Freud On Sublimation:

Freud on Sublimation Volney P. Gay, 1992-09-01 This book is the only full length treatment of the relationship between aesthetic truths and psychoanalytic discoveries of art artists and a new concept of sublimation It provides a radical and unique study of the concept of sublimation and proposes a modest replacement for it In the first third of the book the author reviews critically the psychoanalytic sources of the concept of sublimation In the second third he shows how the concept developed from Freud s nineteenth century notions of perception In the last third he revises a concept of sublimation using a contemporary theory of perception In the final chapter he examines four works of literature short stories of John Cheever a Japanese novel portions of Hamlet and sublimation and perversion in Orson Welles Citizen Kane Freud's Literary Culture Graham Frankland, 2000-06-05 This original study investigates the role played by literature in Sigmund Freud s creation and development of psychoanalysis Graham Frankland analyses the whole range of Freud s own texts from a literary critical perspective providing a comprehensive reappraisal of his life s work Freud was steeped in classical European literature but seems initially to have repressed all literary influences on his scientific work Frankland traces their re emergence examining in detail Freud s many literary allusions and quotations as well as the rhetoric and imagery of his writing He explores Freud s own attempts at analysing literature the influence of literary criticism on his approach to analysing patients and his creation of psychoanalytical novels quasi literary fictions fraught with profoundly personal subtexts Freud s Literary Culture sheds new light on a multi faceted contradictory writer who continues to have an unparalleled impact on our postmodern culture precisely because he was so deeply rooted in European literary tradition *The Corsini Encyclopedia of Psychology, Volume 4* Irving B. Weiner, W. Edward Craighead, 2010-01-19 Psychologists researchers teachers and students need complete and comprehensive information in the fields of psychology and behavioral science The Corsini Encyclopedia of Psychology Volume Four has been the reference of choice for almost three decades This indispensable resource is updated and expanded to include much new material It uniquely and effectively blends psychology and behavioral science The Fourth Edition features over 1 200 entries complete coverage of DSM disorders and a bibliography of over 10 000 citations Readers will benefit from up to date and authoritative coverage of every major area of psychology Sublimation Hans W. Loewald, 1988 In psychoanalytic theory sublimation the process of expressing instinctual impulses in constructive socially acceptable forms is a central yet poorly understood psychic process The eminent psychoanalyst Hans W Loewald here offers a provocative new examination of sublimation After reviewing the writings of Freud Fenichel Hartmann Winnicott and Kris on sublimation Dr Loewald presents his own ideas In his attempt to disentangle sublimation from other concepts with which it is often confused he examines it within three contexts as reconciliation as defense and as symbolic expression He establishes a strong case for the undifferentiated quality of early life a time of unselfconscious unity prior to awareness of self or other Sublimation according to Dr Loewald is an act of instinctual expression derived from this early pre differentiated period Dr Loewald s

inquiry leads to a reexamination and revision of basic psychoanalytic theory relating to instincts symbolism motivation ego development and various emotional processes This is a new and highly thought provoking approach to an understanding of the phenomena of sublimation A Scott Dowling M D Case Western Reserve University This book is not only a profound consideration of the nature of sublimation a subject of excruciating importance for humans it is a summarizing statement encompassing the whole work of a great psychoanalyst Vann Spruiell M D Tulane University

Eros and Creativity in Russian Religious Renewal Anna Lisa Crone, 2010 Eros and Creativity in Russian Religious Renewal explores a tradition of sublimation and the theories of creativity in works of the four greatest Russian religious thinkers Solovyov Rozanov Berdyaev and Vysheslatsev Crone s study adds what is missing to the few books that currently exist about the use of psychoanalysis in Russia It shows how the sexual theories of creativity sublimation of Solovyov and Rozanov led to the concepts of Berdyaev and Vysheslatsev

Freud's Concept of Repression and Defense Madison, *Women and Sacrifice* William Beers, 1992 Women and Sacrifice is an original and lucid book that explores the anthropology and developmental psychology of male violence in blood sacrifice and its implications in religion and culture It is the first comprehensive study of the psychology of gender and religion using the controversial ideas of Heinz Kohut and self psychology Beers not only makes an important contribution to our psychological understanding of sacrifice he explores how narcissistic anxiety fuels rituals and social structures that subordinate women He bases his provocative theory on three general premises sacrifice is traditionally performed only by men the gender specificity of sacrifice can be traced to gender specific developments of men and women and is reflected in religions throughout the world and the male violence of sacrifice is related to other forms of male violence Beers reviews the theories of symbol formation of Freud Jung Klein and Winnicott and argues that Kohut s self psychology is more appropriate for understanding the psychology of symbolic ritual The psychological claims in the book are presented in the context of social structures cultural expressions and individual and group history Beers includes critiques of such leading theorists of ritual and sacrifice as Durkheim Levi Strauss Douglas Turner Geertz Freud Jung and Girard In analyzing sacrifice among the Malekulans of Melanesia and the eucharist of the American Episcopal Church Beers develops the theory that such rituals have a psychological function that diminishes and controls women He claims that men so fear women that religious ritual excludes women in order that men can gain and retain power over them

Understanding Sublimation in Freudian Theory and Modernist Writing Luke Thurston, 2024 What is at stake in Freud s enduring preoccupation with a process supposedly diverting sexuality into cultural activity In this study a leading scholar of psychoanalysis and literature re opens the old question of sublimation in a critical reading that explores one of the last remaining puzzles of Freudian thought Using the rigorous framework provided by Jean Laplanche Luke Thurston resituates sublimation as an unfinished Freudian concept bound up with a much wider history of philosophical and literary reflection Exploring the misunderstanding and reinvention of

sublimation both in accounts of cultural history and in Lacan's celebrated reading of Antigone. Thurston challenges some of the prevalent assumptions still seen in contemporary Theory. Thurston links his critical investigation of psychoanalysis to modernist literature, discovering both parallels and alternatives to Freud's idea of sublimation in little-known works by May Sinclair and David Jones. The study concludes by arguing that these modernist artists, both of whom were significantly affected by trauma during the First World War, produced work radically at odds with the established canons of representation and that this anti-hermeneutic art can be linked to a Copernican sublimation: a process not controlled by the ego but vitalizing it and decentring its habitual structure.

Sublimation and Superego Jared Russell, 2021-11-29 This book integrates thinking about dilemmas faced in the context of the clinical practice of psychoanalysis today with contemporary social and political concerns specific to the age of the global consumer marketplace. Beginning with an analysis of the fate of the concept of sublimation in Freud's work and its relationship to the elaboration of the concept of the superego in 1923, Jared Russell examines how these concepts provide a lever for integrating psychoanalytic thinking with topics of urgent social concern beyond the critique of ideology. Taking up topics such as the experience of time addiction to consumption and the general consequences of the insinuation of digital technologies at increasingly earlier stages in human development and thinking these through the lens of what the clinical practice of psychoanalysis teaches us about intimate human relatedness, the book addresses how a philosophically oriented approach to psychoanalysis can illuminate our response to the problems of everyday life under conditions of late capitalism. Drawing on a diverse range of authors such as Freud, Heidegger, Hans Loewald, Christopher Bollas, Lacan, Deleuze, and Bernard Stiegler, it is argued that the concepts of sublimation and of the superego must be reinvented with regard to both clinical and critical discourse today if psychoanalysis is to remain relevant to the major issues we face both individually and collectively in the twenty-first century.

Sublimation and Superego Psychoanalysis Between Two Deaths stages a unique encounter between philosophy, critical theory, and clinical practice that will be of interest to psychoanalysts, scholars of twentieth-century continental philosophy, critical social theorists, and mental health practitioners.

The Oxford Handbook of Philosophy and Psychoanalysis Richard Gipps, Michael Lacewing, 2019-02-14 Psychoanalysis is often equated with Sigmund Freud, but this comparison ignores the wide range of clinical practices, observational methods, general theories, and cross-pollinations with other disciplines that characterise contemporary psychoanalytic work. Central psychoanalytic concepts to do with unconscious motivation, primitive forms of thought, defence mechanisms, and transference form a mainstay of today's richly textured contemporary clinical psychological practice. In this landmark collection on

philosophy and psychoanalysis leading researchers provide an evaluative overview of current thinking Written at the interface between these two disciplines The Oxford Handbook of Philosophy and Psychoanalysis contains original contributions that will shape the future of debate With 34 chapters divided into eight sections covering history clinical theory phenomenology science aesthetics religion ethics and political and social theory this Oxford Handbook displays the enduring depth breadth and promise of integrating philosophical and psychoanalytic thought Anyone interested in the philosophical implications of psychoanalysis as well as philosophical challenges to and re statements of psychoanalysis will want to consult this book It will be a vital resource for academic researchers psychoanalysts and other mental health professionals graduates and trainees

Lacan's Ethics and Nietzsche's Critique of Platonism Tim Themi, 2014-04-10 Bringing together Jacques Lacan and Friedrich Nietzsche Tim Themi focuses on their conceptions of ethics and on their accounts of the history of ethical thinking in the Western tradition Nietzsche blames Plato for setting in motion a degenerative process that turned ethics away from nature the body and its senses and thus eventually against our capacities for reason science and a creative flourishing life Dismissing Plato's Supreme Good as a mirage Lacan is very much in sympathy with Nietzsche's reading Following this premise Themi shows how Lacan's ethics might build on Nietzsche's work thus contributing to our understanding of Nietzsche and also how Nietzsche's critique can strengthen our understanding of Lacan

Jacques Lacan Slavoj Žižek, 2003 Jacques Lacan 1901-1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century The texts

selected here present the entire scope of the Lacan debate **Eros and Ethics** Marc De Kesel, 2009-05-26 In *Eros and Ethics* Marc De Kesel patiently exposes the lines of thought underlying Jacques Lacan's often complex and cryptic reasoning regarding ethics and morality in his seventh seminar *The Ethics of Psychoanalysis* 1959-1960 In this seminar Lacan arrives at a rather perplexing conclusion that which over the ages has been supposed to be the supreme good is in fact nothing but radical evil therefore the ultimate goal of human desire is not happiness and self realization but destruction and death And yet Lacan hastens to add the morality based on this conclusion is far from being melancholic or tragic Rather it results in an encouraging ethics that for the first time in history gives full moral weight to the erotic De Kesel's close reading uncovers the real scope of Lacan's criticism regarding the moralizing ethics of our time and is one of the rare books that gives the reader full access to the letter of the Lacanian text **After Queer Theory** James Penney, 2013-11-08 Is queer theory dead Through its increasing entanglement with capitalism James Penney controversially argues that queer theory has run its course However the end of queer should not signal the death of liberatory sexual politics rather it presents the occasion to rethink the relation between sexuality and politics The book makes a critical return to Marxism and psychoanalysis via Freud and Lacan and conducts a critical examination of queer theory's most famous proponents including Judith Butler and Eve Kosofsky Sedgwick In doing so Penney insists that the way to implant sexuality in the field of political antagonism is paradoxically to abandon the exhausted premise of a politicised sexuality He argues that by wresting sexuality from the dead end of identity politics it can be opened up to a universal emancipatory struggle beyond the reach of capitalism's powers of commodification *Nietzsche: Philologist, Philosopher and Cultural Critic* Franson Manjali, 2006-06-06 The book contains the proceedings of a seminar *Nietzsche Philologist Philosopher and Cultural Critic* held at Jawaharlal Nehru University Delhi in November 2004 The papers appearing here were written by scholars from India France Germany and Spain They also come from several disciplinary backgrounds such as Philosophy Literature Political Science Semiotics Mathematics and Aesthetics The authors deal with different and varied aspects of the 19th century German philosopher Friedrich Nietzsche's life and work Nietzsche has been one of the most important influences on contemporary cultural criticism Post structural and post modern thought in the late 20th century French context owes much to Nietzsche's philosophical critique of European culture in particular and by extension of any totalising cultural political and ethical theory or practice anywhere Beginning his career as a trained philologist Nietzsche employed a mode of critical hermeneutics in order to deconstruct the highly cherished values and orientations of Europe especially those associated with post Socratic Greek thought puritan Christianity and modern science Nietzsche's critical relationship with philology was similar to that between post structuralism and structuralism in the 20th century Nietzsche was a controversial colourful and multifaceted philosopher The effects of his philosophy have been felt in fields as literature aesthetics religion ethics music criticism ecology and feminism The over valuation of art with respect to the domain of knowledge was one of his enduring contributions to modern post modern
