Carl Gustav Jung J. Sherry, 2010-10-25 Carl Gustav Jung has always been a popular but never a fashionable thinker His ground breaking theories about dream interpretation and psychological types have often been overshadowed by allegations that he was anti Semitic and a Nazi sympathizer Most accounts have unfortunately been marred by factual errors and quotes taken out of context this has been due to the often partisan sympathies of those who have written about him This book provides a more accurate and comprehensive account of Jung's controversial opinions about art politics and race
