If you ve ever wondered why Plato staged Timaeus as a kind of sequel to Republic or who its unnamed missing fourth might be or why he joined Critias to Timaeus and whether or not that strange dialogue is unfinished or what we should make of the written critique of writing in Phaedrus and of that dialogue s apparent lack of unity or what is the purpose of the long discussion of the One in the second half of Parmenides and how it relates to the objections made to the Theory of Forms in its first half or if the revisionists or unitarians are right about Philebus and why its Socrates seems less charming than usual or whether or not Cratylus takes place after Euthyphro and whether its far fetched etymologies accomplish any serious philosophical purpose

or why the philosopher Socrates describes in the central digression of Theaetetus is so different from Socrates himself then you will enjoy reading the continuation of William H F Altman s Plato the Teacher The Crisis of the Republic Lexington 2012 where he considers the pedagogical connections behind the post Republic dialogues from Timaeus to Theaetetus in the context of the Reading Order of Plato s dialogues

Weaving Words into Worlds Caroline Durand-Rous,Margot Lauwers,2023-10-10 Weaving Words into Worlds comes as the third spinoff of the international ecopoetics conference organized in Perpignan in 2016 Reflecting upon how the many stories we tell directly influence the world we live in each of the contributions in this international volume directs our attention to the constant ecopoetic weaving of word to the world at work via the many entanglements between mind matter and meaning whether on a local or a global scale It encapsulates how the words stories and concepts we humans articulate as we try to make sense of the world we inhabit give part of its shape to the web of ecological relations that we depend on for survival It seeks to cast light on the disenchanting and reenchancing powers of stories and poesis in general as stories retain the power to make us either become oblivious to and destroy or to feel and honor the many complex ties between the multitudinous nature cultures intertwined within the fabric of a multispecies world always in the making This book offers a total of fourteen articles written by international scholars in ecocriticism and ecopoetics who by their

analyses of literature and or films and the political subtext they thus render visible aim at showing how the study of environmentally minded media may renew our attention to the entangled agencies of the human and the more than human realm Thus this work offers to counter a reproach ecocriticism has often been met with namely the over presence of US scholars and the lack of diversity in subjects in the field since the articles presented provide a wide variety of approaches and topics with examples of UK and Native American literature Polynesian myth graphic novels or haiku In doing so the book expands on the fields of ecocriticism and ecopoetics adding to this branch of study and enriching it with high quality academic studies
